Visual Performance Coverplates

Rectangle Coverplate

This metal coverplate is designed to cover a template or bracketed hole until the speaker is installed. It is sized slightly smaller than the actual speaker, so the speaker baffle edge will cover any paint ridge created during painting. Discreetly stamped "Reserved for Sonance® speakers" and painted Sonance white, the coverplate can be used with all Visual Performance Series and Original Series rectangle speakers.

PART#   92334
UOM   PAIR

Round Coverplate

This metal coverplate is designed to cover a template or bracketed hole until the speaker is installed. It is sized slightly smaller than the actual speaker, so the speaker baffle edge will cover any paint ridge created during painting. Discreetly stamped "Reserved for Sonance® speakers" and painted Sonance white, the coverplate can be used with all Visual Performance Series and Original Series round speakers.

Visual Performance Series Flex Brackets

Installation and Mounting Brackets

Sonance offers a variety of brackets that make it easy to solve any installation riddle.

Rectangle Flex Bracket

Durable ABS flex bracket for new construction can be nailed, stapled, or screwed to studs before drywall is cut and installed. The speaker then installs using its Roto-Lock clamps. The Flex bracket's snap-on mesh metal wings will accommodate up to 24-inch (610mm) on-center installations and are configurable horizontally or vertically. Centering marks aid in proper alignment. It can be used with all Visual Performance Series and Original Series rectangle speakers.

PART#
Large   92246
Medium   92336
Small   92470
UOM   5 PAIR

Round Flex Bracket

Durable ABS flex bracket for new construction can be nailed, stapled, or screwed to joists before drywall is cut and installed. The speaker then installs using its Roto-Lock clamps. The Flex bracket's snap-on mesh metal wings will accommodate up to 24-inch (610mm) on-center installations. It can be used with all Visual Performance Series and Original Series round speakers.

PART#

Medium LCR Flex Bracket

Durable ABS flex bracket for new construction can be nailed, stapled, or screwed to studs before drywall is cut and installed. The speaker then installs using its Roto-Lock clamps. The Flex bracket's snap-on mesh metal wings will accommodate up to 24-inch (610mm) on-center installations and are configurable horizontally or vertically. Centering marks aid in proper alignment. It can be used with all Visual Performance Series and Original Series Medium LCR speakers.
PART#   92475
UOM   EACH

Visual Performance Series Staple Templates & Masonry Brackets

Medium Rectangle Staple Template

Durable ABS flex bracket for new construction (16-inch (406mm) on-center installations only) can be stapled to studs before drywall is cut and installed. The speaker then installs using its Roto-Lock clamps. It can be used with Original Series speakers. Not recommended when wall interior obstructions (studs, pipes, etc.) are closer than 1 1⁄4" (32mm) to the top or bottom of the drywall cut-out hole, or when drywallers must use routers.

PART#   900651
UOM   5 PAIR

Medium Round Staple Template

Durable ABS flex bracket for new construction (16-inch (406mm) on-center installations only) can be stapled to studs before drywall is cut and installed. The speaker then installs using its Roto-Lock clamps. It can be used with all Visual Performance Series, Original Series and Contractor Series Medium round speakers. Not recommended when wall interior obstructions (studs, pipes, etc.) are closer than 1 1⁄4" (32mm) to the top or bottom of the drywall cut-out hole, or when drywallers must use routers.

PART#   901049
UOM   5 PAIR

Medium Rectangle Masonry Bracket

Durable ABS flex bracket provides a surface in brick walls to use Roto-Lock mounting systems, allowing speakers to be installed into walls constructed using brick and finished with plaster. It can be used with all Visual Performance Series, Original Series and Contractor Series Medium rectangle speakers and Cinema Select LCR/SUR speakers.

PART#   92066
UOM   PAIR

Small Rectangle Masonry Bracket

Durable ABS flex bracket provides a surface in brick walls to use Roto-Lock mounting systems, allowing speakers to be installed into walls constructed using brick and finished with plaster. It can be used with all Visual Performance Series and Original Series Small rectangle speakers.

PART#   92067

Visual Performance Series Acoustic Enclosures

Acoustic Enclosure

The 1/2" (12.5mm) MDF enclosure provides sound containment, improves power handling and increases bass definition and clarity.

Large Rectangle Acoustic Enclosure

Fully-braced 1/2" MDF enclosure is designed to provide optimum bass performance and sound containment (20dB) for Visual Performance and Original Series large rectangle speakers.

Internal Volume:	1.4 ft³
Dimensions* (W x H x D):	14" x 60" x 3 1/2" (356mm x 1524mm x 89mm)
Cut-Out Dims. (W x H):	8 11/16" x 14 11/16" (221mm x 373mm)
Shipping Weight:	38 lbs (17.3kg)

*Add thickness of wall material to listed depth to arrive at total depth

Note: Enclosure depth is sufficient to accommodate the recommended speakers when installed behind 1/2" or thicker drywall.

PART#   91708
UOM   EACH

Large Round Acoustic Enclosure

Fully-braced 1/2" MDF enclosure is designed to provide optimum bass performance and sound containment (20dB) for Visual Performance and Original Series large rectangle speakers.

Internal volume:	1.0 ft³
Dimensions* (W x H x D):	14" x 27" x 6" (356mm x 686mm x 153mm)
Cut-Out Diameter:	10 1/4" (260mm)
Shipping Weight:	38 lbs (17.3kg)

*Add thickness of wall or ceiling material to listed depth to arrive at total depth.

Square Adapters w/ Grilles | Grilles | Coverplates | Flex Brackets | Staple Templates & Masonry Brackets | Acoustic Enclosures | Retrofit Enclosures | Fire-Rated Backcans

Visual Performance Series Fire-Rated Backcans

Fire-Rated (Listed) Shallow Backcan

Provides 1-hour rating in accordance with ASTM E814-06, ASTM E119, UL263, NFPA251, CN/ULC S 101 when installed as part of a gypsum board wall assembly with an appropriate Sonance Flex Bracket. WHI Design Listing DII/PH60-09. Includes ceramic fiber insulation and Snap2it wire clamps. Painted steel construction.
• Certified for in-wall applications

Shallow backcan depth (3 15/32" - 88mm) and can be used with all Sonance in-wall speaker models except for the following models:

• VP large rectangle speakers

• VP62LCR, VP66LCR

• VP Cinema Series LCR1, LCR2, SUR1, SUR2

SPECIFICATIONS

Mounting Plate Dims (W x H):	17 3/4" x 18" (451mm x 457mm)
Can Dimensions (W x H):	12 15/16" x 16 15/16" (329mm x 430mm)
