

Your Trusted Guide to Business Connectivity

UNO is a uniquely experienced provider and integrator of business communication services and related technologies. We offer voice and network services on our proprietary network and platforms, delivering reliable, secure, and compliant technology solutions to our business-facing customers. Our high-touch proactive responses address today's dynamic business environment, serving:

Enterprise Companies
Outsourcers
Integrators
Value Added Resellers
Application Providers
Government Agencies

Why choose us?

- > **CUSTOMER CENTRIC** - High-touch customer support is at the forefront of our operations. We focus on being available for our customers and listening to them, their needs, and how we can best provide for them.
- > **AGNOSTIC & DIVERSE** - Customize solutions for our Clients through a consultative, independent approach.
- > **UNIQUELY EXPERIENCED** - Supporting Clients in complex environments. 'Deep-dive' technical background in high-volume telecom services situations.
- > **BOUTIQUE & INNOVATIVE** - Nimble in support of client relationships, not burdened by bureaucracy, and staying on top of evolving technology.
- > **FULL SERVICE** - Flexibility to be either 'one stop shop' for customer needs or on an 'a la carte' basis.

Explore our comprehensive Range of Solutions:

MICROSOFT TEAMS VOICE

Enhance your Microsoft Teams experience with our advanced voice-calling features. Utilize direct routing to connect your existing phone system to Teams, or choose cloud-based calling solutions for ease of use. Enjoy advanced features like call recording, analytics, and seamless integration within the Teams interface.

SIP SOLUTIONS

Transform your customer interactions with our reliable and cost-effective SIP trunking solutions. Consolidate your network of individual SIP trunks into a single unified connection, reduce complexity, streamline operations, and benefit from our competitive rates and enhanced call features.

TELECOM COMMUNICATIONS PROTECTION

Protect your business from spoofed calls and enhance security with our comprehensive telecom communications protection solutions. Block spoofed calls, maintain brand reputation, and gain valuable data on spoofing attempts, safeguarding your customers and business.

IOT SOLUTIONS

Connect and manage smart devices across various industries with our IoT solutions. Monitor and control operations with real-time data exchange, enhancing efficiency and performance. Our solutions cover applications from smart cities to industrial automation and connected vehicles.
