

A photograph of a baby lying in a hospital bed. The baby is wearing a diaper and has several medical sensors attached to their chest and arms. The baby is looking towards the camera. Two adults, a man on the left and a woman on the right, are leaning over the bed, looking at the baby. The bed has a patterned blanket and a white pillow. There are some toys on the bed, including a teddy bear and some green toys.

Een hartafwijking is doodsoorzaak #1 onder kinderen

Dit is Wes. Pas 1,5 jaar oud en nu al heeft hij twee zware hartoperaties achter de rug. Onderzoek is dé oplossing om hartafwijkingen beter te kunnen opsporen, behandelen én voorkomen.
