THE AIR FORCE WAY

• Air Force players have eight semsters to play four seasons of athletics. On occassion, a player can take a turnback due to a serious injury or personal reason and return to the Academy.
• Air Force does NOT have a redshirt program. Every player on the roster was recruited out of high school.
• There are no transfers, as it's unusal for a transfer to attend an Academy since you have to start over as a freshman and go through the entire 47-month program.
• Air Force players are not eilible to earn NIL, as they are considered government employees and as such are not able to endorse.
• Air Force players average between 18-21 semester hours. Every cadet is required to take Astronautical Engineering 310, which is commonly known as rocket science.
• Air Force summers are broken into three, three-week periods. Generally, one to two is for military training and one for summer leave.

HEAD COACH TROY CALHOUN

Troy Calhoun is in his 20th season as head coach at Air Force where he has a 148-99 overall record and 88-65 mark in Mountain West play. He has led Air Force to 13 bowl games, including a school-record six straight from 2007-12.

Calhoun has led the program to an 11-win season (2019), four 10-win seasons (2014, 2016, 2021, 2022), three nine-win seasons (2007, 2010, 2023) and three with eight wins (2008, 2009 and 2015). He has led the Falcons to the Commander-in-Chief's Trophy five times, including 2022. Calhoun led the Falcons to an 8-6 overall record in 2015 and the Mountain Division championship and first-ever MW title game appearance. The 2019 Falcons posted an 11-2 overall record, the third-most wins in program history, and finished second in the MW Mountain Division with a school-record-tying 7-1 record.

Calhoun is the only coach in the 100-plus year history of service academy football to lead teams to at least seven wins and a bowl game in each of his first five seasons. Calhoun has been a semifinalist for the National Coach of the Year award three times (2007, 2010, 2019). He came to his alma mater in 2007 and took over a program that had three straight losing seasons. Air Force finished the 2007 season 9-4 overall and placed second in the Mountain West Conference with a 6-2 mark in Calhoun's first year. The Falcons earned their first bowl bid in five seasons, advancing to the Armed Forces Bowl in Fort Worth, Texas. The five-game turnaround from the previous season was the largest in the nation by a first-year head coach and tied as the third largest overall in the nation.

Calhoun brought a wealth of experience and impressive resume at the collegiate and professional levels that is flooded with success at every stop. Calhoun came to the Academy after serving as offensive coordinator and quarterbacks coach for the Houston Texans in 2006. The Texans were one of only two NFL teams to triple their number of wins from the previous year.

Calhoun became a well-rounded NFL coach, working as a defensive assistant, special teams assistant and offensive assistant with the Denver Broncos from 2003-05. He began his NFL coaching career by serving as the defensive assistant under defensive coordinator Larry Coyer in 2003.

Prior to the NFL, Calhoun was an offensive coordinator for six seasons on the collegiate level. He began his coaching career at Air Force, where he worked as a graduate assistant from 1989-90. He started at quarterback for the Academy in 1986 and was one of only two freshmen to letter for the 1985 team that finished fifth in the final polls with a 12-1 record that included wins over national powers Notre Dame and Texas.

Calhoun served his country from 1989-95 as an active-duty officer in the Air Force. He was the Falcons' recruiting coordinator and the junior varsity offensive coordinator in 1993-94. He moved to Ohio University in 1995 where he served as the quarterbacks coach for two seasons. Calhoun was promoted to offensive coordinator in 1997. Calhoun moved to Wake Forest in 2001 and remained there prior to his stint with the Broncos.

Groomed on the basics of integrity and passion, Calhoun is a native of Roseburg, Ore., and was raised in a home where both kids graduated from the Air Force Academy and were varsity letter winners on nationally ranked teams. He and his wife, Amanda, live in Colorado Springs and have two children, who are both married. Their son, Tyler, is married to Caroline, and their daughter, Amelia, is married to 2nd Lt. Hudson Tyner, Air Force Academy class of 2025.

THE DIESEL STORY

• The Air Force offensive line is nicknamed the Diesel. The background dates to 2018 when center Christopher Mitchell happened to be walking through the locker room and bumped into tight end Lesley Dalger, who referred to Mitchell as a diesel. The lineman took it and ran with it. The group developed a motto of "It starts with us" meaning that if the offensive line doesn't have a solid game it will be difficult to win. The group takes that mentality to practice every day. They have a blue-collar, bring-your-lunch-pail-to-work mentality. The linemen have hats with a diesel pump and a drop of fuel on the front. Legend has it that they found the hats at a truck stop. The mother of a former Falcon, Wolfgang Rehbock, helped secure 20-25 hats to get it started. Offensive linemen have to earn the hat, but they also give them out to other position players that they feel take on their mentality. There is an official ceremony when a player earns the hat, which is voted on by seniors on the offensive line. The ceremony is shrouded in secrecy, as the members do not discuss it.
• The year's edition has helped the Falcons rush for 431 yards while holding the ball for 40:50 in the season opener vs. Duquesne. Air Force added 439 yards at NIU, 430 vs. UNLV, a season-high 452 vs. San Jose State and 429 vs. UTEP. Air Force added 366 yards and held the ball for a season-best 41:54 vs. UConn.
• The Falcons lead the nation in rushing with a 351.7 average. The group leads the MW and ranks fourth nationally in sacks allowed with a .64 mark.
• Air Force leads the nation in time of possession with a 37:02 mark. The team has led the nation two straight weeks.

TROY CALHOUN ON PAUL "BEAR" BRYANT COACH OF THE YEAR WATCH LIST

Twenty-eight football coaches make up the American Heart Association's 2026 Paul "Bear" Bryant Coach of the Year Award watch list, a list of current coaches in consideration for the annual top honor. The award is given each January to a college football coach for contributions that make the sport better for athletes and fans alike by demonstrating grit, integrity and a winning approach to coaching and life – both on and off the field. This award is the only college football coaching honor given after the National Champion has been determined.
The American Heart Association, a relentless force changing the future of health for everyone everywhere, presents the Bear Bryant Awards annually to celebrate excellence in coaching, to honor coach Bryant's legacy and to raise awareness and critical funds for its mission. The coaching legend died from a heart attack in 1983, just 28 days after his final victory and retirement. Since its inception, the awards have united the football community in support of the Association's lifesaving work.
The watch list, finalists and Coach of the Year recipient are voted on by the National Sports Media Association and the Paul "Bear" Bryant Awards Executive Leadership Team, comprised of members of the Bryant family and community leaders who come together to support the campaign.

AIR FORCE 101

The Cadet Wing

- To prepare cadets for the life of an officer, the Cadet Wing at the U.S. Air Force Academy simulates the organization of an operational Air Force wing.
- Cadets are responsible for running and operating the wing, which affords them the opportunity to learn how to use a chain of command, how to function as part of various military formations and how military units organize to accomplish collective tasks.
- Within the Cadet Wing, first-class (senior) cadets hold the positions of cadet officers, second-class (junior) cadets act as the cadet non-commissioned officers and third-class (sophomore) cadets represent the cadet junior non-commissioned officers. Fourth-class cadets act as followers and function as cadet Airmen.

Cadet Squadrons

- The 4,000+ cadets who comprise the Cadet Wing are divided into four groups of 10 squadrons each. Cadets live, eat and take part in military training with their squadrons, which are comprised of roughly even numbers of cadets from all four class years. The squadron is the "home" or "family" for the cadets. Cadets typically forge very close bonds with their squadron-mates.
- When the first class entered the academy in the summer of 1955, they were divided into four squadrons. In the years following, the number of squadrons gradually increased at an average of four to eight per year. By 1970, the size in the cadet wing reached its peak of 40 squadrons. The number of squadrons dipped from 40 to 36 in 1999 but returned to its current strength of 40 squadrons in 2006.
- Air Officers Commanding (AOC) supervise cadets and are located within each group and squadron. These Air Force officers oversee all cadet activities, provide instruction and serve as role models as the cadets experience firsthand the processes of command and organization to accomplish the mission. Academy Military Trainer (AMT) NCOs complement the AOCs and provide an enlisted role model perspective.

Air Force football is one of two programs nationally to have a perfect GSR score of 100. All colleges and universities are required by NCAA legislation and federal law (the Student-Right-to-Know act from 1990) to report student graduation rates, and those institutions offering athletics aid are required to report for their student-athlete as well. The NCAA acquires student-athlete graduation data from the Department of Education's Integrated Post-Secondary Data System Graduation Rate Survey (IPEDS-GSR).
