

Anti-Microbial compound available on select models

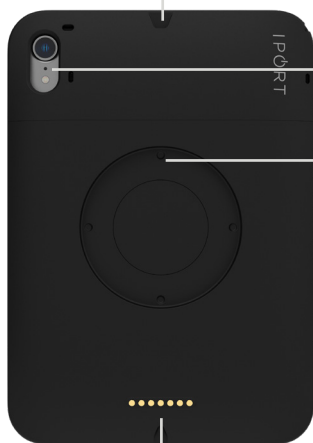

Case design protects iPad from accidental drops onto solid surfaces

Minimalist design compliments iPad aesthetics

Thin, symmetrical and uniform Bezel looks great and doesn't add unnecessary bulk

Equip iPad for Work in a Thin and Elegant Protective Case with Powerful Interfaces for Docking & Accessories.

CONNECT CASE BACK

Integrated Lock secures iPad and eliminates Tampering

Access and use all iPad Hardware features like Cameras, microphones, Power and volume buttons

Accessory interface allows you to add powerful features to the case like Handstand, providing a stand and articulating, centrally located hand strap

Or, transform iPad-in-Case Into a fixed mount by adding a CONNECT MOUNT accessory for Permanent mounting on Walls, Tables, VESA Arms, Door Frames and more.

Dock Interface replaces Lightning or USB-C receptacle, providing a long-lasting connection and enabling magnetic docking to CONNECT Dock or MultiDock
