## TEAM NOTES

### FALCONS AMONG ELITE ACADEMICALLY, AGAIN

The Air Force football team has established itself among the nation's elite academically. The Falcons ranked third nationally in Academic Progress Rate (APR) in 2020 with a score with a 995, according to the NCAA's latest multiyear NCAA Division I scores. This season marks the ninth straight year in the top 10. Air Force and Northwestern are the only programs in the nation to be in the top three each of the last three years. Air Force led the nation in 2019 with a 997 and was second in 2018 with a 993.

The NCAA announcement is part of the overall Division I academic reform effort and is intended to highlight teams that demonstrate a commitment to academic progress and retention of student-athletes by achieving the top APRs within their respective sports. The APR provides a real-time look at a team's academic success each semester by tracking the academic progress of each student-athlete on scholarship (recruited and on varsity roster for non-scholarship schools). The APR accounts for eligibility, retention and graduation and provides a measure of each team's academic performance.

## THE DIESEL

Air Force's offensive line has taken on a new identity the last few years. The group calls itself the Diesel, which represents an attitude of toughness and 'we will block for you, so let's go get it.' The team purchases hats with a diesel pump handle on it and hands them out to the members of the line. The linemen also hand them out a select few that they feel shares their attitude. Air Force junior quarterback Haaziq Daniels earned one following the Florida Atlantic game after breaking a 50-year-old record with a 94 yard touchdown run.

Air Force's offensive line has another special distinction this season. The Falcons entered the season with the most inexperienced offensive line in the nation. The unit lost its top six (all five starters and top reserve) from last season and returned just three starts overall. Seniors Hawk Wimmer and Kris Campbell each started vs. San Jose State last season, while fellow senior Ryan Booth started against Utah State. Navy entered the season with 18. No other team had less than 25.

## BLOCKED KICKS

- Air Force has blocked at least one kick in each of Troy Calhoun's 15 seasons.
- Air Force got its first block of 2021 when Jordan Jackson blocked an extra point vs. Utah State. The block is the second of Jackson's career, as he blocked a PAT at Colorado in 2019.
- Air Force has blocked 43 kicks since 2007 under Calhoun. The breakdown: 14 field goals, 19 extra points, 10 punts.
- Air Force has blocked 141 kicks since 1990 when the program began tracking them. The breakdown: 41 field goals, 39 PATs and 61 punts.

The first college football game at Globe Life Field will feature a traditional rivalry service academies.

The two-year agreement begins on November 6, 2021 with Air Force as the home team. Army will be the home squad for the return meeting on November 5, 2022.

## AIR FORCE FUTURE FOOTBALL SCHEDULES

Director of Athletics Nathan Pine announced a number of upcoming football series in future years. The future Air Force football schedules are highlighted by visits to Falcon Stadium from Colorado, Baylor and New Mexico State. Colorado is the first team from a Power 5 conference to visit Falcon Stadium since California in 2004, while Baylor is the first home-and-home series with a Power 5 team since the Colorado series which began in 2019.

"We are pleased to announce these important upcoming football games both home and away," Pine said. "Our scheduling approach to a 5-year cycle will be a home-home series with a Power 5 opponent, a home-home series with a Group of 5 opponent and one high profile game on the road. When scheduling away opponents, we look to try to visit strategic recruiting regions, areas with strong alumni support, and schools with Air Force bases near them. The home FCS opponent on opening weekend annually is also an important institutional priority and gives the Academy the ability to ensure a home game to build Parent's Weekend around following Basic Cadet Training. Football scheduling will always be a moving target and our success sometimes makes it challenging so we remain flexible while trying to ensure attractive home games for our local fans and great away games to best showcase Air Force Football nationally."

## PROPOSED MODERNIZATION COMING TO FALCON STADIUM

After nearly six decades of football games, graduations, concerts and various events, proposed renovations are coming to Falcon Stadium, with a goal of transforming the facility into a state-of-the-art, world-class venue.

The Air Force Academy Foundation and the Air Force Academy Athletic Corporation have announced a proposed multiphase Falcon Stadium renovation project as part of the Defining Our Future campaign in support of the Air Force Academy, publicly launched on Sept. 10.

“We need to continue to invest and improve our fan experience in Falcon Stadium,” said Nate Pine, Air Force Academy director of athletics. “There is a lot of competition out there for entertainment dollars, and there is a lot of expectation in our fan base in what they’re seeing in other venues, so we need to make sure we continue to be relevant from an experiential standpoint every bit as much as we want to be competitive and win games on the field.”

The investment required for the initial phase will total \$70 million, with philanthropic support from the Air Force Academy Foundation providing \$35 million as part of the campaign and the remaining half financed by Athletic Corporation revenue. The current phase is part of a multiphase master plan to upgrade and transform Falcon Stadium and will total about \$180 million when finished.

With most of the initial upgrades coming on the east side of the stadium, the proposed plans include a dramatic new stadium entrance, an updated event space, relocation of the cadet section and a heritage plaza. Improved seating, concessions areas, restrooms and merchandise space will offer fans a more modern and comfortable feel as they take in an event.

“Businesswise, it’s a breakthrough for the institution that has to happen to be modern,” said Troy Calhoun, Air Force Academy football coach and 1989 graduate of the Academy. “I think there is as much yearning and as much momentum as there has ever been in the history of the Air Force Academy, not only to make some philanthropic contributions but to help the institution.”

The proposed modernization looks to turn the iconic venue into a world-class event center. “I think the enhancements make it more attractive for a myriad of events,” Pine said. “It hosts Falcon football and Falcon lacrosse in our sporting teams, but with graduation every year, and being visited by the president of the United States every four, it’s a big-time venue.”

The Falcon Stadium modernization project is part of the Defining Our Future campaign in support of the United States Air Force Academy. To learn more about the project, visit: [www.afacademyfoundation.org/stadium](http://www.afacademyfoundation.org/stadium).

**Air Force honors B-52 with Air Power Legacy Series in 2021**

The Air Force football team is honoring the B-52 Strato-fortress with the 2021 edition of the Air Power Legacy Series uniform. The Falcons debuted the uniform for the Navy game on Sept. 11, the 20-year anniversary of 9-11. The helmet is designed after the B-52s that flew in Operation Linebacker II and are painted in the Air Force SEA (Southeast Asia) camo, with USAF on one wing and the roundel on the other. The Strategic Air Command adorns the front right chest of the uniform while the name plate uses the orange outline with the airport codes for Andersen AFB, U Tapo and the 7th Bomber Wing patch to represent all former B-52 units. The left pant leg features 11 B-52 plane silhouettes representing the 11 days of bombing during the conflict. The right side pant leg has the tail flash of the plane and the number on each player's pant leg matches their uniform number for the first time in the history of the series.

The B-52 was prominently featured in the Linebacker II conflict which was the operational nickname for the resumption of full-scale bombing and mining of North Vietnam. In 1972, the enemy had grown stronger and the outlook for American forces was extremely bleak. Supplied by the Soviet Union and China, the North Vietnamese had built up one of the strongest and most extensive air defense systems in the world. The US ground presence had been reduced to roughly 26,000 troops. Attempts at diplomacy were failing and it was becoming increasingly clear that the North Vietnamese were stalling at the negotiation table. Operation Linebacker I, which ran from May to October of 1972, had been successful in pushing the North Vietnamese out of South Vietnam, and restarting peace talks, but when bombings were suspended in October, it was taken as a sign of weakness and provided opportunity for the Viet Cong to recover and strengthen their defense.

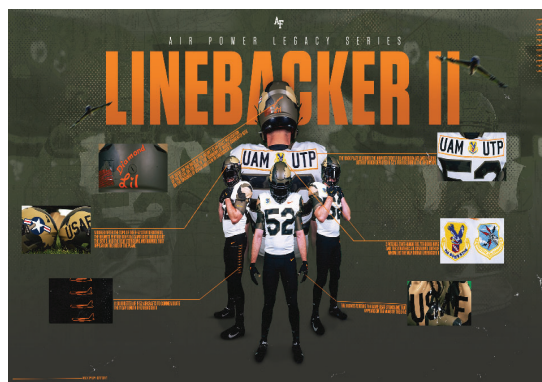

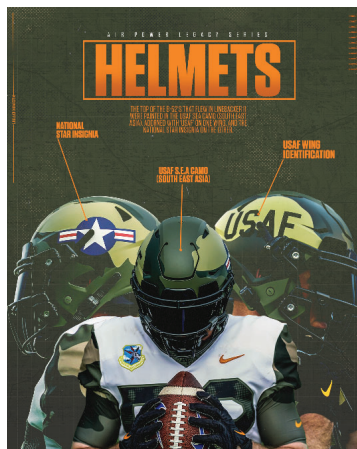

In December of 1972, the president gave the order to commence a three-day "maximum effort" campaign against the North Vietnamese forces. This was the first time in conflict that the Air Force was allowed to bomb strategic targets in a concentrated effort. Under the command of the Strategic Air Command and executed by the 7th Air Force, Linebacker II was a concerted team effort. During the day, F-111s and other Air Force aircraft flew preemptive strikes against air defenses including SAM sites and air fields, while at night the B-52s would fly to drop their payloads on targets in Hanoi and Haiphong.

The United States paid a price for the accomplishments of Linebacker II. During the bombing raids, U.S. Air Force and U.S. Navy aircraft encountered intense enemy defensive actions that resulted in the loss of 26 aircraft in the 12-day period. Air Force losses included 15 B-52s, two F-4s, two F-111s and one HH-53 search and rescue helicopter. Navy losses included two A-7s, two A-6s, one RA-5 and one F-4. Seventeen of these losses were attributed to the SA-2 missiles, three of daytime MiG attacks, three to anti-aircraft artillery and three to unknown causes.

A new strategy was conceived in which the bombers would fly to targets at different altitudes from different headings. The change in strategy and intensity of the assault was extremely successful and provided a boost in morale for American POWs in Vietnam who heard the booms and knew freedom was coming. Linebacker II directly led to the return of POWs. The eighth day of the bombings on Dec. 26th proved to be one of the most successful with 78 B-52s in four waves attacking Hanoi simultaneously from four different directions, while 42 bombers in three waves struck Haiphong. Nearly 10,000 bombs were dropped in a matter of minutes by the largest single wave of B-52s ever amassed.

**Linebacker II Breakdown**

- 20,000 tons of bombs dropped
- 729 completed missions
- 1,300 SAMs launched at US aircraft
- The longest range bombardment mission in the history of aerial warfare at the time
- Brought the North Vietnamese back to the bargaining table
- Proof of the viability of airpower
- Example of the evolution of tactics, techniques and procedures in warfare

**APLS HISTORY**

• The Air Power Legacy Series began in the 2016 season with the football team wearing an alternate uniform to celebrate the Tiger Shark teeth nose-art which has been represented on multiple Air Force aircraft dating back to World War II. During the WWII era, fighter plane pilots were called "Flying Tigers" and were part of the U.S. Army Air Corps, which later became the Air Force. The helmets worn for the game featured a shark-teeth design like those painted on the aircraft.

• While 2016 focused on the past, the Falcons honored the present, and future, of air power in 2017 with the F-35 theme. The F-35 completed its first flight in 2006. In 2012, the F-35 program increased to 30 aircraft. In 2016, the F-35A was declared combat ready by Gen. Hawk Carlisle, the commander of the Air Combat Command. The helmet had five different designs. On one side of every helmet will be the familiar Air Force logo often seen on aircraft, which includes the length-wise bars intersecting the roundel. On the other side was a decal representing one of the five Air Force F-35-A operational fighter squadrons in the Air Force.

• The team honored the AC-130 in 2018. The helmet featured the AC-130 on one side, plus squadron patches on the other. The AC-130 gunship is a heavily armed, long-endurance ground-attack variant of the C-130 Hercules transport fixed-wing aircraft. It carries a wide array of anti-ground oriented weapons that are integrated with sophisticated sensors, navigation, and fire-control systems. Unlike other military fixed-wing aircraft, the AC-130 relies on visual targeting. Because its large profile and low operating altitudes (around 7,000 ft) make it an easy target, it usually flies close air support missions at night.

• Air Force honored the C-17, a large military transport in 2019. The C-17 commonly performs tactical and strategic airlift missions, transporting troops and cargo throughout the world; additional roles include medical evacuation and airdrop duties. The C-17 is designed to operate from runways as short as 3,500 ft (1,100 m) and as narrow as 90 ft (27 m).

• The Falcons honored the Tuskegee Airmen with the 2020 edition. The uniform was gray with black lettering. The chrome base gray helmet featured the P-51 aircraft flown by the Tuskegee Airmen in combat with signature red tails and nose that helped identify the group. The helmet featured the four squadron emblems for the 99th, 100th, 301st and 302nd fighter squadrons. The pants featured an authentic stenciled information graphic on the side. The custom nameplate on the jersey said Red Tails, inspired by hand-lettered names painted on the side of the P-51 aircraft.

## HEAD COACH TROY CALHOUN

Troy Calhoun is in his 15th season as head coach at Air Force, where he has a 104-73 overall record and a 61-46 mark in Mountain West play. He has led Air Force to 10 bowl games, including a school-record six straight from 2007-12.

Calhoun, who won his 100th game during the 2020 season, has led the program to an 11-win season (2019), two 10-plus win seasons (2014, 2016), a pair of nine-win seasons (2007, 2010) and three with eight wins (2008, 2009 and 2015). He has led the Falcons to the Commander-in-Chief's Trophy four times. Calhoun led the Falcons to an 8-6 overall record in 2015 and the Mountain Division championship and first-ever MW title game appearance. The 2019 Falcons posted an 11-2 overall record, the third-most wins in program history, and finished second in the MW Mountain Division with a school-record-tying 7-1 record.

Calhoun is the only coach in the 100-plus year history of service academy football to lead teams to at least seven wins and a bowl game in each of his first five seasons. Calhoun has been a semifinalist for the National Coach of the Year award three times (2007, 2010, 2019). Calhoun came to his alma mater in 2007 and took over a program that had three straight losing seasons. Air Force finished the 2007 season 9-4 overall and placed second in the Mountain West Conference with a 6-2 mark in Calhoun's first year. The Falcons earned their first bowl bid in five seasons, advancing to the Bell Helicopter Armed Forces Bowl in Fort Worth, Texas. The five-game turnaround from the previous season was the largest in the nation by a first-year head coach and tied as the third-largest overall in the nation.

Calhoun was named the conference's coach of the year for his efforts. In addition, he was named coach of the year in Region 5 by the American Football Coaches Association and was one of eight finalists for national coach of the year honors.

Calhoun brought a wealth of experience and impressive resume at the collegiate and professional levels that is flooded with success at every stop to the Academy. Calhoun came to the Academy after serving as offensive coordinator and quarterbacks coach for the Houston Texans in 2006. The Texans were one of only two NFL teams to triple their number of wins from the previous year.

Calhoun became a well-rounded NFL coach, working as a defensive assistant, special teams assistant and offensive assistant with the Denver Broncos from 2003-05. He began his NFL coaching career by serving as the defensive assistant under defensive coordinator Larry Coyer in 2003.

Prior to the NFL, Calhoun was an offensive coordinator for six seasons on the collegiate level. He began his coaching career at Air Force, where he worked as a graduate assistant from 1989-90. He started at quarterback for the Academy in 1986 and was one of only two freshmen to letter for the 1985 team that finished fifth in the final polls with a 12-1 record that included wins over national powers Notre Dame and Texas.

Calhoun served his country from 1989-95 as an active duty officer in the Air Force. He was the Falcons' recruiting coordinator and the junior varsity offensive coordinator in 1993-94. He moved to Ohio University in 1995 where he served as the quarterbacks coach for two seasons. Calhoun was promoted to offensive coordinator in 1997. Calhoun moved to Wake Forest in 2001 and remained there prior to his stint with the Broncos.

Groomed on the basics of integrity and passion, Calhoun is a native of Roseburg, Ore., and was raised in a home where both kids graduated from the Air Force Academy and were varsity letter winners on nationally ranked teams. He and his wife, Amanda, live in Colorado Springs and have two children, Tyler (19) and Amelia (17).
