# The Same and Different at School

My name is Kobey.

I am in fourth grade.

**Lots of things about me are the same.**

**I eat breakfast every morning.**

I brush my teeth.

I go to school.

Some things are different.

I open the door with a button.

My classroom is upstairs.

I have a key to take the elevator.

I use a stool to help my feet reach the ground.

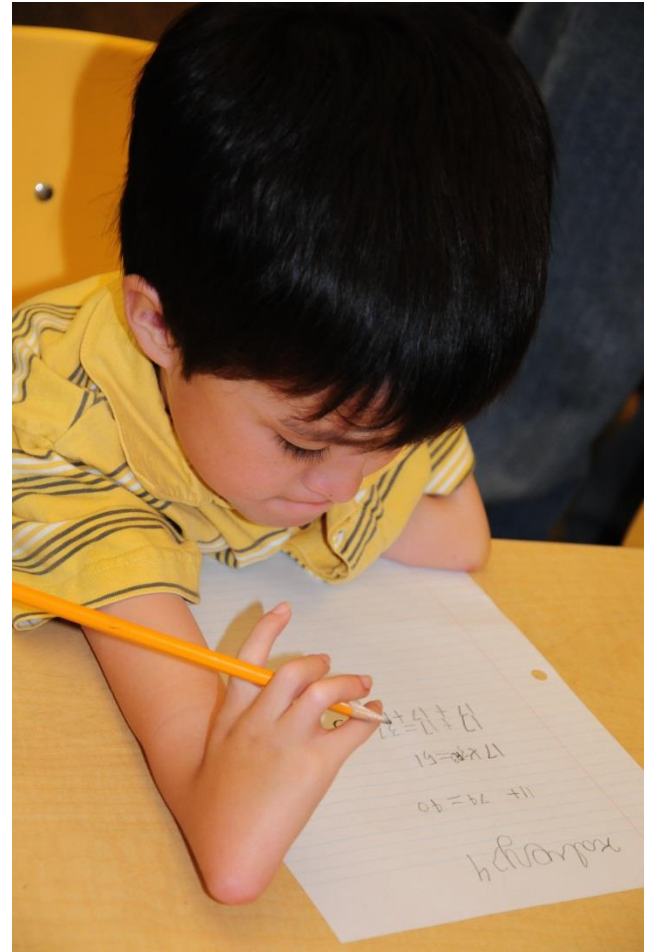

I attend reading groups with the other students.

I work on math problems with my classmates.

I play outside with my friends.

I go in early from recess to set up  
my lunch.

I take vitamins at school to stay healthy.

I use a voice to text program for writing assignments.

First I put on the headset.

Then I use voice commands to type.

I go to music class.

I listen in library.

I participate in the science fair.

I run in P.E.

I chat with the staff.

I play dodgeball.

I can ride a scooter.

I even play baseball for an award winning team.

Some things about me are different..

...but a lot are the same!
