

POST-GAME QUOTES VS. NAVY

DECEMBER 10, 2017

COACH BRADBURY

"After the game, it was two really good teams competing at a high level. Navy never quit and they were extremely frustrating to play. They are so disciplined, well coached and that's on top of having really good players.

"This is exactly the kind of game we expected. It didn't disappoint and I appreciate the nearly 7,000 fans that came out today. They were tremendous and it was really loud. It was a great atmosphere and I can't thank the fans enough – hopefully they'll keep coming."

"I don't think either team would have said they lost the game. We just kind of ended up with a few more points there at the end but hats off to Navy."

"I want to get back to practice on Wednesday. We've got a long way to go and we need to get back in there and get better."

"Thanks again to the almost 7,000 fans that came out today and I don't know if we could have hung in there long enough in overtime to win without the crowd. That was great."

CHERISE BEYNON

"We knew going into this game that Navy was going to be a really good offensive team. They're really well disciplined in what they do."

"It's great to have the support of the community and having them come out to support us. It's been a really great feeling to have them have our backs. So we just want to keep playing well and increase the fans every game. Us, playing the way we do, I think it's going to continue going that way."

TESHA BUCK

"We knew coming into the game it was going to be a close one. I think what we did well was stay calm, kept playing and played through it."

"I think just maturity. If I was a freshman, I probably would've been scared and nervous and, you know, 'What do I do?' But I think that comes from maturity and playing for a while, knowing what to do and how to take it."
