

HAVAL H6 GT

GWM is a globally renowned automotive manufacturer and the parent company of Tank, Cannon, Haval and Ora.

At GWM, everything we do is grounded in our corporate philosophy: improving little by little, every day. From building world-class research and development systems that enable continuous innovation to following the 'excessive investment' principle that drives industry leadership, we put our philosophy into practice. We are proud to create vehicles that combine the best components, technology, and safety features from around the world, while producing attractive SUVs for customers who take their vehicles off-road and enjoy luxury urban travel.

HAVAL H6 GT is our flagship sport SUV model series, which has taken the world by storm and is highly regarded as a bold, performance-driven crossover that blends coupe-inspired styling with SUV versatility.

SAZGAR is a symbol of Pakistani pride. Founded in 1991, the brand has always been driven by a customer-first philosophy. For over three decades, SAZGAR has led the way in manufacturing excellence and innovation, setting the benchmark for quality, reliability, and progress in Pakistan. Today, it stands as a gold standard, reflecting the very best of what Pakistan stands for.

SAZGAR quickly became a household name in Pakistan's automotive industry, backed by decades of experience, a thriving nationwide dealership network, and a portfolio of innovative, leading-edge vehicles that consistently meet and exceed the company's high standards. With a strong focus on the future, SAZGAR is proud to be Pakistan's first electric three-wheeler manufacturer and the only local OEM to export its 3 wheelers to over 25 countries, including the United States and Japan.

HAVAL H6 *GT*

GT - Gran Turismo, a badge earned by the world's great performance machines, where power meets poise and speed meets sophistication. The H6 GT doesn't just wear it. It's engineered for it: a turbocharged engine delivering 430 HP and 642Nm torque, a dual-clutch transmission built for split-second response, and a chassis tuned to hold its line when the road gets demanding. Tuned for drivers who don't just travel the road, they feel it.

**Based on ideal driving conditions.*

FLUID AESTHETIC

Every curve, every line of the Haval H6 GT is streamlined to work in harmony with the air around it. A silhouette that flows seamlessly from the front to back, elevating its performance on the road. Form and function, sculpted as one.

➤ Expansive panoramic sunroof

➤ Roof spoiler trim to optimize airflow and increase downforce

➤ Rear spoiler trim to optimize airflow and increase downforce

➤ High brightness LED matrix automatic headlamps

GT-embossed seats, marked in red

Panoramic sunroof opening the drive to the sky above.

14.6-inch Coffee OS infotainment touchscreen.

Every detail inside the Haval H6 GT is designed to keep you effortlessly connected. The interior is built around the driver, blending intelligent tech with premium craftsmanship.

ADAS FEATURES

Advanced driver-assistance technology works quietly in the background — sensing, anticipating, and responding before you need to. It's not there to take control, but to give you more of it.

➤ Lane Keep Assist

➤ Autonomous Parking

➤ Smart Collision Avoidance System

➤ Blind Spot Detection

➤ Adaptive Cruise Control, Intelligent Cruise Assistance, Traffic Jam Assistance

➤ 540 degree camera system

INTRODUCING Hi4 TECHNOLOGY

Hi4, the new intelligent 4WD electric hybrid technology from GWM, ensures performance of a four-wheel drive and the energy consumption of a two-wheel drive, ensuring the best possible efficiency in all conditions.

Driving modes include pure electric mode, electric priority mode, and intelligent hybrid mode.

Hi4 INTELLIGENT AWD CONTROL SYSTEM

Real-time road monitoring system, distributing torque between axles to optimize your driving pleasure.

PURE ELECTRIC

The Hi4 system switches to optimal driving modes intelligently such as the pure EV mode, based on driving conditions.

PARALLEL AWD

Using dual axles, the power redistribution is seamless and efficient, resulting in more power and reduced energy consumption at the same time.

Hi4 INTELLIGENT DRIVING MODES

Eco: Optimises power delivery and energy consumption to maximise fuel efficiency and electric range for everyday driving.

Normal: Balanced performance for daily use, offering smooth acceleration, comfort, and efficiency across varied driving conditions.

Sport: Sharp throttle response and enhanced power output for dynamic driving and confident overtaking.

Snow: Improves traction on slippery surfaces by reducing wheel spin and ensuring controlled power delivery.

Sand: Adjusts torque and transmission response to maintain momentum on loose and soft sandy terrain.

Mud: Enhances traction by intelligently managing wheel slip on wet, muddy, and uneven ground.

Auto: Automatically selects the most suitable drive mode based on road conditions and driving inputs.

Parallel 2WD

The front electric motor and the engine powered up to achieve the desired output.

Parallel AWD

The front and rear electric motors, and the engine powered up to achieve the desired output.

Series Mode

The engine delivers power to the rear motor via the front motor, with the rear motor powering the wheels.
