“One thing that has impressed me most about G.B.C. is the love that is shown between the students. It’s great to see how people can come from all parts of the country and feel a bond with each other through the love of Christ. I have made many friends here who will be close to me all my life because of this.”

"A year at G.B.C. gives a committed student a chance to look at many avenues of life. Now that he is away from his parents, he is like a bird pushed out of the nest. He has the chance to spread his wings and adjust to the new life and environment. The bird's natural instinct is to flap his wings and fly. That is how we should feel in the Lord. We should search like an investigator and see what the Lord has in store for us and depend on Him to carry us through His plan."
