**Head Injury**

Penn State Sport Camps staff will manage head injuries, including suspected concussions, conservatively using the 'ABC' (A-Assess the situation, B-Be alert for signs and symptoms, C-Contact a health care professional) recommendation of the Centers for Disease Control and Prevention (CDC). This includes immediate removal of a camp participant from play upon sustaining a head injury and using appropriate field clinical techniques to screen a camp participant for typical signs and symptoms associated with a concussion. Upon presenting with any associated signs and symptoms of a concussion, the Sports Health Care staff will advise a parent/legal guardian/coach that the respective camp participant discontinue play immediately.

Penn State Sports Camps adheres to the notion that a licensed physician with training in managing traumatic brain injury will make the final recommendations and decision regarding returning a camp participant to play after a head injury with suspected concussion. Thus, Sports HealthCare personnel will NOT make such decisions.

Penn State Sport Camps advocates that parents/legal guardians, coaches/administrators and camp participants alike review the CDC 'Heads Up' concussion training online tutorial at <http://www.cdc.gov/concussion/headsup/training/headsupconcussion.html> BEFORE attending related events on campus. Sport Camps also mandates that parents/legal guardians, coaches/administrators and camp participants review the corresponding 'Heads Up' fact sheet for parents, coaches and athletes (camp participants) respectively.
