

החברה הישראלית לטוקסיקולוגיה  
**הכנס השנתי לטוקסיקולוגיה**

יום ג' | 28 באוקטובר, 2025  
 אולם פומבדיתא ת"א (בקרבת בית חולים איכילוב)

- 08:30-09:00**    Gathering
- 09:00-09:15**    Opening Remarks
- 09:15-11:15**    Morning Session
- 09:15-09:35**    **Patients with Altered Mental Status May Benefit from Medical Toxicology Consultation**  
**Prof. Miguel Glatstein**, Israel Poison Information Center
- 09:35-09:55**    **Real-time species identification after scorpion stings reduces emergency department referrals without compromising patient safety**  
**Dr. Noa Markovits**, Israel Poison Information Center
- 09:55-10:15**    **Toxicology for non-toxicologists: development of a multi-disciplinary approach toward provision of toxicological response in acute hospital settings**  
**Dr. Konstantin Brusin & Dotan Shaniv**, Kaplan Medical Center
- 10:15-10:30**    **Serum cholesterol upon admission as a marker of severity and ourcome of daboia palaestinae envenomation in dogs**  
**Dr. Sigal Klainbart**, Hebrew University Veterinary Teaching Hospital
- 10:30-10:45**    **Post-exposure monitoring and pharmacokinetics of nerve agents and fentanyl in body fluids**  
**Dr. Tamar Shamai Yamin**, Israel Institute of Biological Research
- 10:45-11:00**    **Verification of an immunoassay for busulfan monitoring in hemato-oncology patients**  
**Dr. Ester Schallmach**, Sheba Medical Center
- 11:00-11:15**    **Massive honeybee envenomation**  
**Dr. Amir Givon**, Sheba Medical Center,
- 11:15-11:40**    **Coffee Break**
- 11:40-13:40**    Noon Session
- 11:40-12:00**    **Role of hazard dispersion modeling in preparing for toxicological mass casulty events**  
**David Ben Shlomo**, Israel Institute of Biological Research
- 12:00-12:20**    **Countermeasures for mass cyanide poisonings: challenges and novel directions**  
**Dr. Ophir Lavon**, Carmel Medical Center

- 12:20-12:40** Bridging the gap: From proteomic biomarkers to disease mapping and targeted therapies in chemical warfare agent injury  
**Dr. Meital Charni-Natan**, Israel Institute of Biological Research
- 12:40-13:00** Improving antimuscarinic ophthalmic threatment for volatile nerve agents mass poisoning  
**Dr. Ariel Gore**, Israel Institute of Biological Research
- 13:00-13:20** Smoke inhalation injutires in the battle field: lessons from "Iron Swords" war  
**Dr. Inbal Dym**, Israel Defense Force Medical Corps
- 13:20-13:40** Whole body exposure of rats to high concentration of chlorine gas: clinical and histological evaluation  
**Dr. Adi Neufeld-Cohen**, Israel Institute of Biological Research
- 13:40-14:25** **Lunch Break**

#### 14:25-15:55 Afternoon Session

- 14:25-14:40** Computerized physicain entry and prescribing errors in pediatrics  
**Dr. Rinat Komargodski**, Shamir Medical Center
- 14:40-14:55** Medication errors in the elderly  
**Iris Levdiv Avital**, Israel Poison Information Center
- 14:55-15:10** Life-threatening errors in methotrexate therapy among elderly patients  
**Prof. Esther-Lee Marcus**, Herzog Medical Center
- 15:10-15:25** Drug-induce gynecomatia  
**Dr. Beesan Sarsur**, Rabin Medical Center
- 15:25-15:40** Severe fluoropyrimidine toxicity and the need for broader pharmacogenomic screening  
**Dr. Noa Mor**, Assuta Ashdod Hospital
- 15:40-15:55** Dihydropyrimidine dehydrogenase variant c.257C>T and 5-flurouracil toxicity  
**Dr. Edna Efrati**, Rambam Health Care Campus

## הכנס בחסות

נספח
