# User Manual

## **Introduction:**

\$aveZone android main role is to create an environment that will allow finding in **real-time** profitable **deals** according to **location** and **needs**.

*The deals will include only the products of immediate consumption, like drinks or food.*

This document will help you use \$aveZone easily and use all supported features.

## **Requirements:**

As mentioned. \$aveZone is an android application.

- Android version 2.3.3 or above.
- Internet Connection.
- GPS (recommended).
- Facebook account (recommended).

## **Opening Screen**

Opening the application will show a very simple and easy to use screen.

The opening screen includes:

- User preference button- which will open [user preference screen](#).
- Map view – which will open the [map screen](#).
- Deals flipper – showing the relevant deals for you.

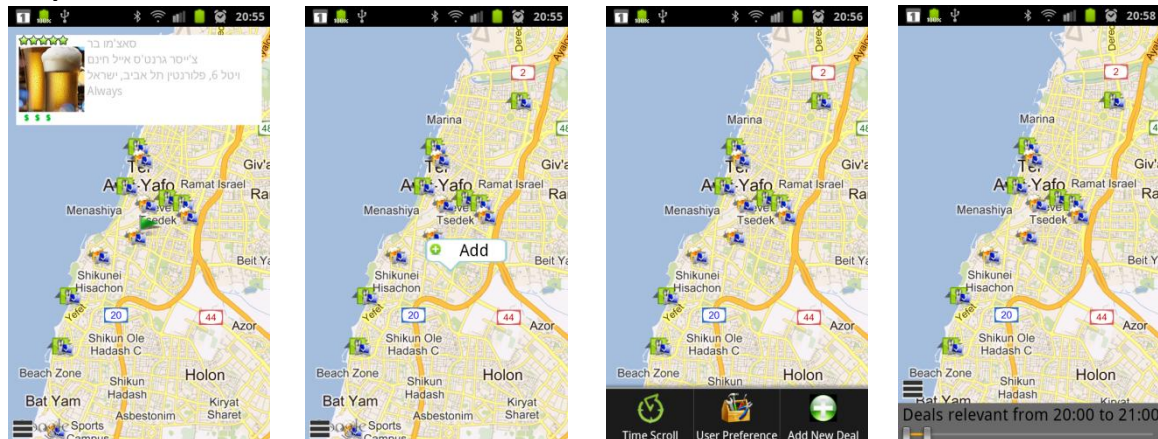

On tapping on deal – will open a [deal info screen](#).

## \$aveZone

### Map screen

When the user's location is detected the map will show his current location and show the deals around him. You are shown as a red pin.

In addition each type of deal has a different icon on the map, helps you easily locate the deals you are most interested in.

Tapping on each of the deal icon will open a pop up, briefly describe the deal. Tapping on the deal description will open a screen with the full deal description and information – [deal info screen](#).

AT the left bottom corner there is list icon. Tapping on the list icon will open [deals list screen](#).

Menu button – menu button includes three buttons:

- User preference – which will open [User preference screen](#).
- Double time scroll – which enable you control the relevant deals to a specific delta time.
- Add – which enable you in a tapping on the map add deal relevant to that specific location(using "[Did you mean?](#)" feature) – (Tapping on the map will open [add screen](#)).

Long tap on the map will open add pop up, tapping on it will open add screen for that specific location (using "[Did you mean?](#)" feature).

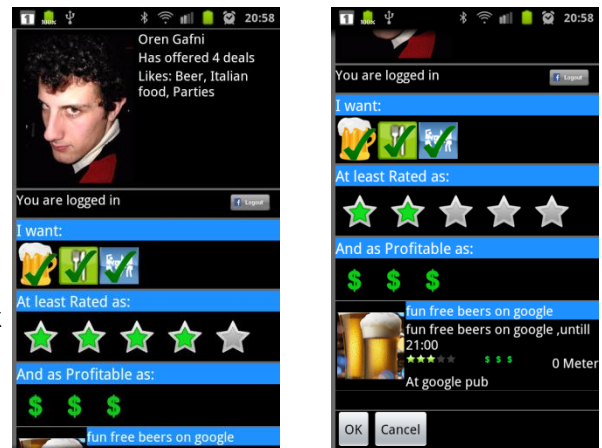

## SaveZone

- Relevant week days for the deal.
- Deal relevant time: time start and time end.
- Deal information.
- Initial rate and profit rate.

A screenshot of the 'New Business' screen. It features a text input field for 'At:' with 'New Business' entered. Below it is a dropdown menu for 'Type:' set to 'Pub'. There are two time selection sections: 'Starts:' with a digital clock showing 20:00 and 'Ends:' with a digital clock showing 22:00. At the bottom, there is a 'Days' selector with buttons for S, M, T, W, T, F, S, and All.

A screenshot of the 'Deal Info' screen. It shows a large input field for 'Deal Info:'. Below this is a 'Rate it:' section with five star icons, the first of which is filled green. At the bottom, there is a 'Profit:' section with three green dollar sign icons. The screen has 'Cancel' and 'Add' buttons at the very bottom.

### "Did you mean?" feature:

A feature which suggests business to add the deal to according to the point you picked on the map. Picking "other" will create a new business.
