### GRN News from around the world

**Europe — Sardinia:** After listening to a Sardinia dialect recording on the 5 fish app, a girl joyfully shares the following testimony. “My mother is from Sardinia where they speak a minor dialect totally different from Italian.” She was shocked when she heard the recording. She said that when she was 14, a couple of missionaries visited them and gave them this very recording. She still remembered the words of the audio by memory, because her family listened to it so many times. She goes on to say that her mother, two grandparents, one uncle and her sister became believers through it.

#### Australian Aborigines:

The team in Australia has been working on re-establishing a recording ministry to Aboriginal communities in the Northern Territory. Covid-19 brought this to a halt last year, but this year they hope to send recordist,

Yousif, (see picture) and his wife Vivian to the Territory to engage in a recording ministry in partnership with other ministries and churches. They have also planned a training

course for several missionaries so they can steadily record Scripture that has already been translated. The goal is to have a recordist located in the Northern Territory long term.

**Thailand:** GRN missionaries are actively distributing MP3 players loaded with Nyaw recordings. There are very few Nyaw believers. Through the generosity of supporters the GRN Thailand office had received a 1,000 MP3 players for free distribution. (see picture above)

**Malawi: Kalimam’njira Bible study group:** “We received an audio Bible and *Look, Listen & Live* books for the first time in 2017. We have been helped a lot by these materials since that time. When we first started to gather together we were only using the Bible that was passed on by word of mouth from other people. Some of those people could read the Bible, while others could not read. Now the audio Bible and *Look, Listen & Live* books are helping us in such a way that we can share with one another what we hear from the materials. Everyone who cannot read and write can still hear the correct Bible teachings. It is also very easy for us to teach other people using these materials.”

## GRN Canada Virtual Banquet 2021

The message from our guest speaker David Garrison, author of "A Wind in the House of Islam is now available" You can find the link on the GRN Canada web page to see the presentation.

News from around the world continued.

## Mexico: 2021 Culiacan Outreach

The annual outreach took place this year in the midst of Covid 19.

The team of 36 volunteers was able to communicate with over 50 indigenous languages and in 33 farm worker camps. GRN

Mexico used technology in a new way to share the Good News. There was a total of 7,862 Biblical downloads from various sources. By using Facebook the team was able to interact with 18,789 people at varying levels of sharing the Gospel. The end result was getting the Gospel of Jesus out to thousands of people, with dozens of people becoming new believers in Jesus.

**5fish and website:** Downloads of GRN materials over the internet have increased tenfold during 2020 for a variety of reasons (up to 500,000 hours in one month). We continue to distribute picture books and mp3 players, microSD cards and a variety of other media around the world.

**Asia— Recording for the deaf:** There is one language group that has been overlooked by GRN in the past. The deaf community has been a neglected group in many countries. A GRN team in an Asian country has now recorded the Good News. It will soon be available for sign language speakers on the internet.
