

REFRIGERATION, AIR CONDITIONING & HEAT PUMP TECHNICIAN

CONSTRUCTION & TRADES PATHWAY

LEVEL 3 APPRENTICESHIP STANDARD

This apprenticeship develops skilled technicians who install, maintain, diagnose, and repair refrigeration, air conditioning, and heat pump systems across domestic, commercial, and industrial environments.

Combining technical expertise with environmental awareness, regulatory compliance, and customer service, the programme equips learners to work safely and confidently with evolving technologies that are critical to modern buildings and the UK's transition towards low-carbon heating and cooling solutions.

FOR INDIVIDUALS

Develop the technical knowledge, practical capability, and professional confidence needed to build a successful career within the refrigeration, air conditioning, and heat pump sector.

FOR EMPLOYERS

Develop competent technicians who can support service delivery, maintain compliance, and help organisations respond to increasing demand for sustainable heating and cooling solutions.

INCLUDED CERTIFICATIONS

This programme includes 3 mandatory qualifications, ensuring compliance and competency.
