# GOWANS
AUDIO

Gowans73 v1.0 | user manual

installation

We provide installer packages (.pkg for MacOS, .exe for Windows) that will automatically install all available versions of the plugin in the respective default folders on each platform.

If you have already installed a demo version of this plug-in, please ensure that you have re-installed the FULL VERSION of our plug-in (available to download once you purchase) as our demo plug-in is not authorisable.

controls

A **High pass filter**
3-pole High-Pass Filter with selectable frequencies of 50, 80, 160, 300 Hz, or not enabled (OFF).

B **Low shelving filter**
