

ROS By Example Errata for Book Versions 1.01 and lower:

Section 10.7

The command:

```
$ roslaunch rbx1_vision video2ros.launch input:='rospack find  
rbx1_vision`/videos/hide2.mp4
```

should be on one line:

```
$ roslaunch rbx1_vision video2ros.launch input:='rospack find rbx1_vision`/videos/hide2.mp4
```

Section 10.9.2

The reference in the text to the "NITE Skeleton Tracker window" is obsolete and should be ignored.

Section 11.3.1

The name of the launch file in the command below is incorrect:

```
$ roslaunch rbx1_apps person_follower.launch
```

It should be:

```
$ roslaunch rbx1_apps follower.launch
```
