# SPOT THE VIOLATION

Samantha Gamgee is a women's soccer student-athlete at Rivendell University. During the summer vacation period, she reaches out to the team's strength and conditioning coach and asks the coach if she could design some workouts for her and conduct them as well. After the training session, the strength coach runs into the women's soccer head coach. During their conversation, the strength coach mentions that she just put Samantha through a workout, but doesn't mention the type of workout or the results. Spot the violation.

It is impermissible for the strength coach to report any information about a voluntary activity to a coach, including the names of the student-athletes that participated. It is permissible for the strength coach to design and conduct the workout since the student-athlete requested the workout.
