

Oak trees at 10, 12, 14 Opoia Rd

Oak trees at 10, 12, 14 Opoia Rd

Oak trees at 10, 12, 14 Opoia Rd

Oak trees at 10, 12, 14 Opoia Rd

In summary: we consider the oak trees behind 10, 12, and 14 Opoia Rd (T253.2 and T253.3) a health and safety hazard because of:

- potential to fall on power wires, River Rd, our houses, and paths,
- their shading contributes to cold and dampness in houses and slipperiness on paths,
- Council needs to work to ensure storm resilience - removing these trees may prevent a lot of future problems

The decision we want from Council:

Do **not** make the Oak trees (T253.2 & T253.3) on the edge of River Road, behind 10, 12, and 14 Opoia Rd Notable trees....

but instead remove them and replace with smaller growing natives such as kowhai and pohutakawa.
