Head Injury

Penn State Sport Camps staff will manage head injuries, including suspected concussions, conservatively using the 'ABC' (A-Assess the situation, B-Be alert for signs and symptoms, C-Contact a health care professional) recommendation of the Centers for Disease Control and Prevention (CDC). This includes immediate removal of a camp participant from play upon sustaining a head injury and using appropriate field clinical techniques to screen a camp participant for typical signs and symptoms associated with a concussion. Upon presenting with any associated signs and symptoms of a concussion, the Sports Health Care staff will advise a parent/legal guardian/coach that the respective camp participant discontinue play immediately.

Penn State Sports Camps adheres to the notion that a licensed physician with training in managing traumatic brain injury will make the final recommendations and decision regarding returning a camp participant to play after a head injury with suspected concussion. Thus, Sports HealthCare personnel will NOT make such decisions.

Penn State Sport Camps advocates that parents/legal guardians, coaches/administrators and camp participants alike review the CDC 'Heads Up' concussion training online tutorial at <http://www.cdc.gov/concussion/headsup/training/headsupconcussion.html> BEFORE attending related events on campus. Sport Camps also mandates that parents/legal guardians, coaches/administrators and camp participants review the corresponding 'Heads Up' fact sheet for parents, coaches and athletes (camp participants) respectively.

- 'Heads Up' Fact Sheet for Coaches http://www.cdc.gov/concussion/pdf/coaches_Engl.pdf
- 'Heads Up' Fact Sheet for Athletes http://www.cdc.gov/concussion/pdf/athletes_Eng.pdf

I understand that all Youth Program participants are recommended to have a meningococcal vaccination prior to attending the program.

In the event that an illness or injury would require more extensive evaluation, I understand that every reasonable attempt will be made to contact me. However, in the event of an emergency and if I cannot be reached, I give my consent for Penn State University Health Services staff or other licensed health care practitioners to perform any necessary emergency treatment.

I hereby authorize the clinical staff at The Pennsylvania State University ("Penn State" or the "University") (e.g., clinical staff at Penn State's University Health Services) or other licensed health care practitioners, acting within the scope of his or her practice under State law, to provide medical care that includes routine diagnostic procedures (e.g., x-rays, blood and urine tests) and medical treatment as necessary to my minor daughter/ son/dependent. I understand that the consent and authorization herein granted does not include major surgical procedures and is valid only during the Youth Program/event.

I agree to the release of records necessary for treatment, referral, billing, or insurance purposes to the appropriate medical care provider. If treatment is provided by Penn State, I understand that the University charges for services and that it is my responsibility to pay the bill. I may be responsible to submit any claims to my health insurance carrier for reimbursement. I also authorize Penn State to receive medical/billing information and submit it to the University's insurance carrier.

I understand that, unless specifically stated otherwise in the Penn State Youth Program/event literature, Penn State does not provide medical insurance to cover emergency care or medical treatment of my child.

Medical and Related Health Information Penn State is committed to protecting the medical and related health information about your child. Medical and related health information provided on this form will only be used as Penn State deems necessary to provide services for your child while participating in the Youth Program. Information will be stored, archived, and disposed of according to Policy AD35, University Archive and Records Management and Policy AD95, Information Assurance and IT Security. If there are any changes to your child's health, please contact the youth program.
