GLOBAL MATH PROJECT

FEATURING *EXPLODING DOTS*

“Hands up in the air in triumph!
Decades of believing I couldn’t
do math—poof! Exploded!”

“Eureka! Now I understand why
we add numbers this way.”

“Exploding Dots has changed
my mind, and thus my life!
Thank you!”

“My students are so engaged
that you will still hear them
saying kapows and kabooms
in the hallways...”

“Exploding Dots blew my kids’
mind! So much so, they wanted to
miss PE to continue with math!”
