

National Educator

Jane Hauprich

Jane has been piecing quilts for about 17 years. It wasn't until 2009, when she discovered longarm quilting, that quilting became her passion. She started free motion quilting on a domestic machine, then an HQ Sweet Sixteen® and then an HQ Avanté®. She still enjoys using all of these machines.

Jane is a self-taught longarm quilter who specializes in custom free motion quilting. She is an award winning quilter who loves to share her knowledge of quilting with other quilters. She enjoys teaching as a Handi Quilter Educator and on her own at quilt shops and national quilt shows.

Jane's philosophy is that no matter what type of machine one uses, domestic, short-arm or longarm, anyone can learn to custom quilt. Her goal when teaching is to equip each student with as much information and knowledge as possible.

Jane resides on the Eastern Shore of Maryland.
