Schedule 9D: ~~Significant~~ Notable Trees

Note

In the table below:

1. “*” Means when assessed as part of a stand these trees reach the required threshold.
2. “x3” Means the number of trees assessed as one canopy (i.e. three trees).

The protected root protection zone of a tree may extend beyond the boundary of the listed lot and onto a neighbouring property. The extent of the individual Protected Root Zone for each Notable Tree, as shown on the planning maps is indicative. The radius measurement in Appendix 9D is to be measured from the centre of the trunk of the Notable Tree to confirm the physical location of the Protected Root Zone.
