According to Hartz, if you notice a pest such as an ant, but more than one ant at any given time, 'rummaging around your home,' this is a clear sign that you need to call a professional pest control company like Hartz straight away. An exterminator can first identify the type of ant you are dealing with to determine if they are fire ants or Crazy Ants. These can damage your home, even the wiring. But not to worry, the exterminators at Hartz will help you treat that area to cut the ants off, while also placing baits and traps specific to that type of ant.

If you suspect your home or business is swarming with one of these pests, or you're not entirely sure what signs to look out for, go online and find information about their pest control service for both residential and commercial extermination with signs to look for and preventative measures to take.
