

**Design Services Program Contract is** Approved & Signed.

Once the agreement is approved & signed. CinemaTech will request AutoCAD / Scalable PDF / Dimensions of the room. Additionally, specifications of known equipment (Screen, Projector, Speakers, etc.) are sent to CinemaTech.

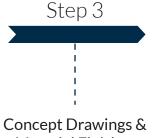

Introduction & Initial **Design Consultation** 

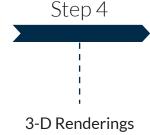

in-person meeting or will host an introduction and initial design consultation. This meeting should include all parties, including the client, AV Integrator, Builder, Architect, etc. The result will vield CinemaTech's understanding of the design concept for the room.

1-2 Weeks After Approval

Material Finishes

Following the initial meeting, CinemaTech creates 2-D AutoCAD design concept drawings that include a floorplan, ceiling plan and wall elevations. CinemaTech allows up to 4 revisions.

Material and finish options are compiled and sent out for review.

Up to 2-3 Weeks

Upon approval of the AutoCAD drawings, Material and Finish options, CinemaTech incoporates this into an artisan 3-D rendering of the space.

A proposal for CinemaTech's scope of work is also created at this time.

Up to 2 Weeks

Via an online meeting, in-person meeting or showroom visit, a presentation of renderings and pricing proposal is shared with the client & dealer.

Once the scope of work is approved, a final material board is created.
