LCZ – PREC1-PSP: Local Centre Zone Peacocke Precinct

Provisions that are not tracked changed (insertions <u>underlined</u>, deletions <u>struck out</u>), have been transferred from the Hamilton Operative District Plan 2017 under s58I of the RMA for the purposes of complying with the format requirement of the National Planning Standards.

The following provisions have legal effect under Section 86B (3) of the RMA

LCZ - PREC1-PSP: ISSUES

Business resources commonly group around a series of centres in Hamilton and include activities such as retailing, offices, business and financial services, manufacturing, warehousing and associated parking, storage and display areas. These areas and the infrastructure that serves them are significant public and private resources and influence the urban form and function of all parts of the City.

The grouping of business activities into centres provides an environment that will draw in other business and facilities. This agglomeration results in productivity gains arising from economies of scale and efficiencies of inter-connectedness.

The focus of the business centres' hierarchy is to manage existing centres to ensure they retain and enhance their function, vitality, viability and amenity as focal points for a diverse range of activities needed by the community. Ongoing public investment is a significant element in any centres-based strategy.

A centre is a cohesive or integrated set (cluster) of diverse land-use (business) activities, characterised by high pedestrian levels in a high-amenity public environment and supported by efficient and accessible passenger transport, infrastructure and services.

Zoning and rule provisions provide for a range of activities, scales and formats appropriate to managing the effects of development of business centres, the principally retail role of the sub-regional centres, the community, mixed use and pedestrian focus of the suburban centres, the neighbourhood function of local facilities, the supporting role of commercial fringe areas and the peak visitor demands associated with visitor facilities.

The commercial and community hub of the Peacocke Structure Plan is located in the Peacocke Local Centre. It is anticipated that this centre will include a supermarket and a range of other commercial activities that provide for the needs and wellbeing of the community. It is important that the centre is easy to access on foot and on bike and is well serviced by public transport. The built environment should focus on the pedestrian and create active street frontages that are universally accessible.

LCZ - PREC1-PSP: R4443 Service Areas

- 1) Any building shall provide service areas as follows.
 - a) At least one service area of not less than 10m² or 1% of the gross floor area of the building, whichever is the greater.
 - b) Any additional service areas shall not:
 - i) Be less than 5m2
 - ii) Have a minimum dimension of less than 2.5m
 - c) Any outdoor service area shall be maintained with an all-weather, dust-free surface.
 - d) A service area may be located within a building provided that it is separately partitioned with an exterior door directly accessible by service vehicles.
 - e) Any service area shall not encroach on to areas required by this District Plan for other purposes (e.g. parking, loading, landscaping and screening).

LCZ – PREC1-PSP: R4544 Outdoor Storage

- 1) Any outdoor storage area used for the storage of goods or materials shall:
 - a) Be laid out and used in a manner that does not conflict with vehicle access.
 - b) Be maintained with an all-weather, dust-free surface.
 - c) Be located away from public view or otherwise screened by fencing and landscaping.
 - d) Not encroach on areas required by this District Plan for other purposes (e.g. parking, loading, landscaping and screening).

LCZ - PREC1-PSP: R4645 Residential Development

1	Only one ancillary residential unit is allowed per site.	
<u>2</u>	Except for providing an entrance, no residential activities shall be undertaken at ground-floor	
	<u>level.</u>	
<u>3</u>	The following standards shall apply to residential units, including apartments above ground	
	floor and residential centres. Unless specifically noted, they do not apply to visitor	
	accommodation.	

4 Density (Minimum Number of Residential Units Required Per Site) (53.54 (1))

a) Minimum densities within the Local Centre Zone shall be 30 residential units per hectare based on net site area. This is to be calculated in accordance with the formula below:

0.003 residential units per 1m2 of site area

Example

For a site which has an area of 4000m2, the minimum number of residential units required under this rule would be 12. This is calculated by multiplying the site area (4000m2) by 0.003

b) Where mixed-use is provided for within a development (e.g. office or retail with residential above), the density requirements of Rule R46-4a) shall be applied on a pro rata basis relative to the percentage of gross floor area of the development that is residential (e.g. where 40% of the gross floor area of a development is comprised of residential activities, then 40% of the total minimum number of residential units calculated under Rule R46-4a) is the minimum number of residential units required to be provided.

5 Outdoor Living Areas

- **a)** Each residential unit, except for when a communal area is provided, shall be provided with an outdoor living area that is:
 - i) For the exclusive use of each residential unit.
 - ii) Readily accessible from a living area inside the residential unit.
 - iii) Free of driveways, manoeuvring areas, parking spaces, accessory buildings and service areas.
- b) Communal open space for 4 or more residential units and apartment buildings shall comply with R46 5a) ii) and iii) as well as being:
 - i) For the shared use of all residents on the site, and
 - ii) Readily accessible from all residential units on site.
- c) Outdoor living areas for residential units shall have areas and dimensions as follows.

Residential units	Outdoor living area per residential unit	<u>Shape</u>
Apartments and ancillary residential units	- A studio unit and one-bedroom residential unit: 5m² - A residential unit with two or more	No dimension less than 1.8m

	<u>bedrooms: 12m²</u> 8m²(55.318)	
Communal open space for apartment buildings (55.318)	8m²-per unit (55.318)	Capable of containing a circle with the following diameter: 4-7 residential units — 6m 8 or more residential units — 8m No dimension less than 2.5m (55.318)

Note

Plan Change 5
Peacocke Structure
Plan

- 1. Communal open space is an alternative to, and not in addition to, individual outdoor living areas for each residential unit.
- 2. The outdoor living area for an ancillary residential unit shall be separate from the outdoor living area provided for the principal residential unit.

Storage Areas

- a) Each residential unit shall be provided with a storage area:
 - i) Located at or below ground-floor level, readily accessible to that residential unit, secure and weatherproof.
 - ii) A minimum of 1.8m long by 1m high by 1m deep.

<u>Note</u>

1. The provision of a private, secure garage accessible only by the occupiers of the residential unit is considered to meet this requirement. (A shared parking garage is not sufficient to meet this standard).

7 Residential Unit Size

a) The minimum floor area required in respect of each apartment shall be:

Form of residential unit		Gross floor area
i)	Studio unit	Minimum 35m ²
ii)	1 bedroom unit	Minimum 45m ²
iii)	2 bedroom unit	Minimum 55m ²
iv)	3 bedroom unit	Minimum 90m ²

b) In any one apartment building containing in excess of 20 residential units, the combined number of one-bedroom units and studio units shall not exceed 50% of the total number of residential units within the building.

8 Daylight Standards

Residential units shall be designed to achieve the following minimum daylight standards.

- a) <u>living rooms and living/dining areas: a total clear-glazed area of exterior wall no less than 20% of the floor area of that space.</u>
- b) Bedrooms (excluding studio units, and any bedroom that complies with iii. below): a minimum of one bedroom with a total clear-glazed area of exterior wall no less than 20% of the floor area of that space.
- c) No more than one bedroom in any residential unit may rely on natural light borrowed from another naturally lit room provided:
 - i) The maximum distance of the bedroom from the natural light source window shall be 6m.
 - ii) The minimum total clear-glazed area of the light source shall be no less than 20% of the floor area of that bedroom.

9 External Outlook Area

Each residential unit shall have an external outlook area that:

- a) <u>Is provided from the face of the building containing windows to the indoor living</u> area, and
- b) <u>Has a minimum depth of 6m, measured perpendicular from the face of the window</u> area.
- c) Where an indoor living room has two or more walls containing windows, the outlook area shall be provided from the face with the greatest window area.
- d) The external outlook area may be over:
 - i) The site on which the building is located;
 - ii) The Transport Corridor Zone; or
 - iii) Public Open Space.

LCZ - PREC1-PSP: R4746 Active Frontages

- No roller doors, or similar security features, which may obscure be installed externally over windows or entranceways may be installed on the front of any building fronting a public space transport corridor or public reserve within the (53.55) Local Centre Zone.
- Any roller doors, or similar security features, shall be installed internally and shall enable visibility into the building. (53.55)

LCZ - PREC1-PSP: R4847 Primary Frontages

- Only retail activities, banks, cafes, restaurants, licensed premises, food and beverage outlets, community centres and entrances/lobbies to visitor accommodation retail activities and restaurants shall be located at the ground floor level of buildings within the Primary Frontages, as identified in the Peacocke Local Centre Concept Plan.
- Within the Primary Frontages as defined in the Peacocke Local Centre Concept Plan (Appendix
 Structure Plans, Figure 2-3d) buildings shall be designed to meet the following standards:

- a. A minimum of 75% of the ground floor wall facing the street, or public space, for the length of the ground floor wall, shall be of clear glazing, capable of displaying goods and services to passing pedestrians.
- b. <u>Customer entrances shall be located from the primary frontage.</u>
- c. A continuous verandah, no less than 2.5m deep shall be provided which extends along the full street building frontage. Verandahs and shall (53.56) be designed to provide full pedestrian cover.
- d. There shall be no vehicle access, off-street parking or service areas within the Primary Frontage Area.

LCZ - PREC1-PSP: R4948 Secondary Frontages

- <u>Within the Seconday Frontages as defined in the Peacocke Local Centre Concept Plan</u>
 (Appendix 2 Structure Plans, Figure 2-3d) buildings shall be designed to meet the following standards:
 - a. A minimum of 50% of the ground floor wall facing the street, or public space, for the length of the ground floor wall, shall be of clear glazing, capable of displaying goods and services to passing pedestrians.
 - b. <u>Customer entrances shall be located from the secondary frontage.</u>
 - c. There shall be no off-street vehicle parking or service areas within the Secondary Frontage Area.
