CITATION DELUXE 5.1 CHANNEL **SETUP GUIDE**

1 PLACE

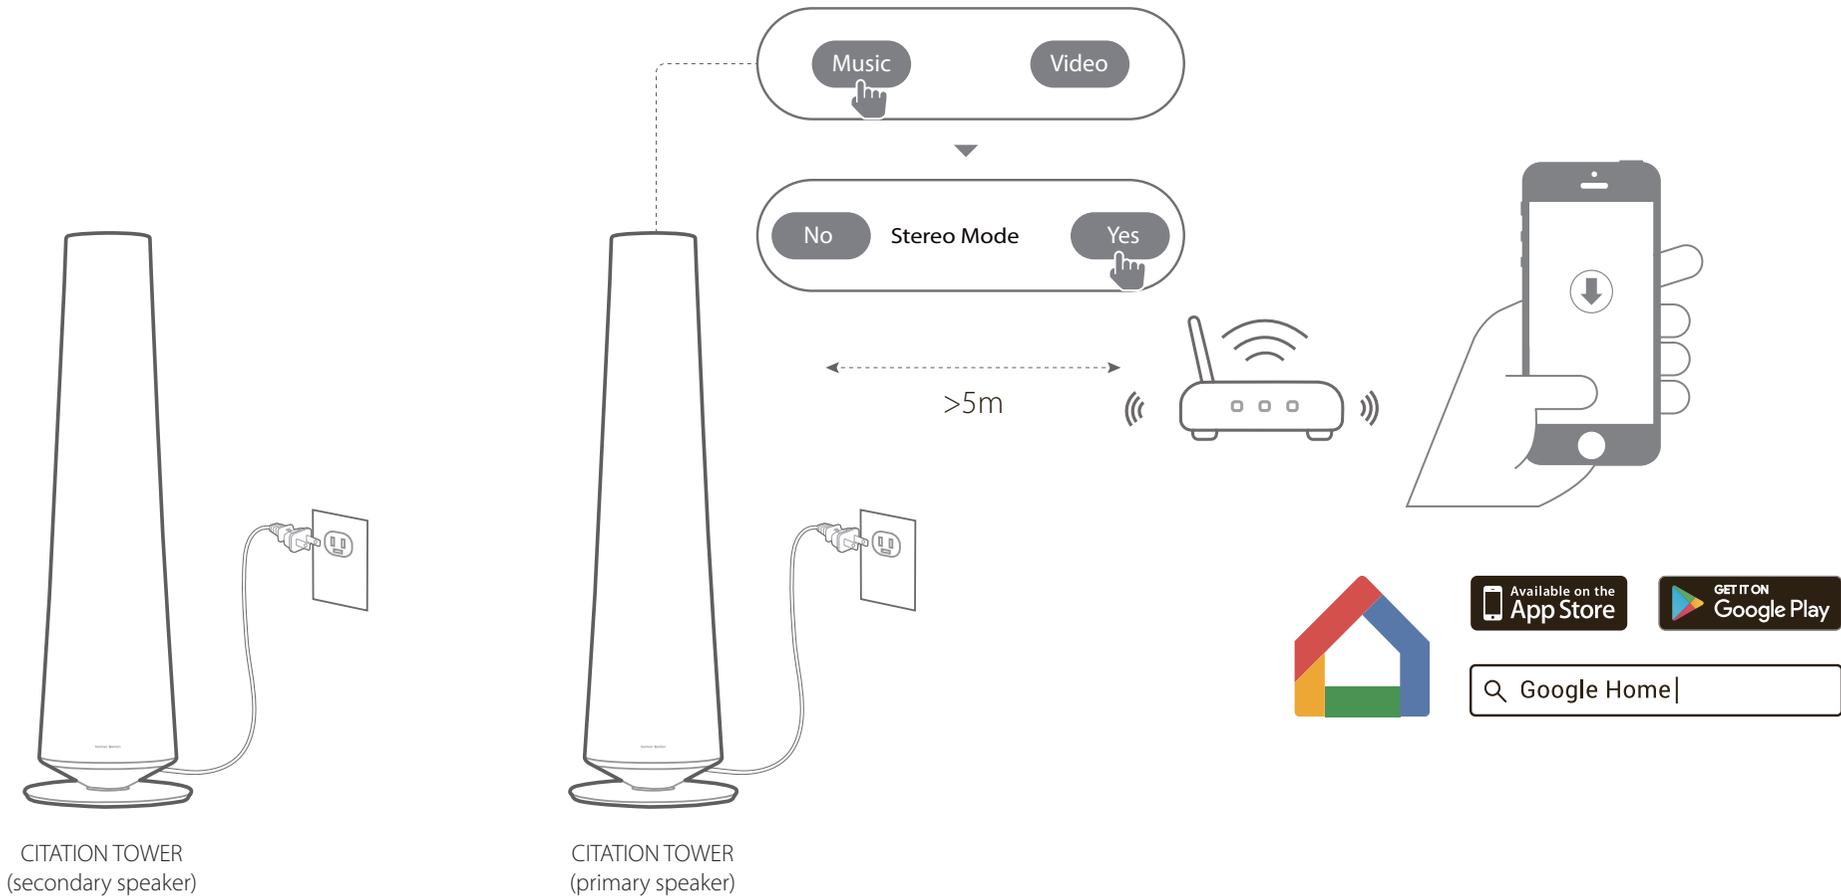

2 PREPARE

2.1 CITATION TOWER

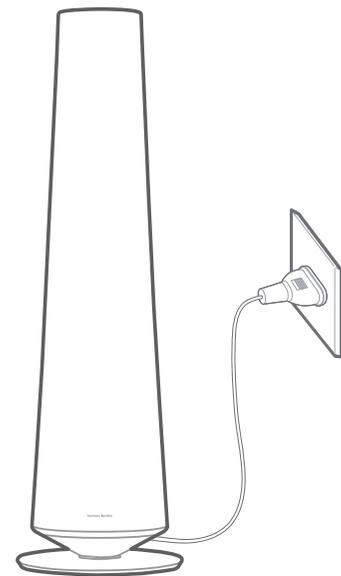

Update the firmware of CITATION TOWER first

- 1 Connect CITATION TOWER to power.
On the primary speaker, select **"Music"** to enter the **"Stereo Mode"**.
- 2 On your iOS or Android device, add CITATION TOWER to your Home Wi-Fi network through the Google Home app. Follow the app instructions to complete setup.
After connection with the Internet, the firmware is updated automatically. When the firmware updating is complete, the CITATION TOWER speakers are restarted and then return to the last selected source. To check the software version, swipe up and down the touch screen to select **i**.

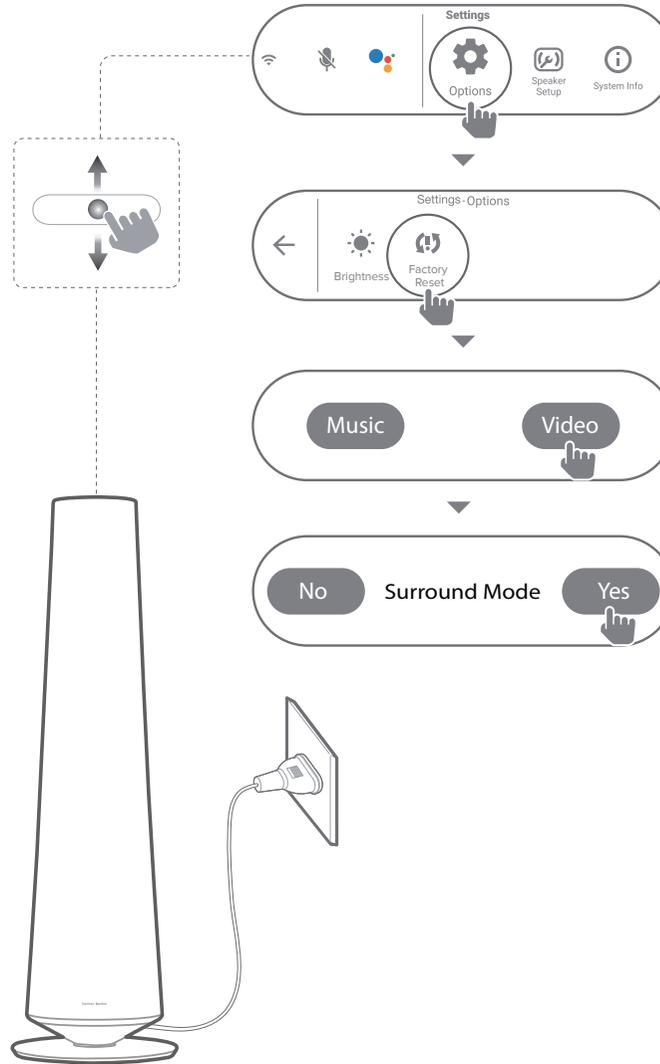

To prepare for the setup of a surround sound system

After the firmware update, go to  >  to restore factory settings on the primary speaker. Then, select **"Video"** to enter the **"Surround Mode"**.

2.2 CITATION SURROUND

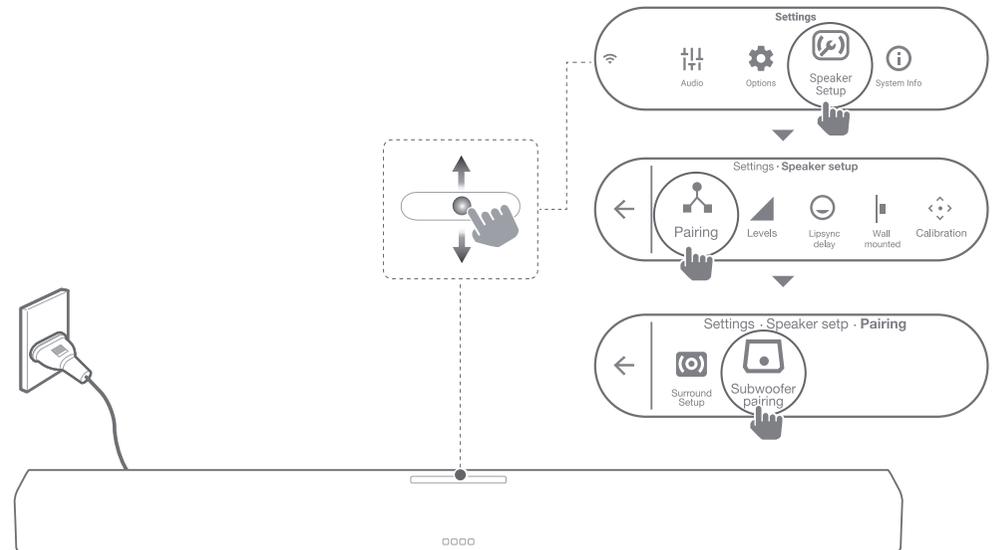

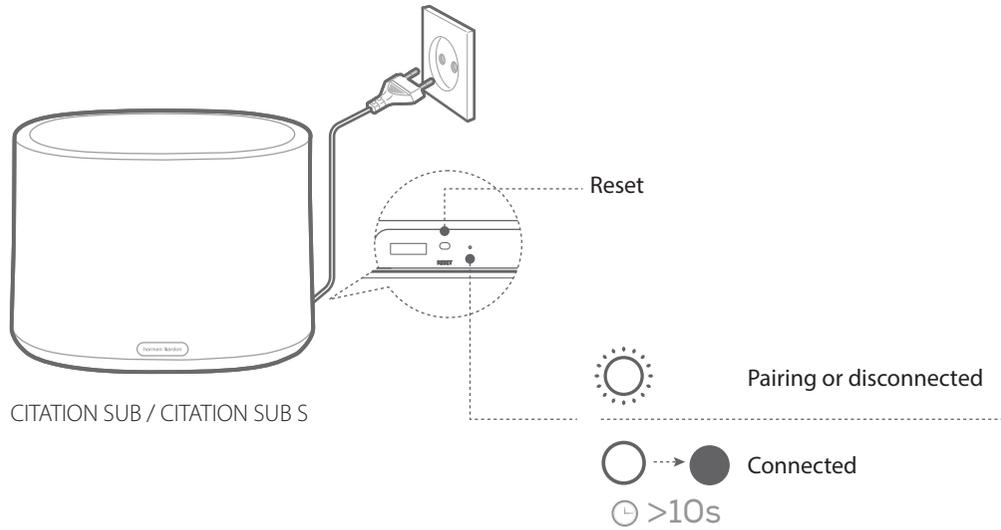

The first time you use CITATION SURROUND, connect it to power. To restore factory settings or connect to another CITATION speaker press and hold **RESET** (> 5 seconds).

3 CONNECT

3.1 Connect the subwoofer

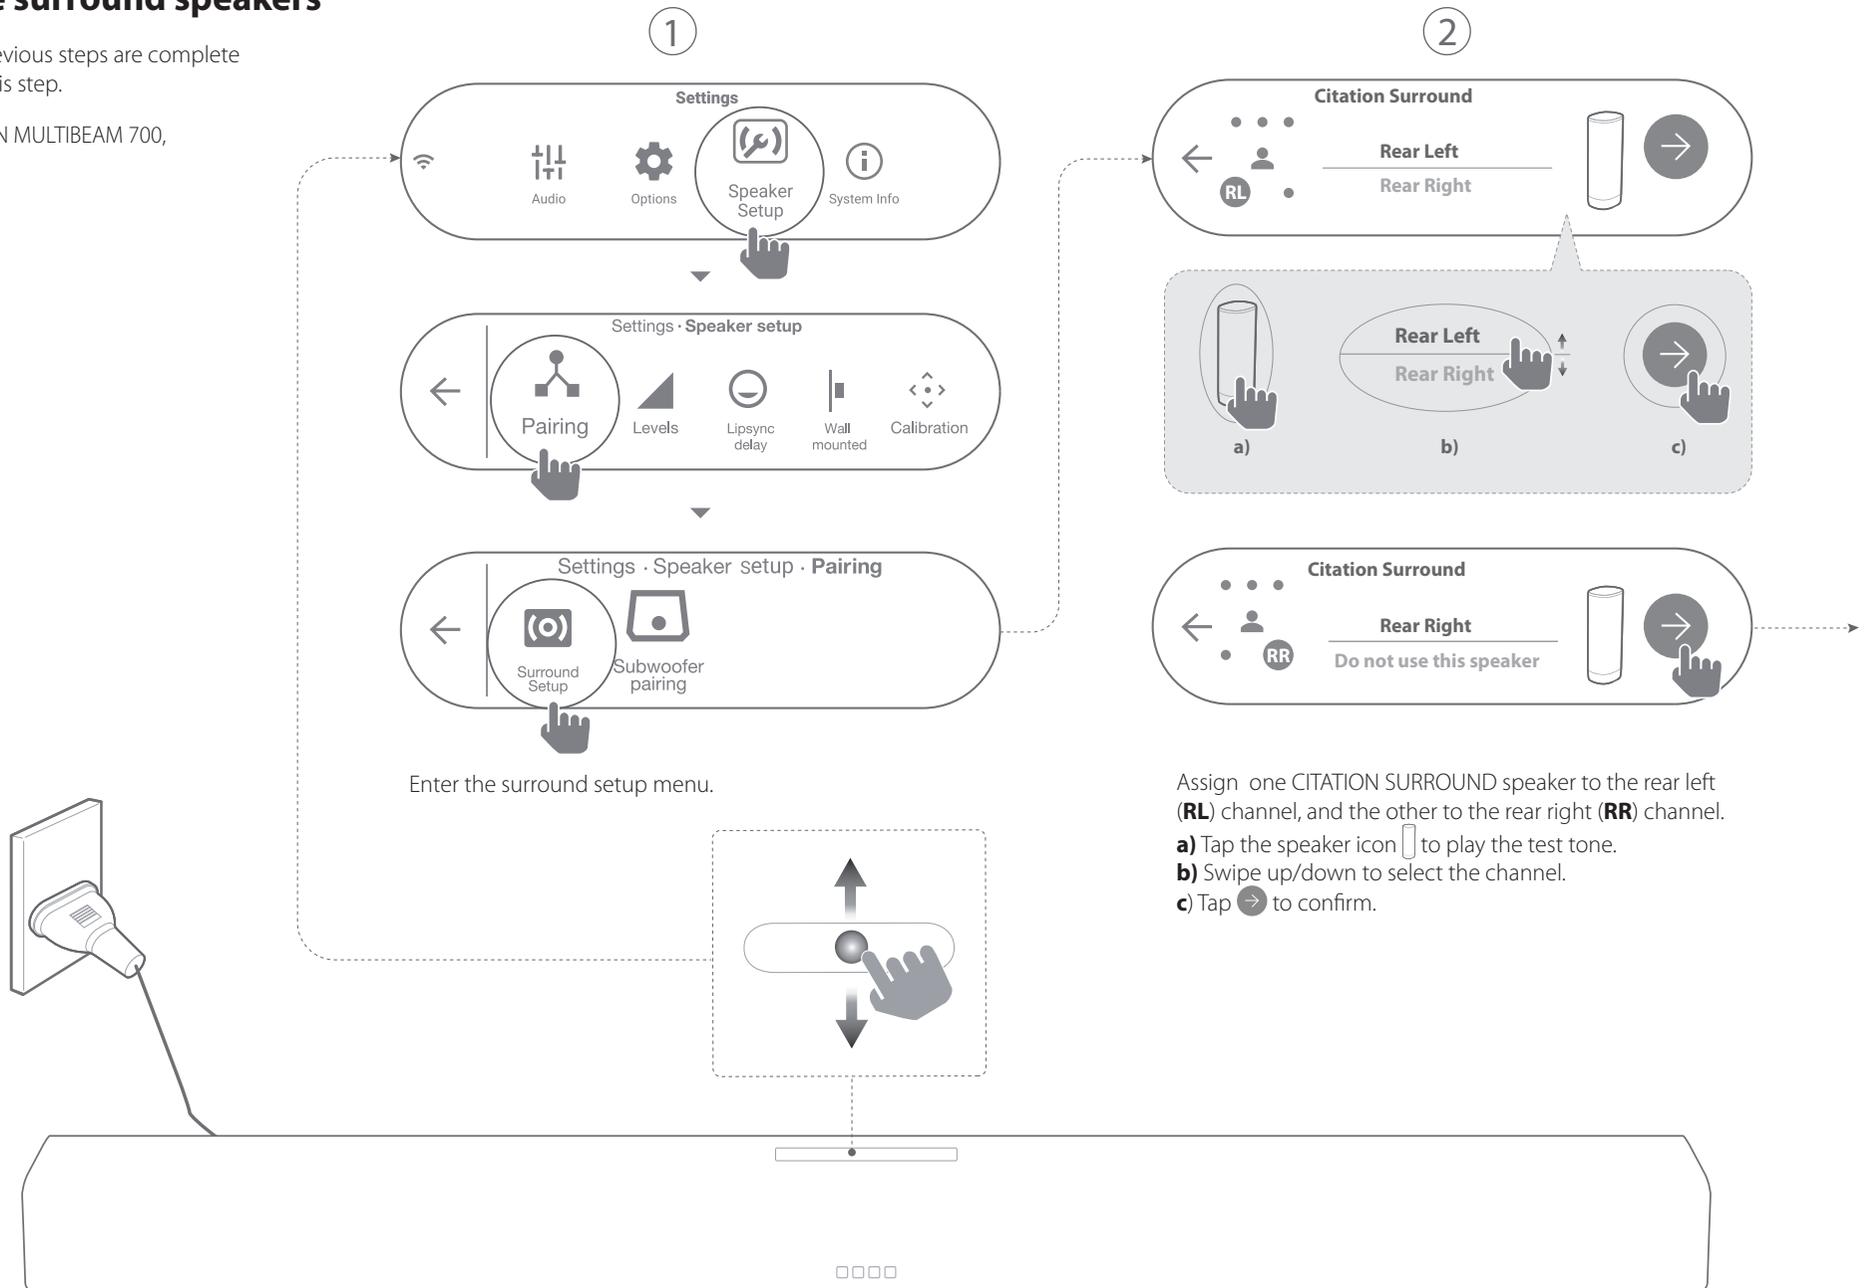

- ① The first time you use CITATION SUB / CITATION SUB S, connect it to power. To restore factory settings or connect to another CITATION speaker, press and hold **RESET** (> 5 seconds).
- ② On CITATION BAR / CITATION MULTIBEAM 700, swipe the touch screen up/down to select  >  > . Follow onscreen instructions to complete setup.

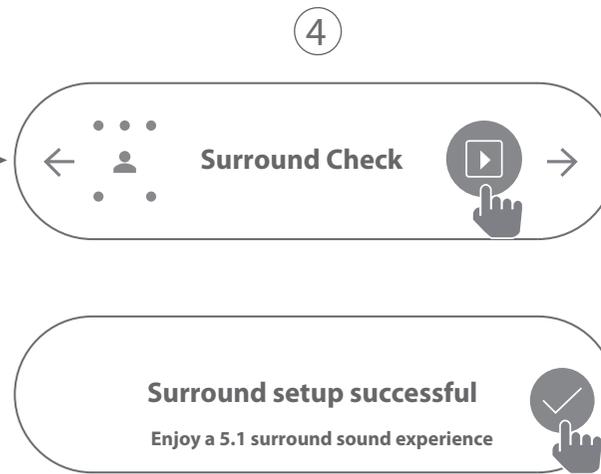

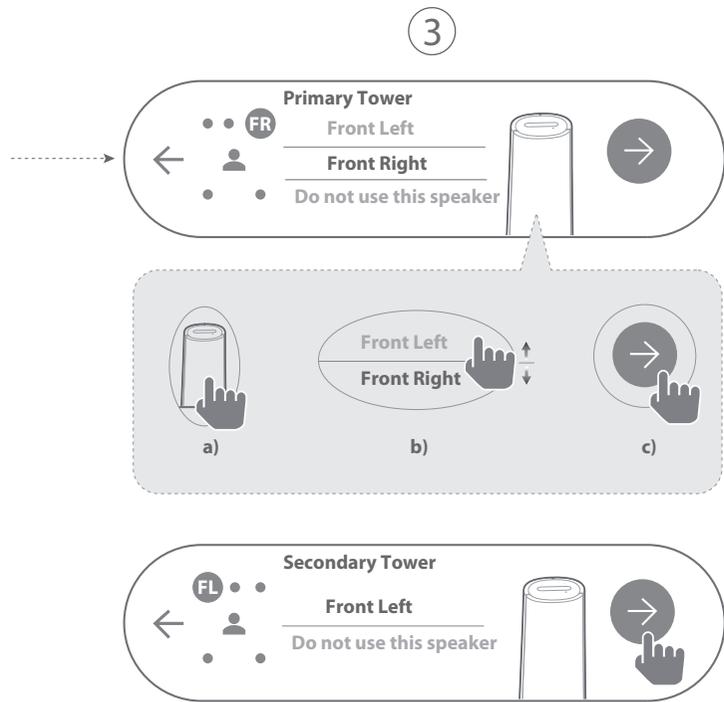

3.2 Connect the surround speakers

Note: Please ensure all previous steps are complete before proceeding with this step.

On CITATION BAR / CITATION MULTIBEAM 700, do the following:

Tap to check the surround sound. Tap to confirm.

Assign the primary speaker of CITATION TOWER to the front right (**FR**) channel, and the secondary speaker to the front left (**FL**) channel.

- a)** Tap the speaker icon to play the test tone.
- b)** Swipe up/down to select the channel.
- c)** Tap to confirm.

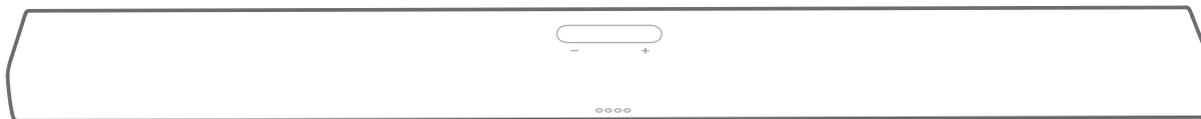

5 The 5.1 surround sound setup is complete.
