# What Is Frontotemporal Degeneration (FTD)?

Presented by Marc Toles, Ambassador with The Association for Frontotemporal Degeneration (AFTD)

The presentation will provide an overview of Frontotemporal Degeneration, the different subtypes and how it differs from Alzheimer's disease, as well as highlight The Association for Frontotemporal Degeneration resources and support.

Marc Toles' wife, Gretchen, was diagnosed with FTD in August 2007 and passed away in August 2017. They had been married 38 years. He became an AFTD volunteer in 2018 to raise awareness and help others affected by this disease, representing AFTD at events in his community and leading a local support group for 3 years. Now as an Ambassador, AFTD's volunteer leadership role, Marc continues to raise awareness of FTD and connect others to AFTD as a resource through networking, outreach and speaking engagements.
