Videoprojector Ceiling Mounting Support

This ceiling mount is designed for horizontal projector installation with a clean and compact layout. It positions the projector approximately 4 cm from the ceiling for a low-profile appearance.

The solid structure ensures stable and precise image alignment. It is suitable for a wide range of projector sizes and weights. The discreet design fits perfectly in both home and professional environments.

Features

- > Dimensions: 630 × 590 mm
- > Distance from ceiling (drop): 42 mm
- > Universal – maximum projector weight: 50 kg
- > Maximum projector mounting size (screw spacing): 480 x 450 mm (length x width)
- > Screw size: M6 / M8
- > Weight: 10.5 kg
- > Color: Black

The mount consists of two parts: one fixed to the ceiling and one attached to the projector.

It allows up to 6° of adjustable rotation, controlled via front locking knobs.

This enables quick and accurate angle adjustment. Vertical and horizontal slots make installation and alignment easier.

Mounting is fast, flexible, and precise. The result is a stable and perfectly positioned projector setup.

Ideal for home cinemas, offices, classrooms, and meeting rooms.
