

Datasheet: IP68 Cable Quick Connect Jointing Box

SON-IP68-PRO

The SON-IP68-PRO kit is an IP68 rated Junction Box with three 7mm to 14mm cable entries - ideal for the installation of external speaker systems.

The junction box has an operating temperature range of -40°C to $+125^{\circ}\text{C}$ and includes cable glands for circular cable entry/exit, plus a slotted gland for shotgun/flat speaker cable.

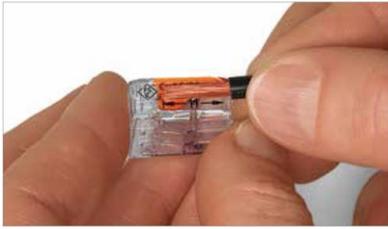

The four internal Wago® 221 compact splicing connectors provide quick rewirable series or parallel connection of 24 - 12 AWG wires for stereo or mono applications. There is plenty of spare space inside the box for additional connections if necessary.

Specifications:

Body Material	PA66 / SEBS/ TPE
Temperature Range	-40°C to $+125^{\circ}\text{C}$
Min/Max Cable Diameter	7 to 14mm

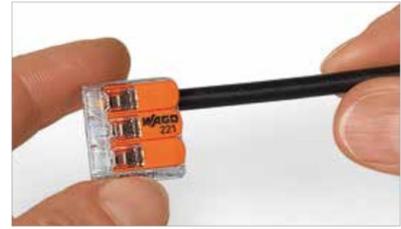

Using the Wago 221 Connectors

Strip conductor to 11mm - refer to strip length guide printed on side of connector

Lift lever to open clamping unit; insert stripped conductor

Lower the lever to close the clamping unit
