

# RIVI CRIMP TOOL

RJ45 3-in-1 Crimp Tool

## OVERVIEW

RIVI's RJ45 3-in-1 Crimp Tool provides a compact, lightweight, industrial-grade network termination tool that combines cutting, stripping and crimping in one device. It supports RJ45 (8P8C) connectors - including pass-through RJ45 connectors, allowing wires to pass through for visual confirmation before crimping. Built with a hardened steels crimping jaw and ergonomic plastic non-slip, wear-resistant handle for comfort and secure gripping. RIVI's RJ45 3-in-1 Crimp Tool is suitable for terminating both unshielded or shielded Cat6/Cat6a Ethernet cables.

## FEATURES

- Professional 3 in 1 Cable Stripping, Cutting and Crimping Tool
- Designed for RJ45 (8P8C) network connectors
- Supports pass-through RJ45 connectors, allowing wires to pass through for visual inspection prior to crimping
- Ergonomic plastic non-slip, wear-resistant handle for comfort and secure gripping
- Hardened bevelled steel jaw/ crimping head for durability and precision
- Suitable for terminating unshielded and shielded Cat6/Cat6a Ethernet cables
- Individually packaged in 100% recyclable cardboard
