An Afternoon with Country Artist Jay Allen

An Alzheimer's Benefit Performance

Music by Jay Allen. Jay Allen combines the grittiness of rock and roll with the tenderness of country ballads in his songs. As seen on ABC World News Tonight and PeopleTV, Jay wrote 'Blank Stares' and has helped raise \$50 million to fight Alzheimer's.

Join us for a very special concert by the inspiring rising country artist Jay Allen. This backyard performance is an Alzheimer's Benefit and a way for Jay to honor his own mother, who died of early onset Alzheimer's. This special performance is also a tribute to those living with or supporting a loved one with Alzheimer's or related dementias.

This concert will be Great Falls Assisted Living's 2022 Walk to End Alzheimer's Fundraising event and a minimum donation of \$25 is appreciated. So bring your lawn chairs and come join us for this very special performance.
