

Born in Education, experience the **PSI** difference.

Unique, Comprehensive Support System including Experienced School Health RNs, Specialized Diabetes Team and Medical Director.

Providing Health Services Programs for Public, Nonpublic and Charter Schools.

Trusted provider of school services for 45 years.

No one should have to provide School Health Services without a team. Check out how the **PSI School Health Team** is perfect for your next move.

My PSI Why:

I think my management and supervision is amazing. Mentorship is always available. This is what makes PSI different. I love being with the students – they can easily make my day better. It is genuinely a caring position that allows me to use my nursing skills all the time. I love that I am part of both my school team and my PSI team. ”
