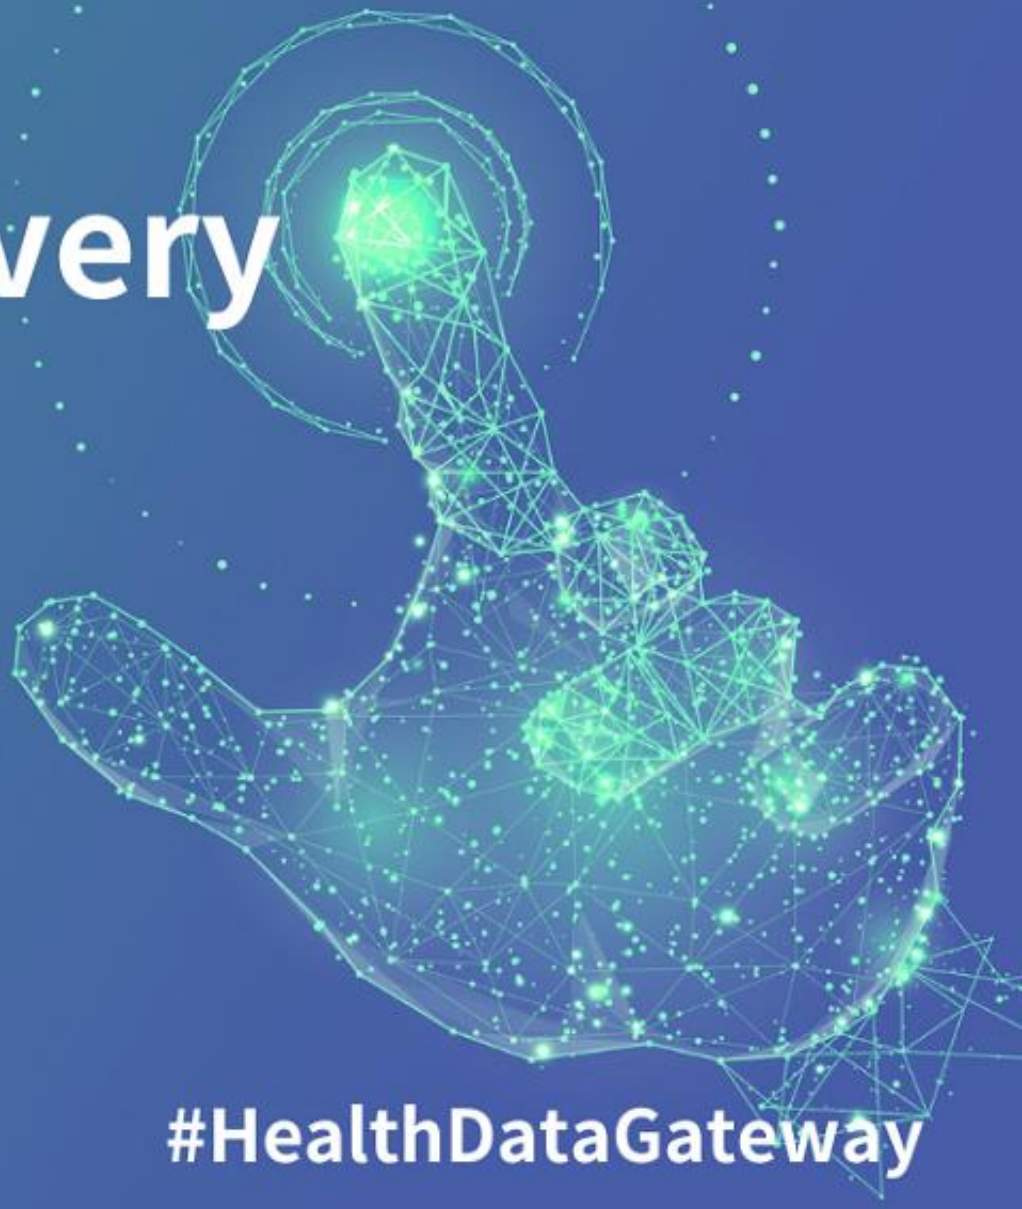
Data Access & Discovery

- HDR Innovation Gateway Interactive Feedback Workshop

11:00 - 12:00

Thursday, 11 August 2022



HDRUK
Health Data Research UK

Health Data Research Innovation Gateway

#HealthDataGateway

Breakout Room Sessions: Jam Board Activity Pages

HDRUK
Health Data Research UK

1 and 2. Welcome and Introduction

3. Please share your name, organisation, job title and how you kept cool during July's record-breaking heatwave.

4. Please share a few keywords that best describe your area of research or field of expertise.

5. What web-based portals do you use most often to support your research?

6. What is the biggest challenge you face when searching for and accessing the right data for your research?

7. What interests you the most about the Gateway as a platform to discover and request access to health datasets?

8. What would encourage you to use the Gateway more? And why?

9. Thank you for participating!

Group Findings: Page 3 and 4

3. Please share your name, organisation, job title and how you kept cool during July's record-breaking heatwave.

You represented:

- Research (academic and clinical)
- The public
- Research support and professional services
- Private companies (health research related)
- HDR UK staff

4. Please share a few keywords that best describe your area of research or field of expertise.

You had expertise in:

- Clinical health
- Life sciences
- Data science
- Other (cancer, imaging, mental health, AI)
- HDR UK staff (marketing, technology, project management)

Group Findings: Page 5 and 6

5. What web-based portals do you use most often to support your research?

The most common categories mentioned were:

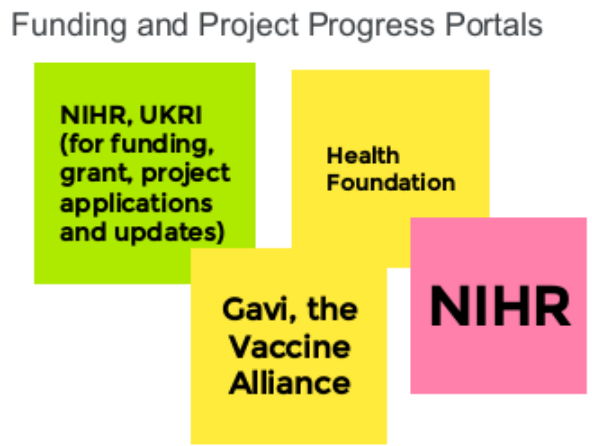
- Search engines (for publications mostly)
- Professional networks and collaborative workspaces
- Best practice resources
- Databases and repositories
- Dataset specific (like the Gateway)
- Cloud and computing services

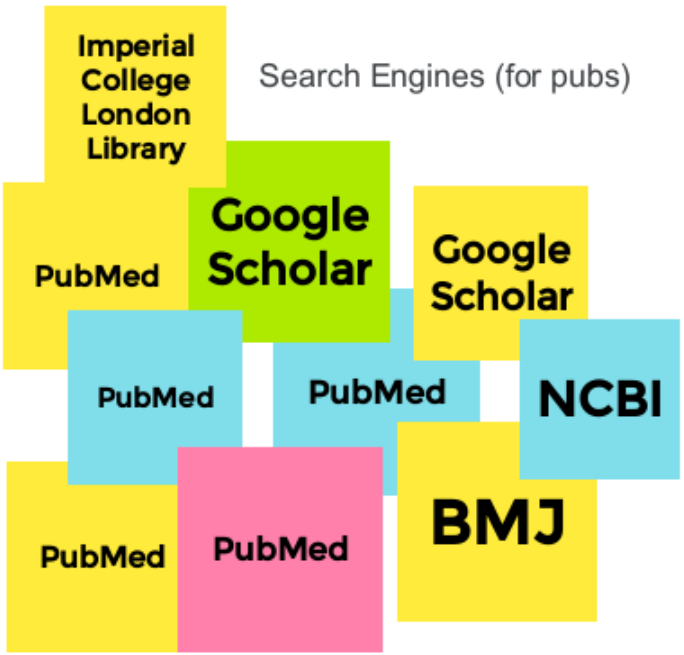
6. What is the biggest challenge you face when searching for and accessing the right data for your research?

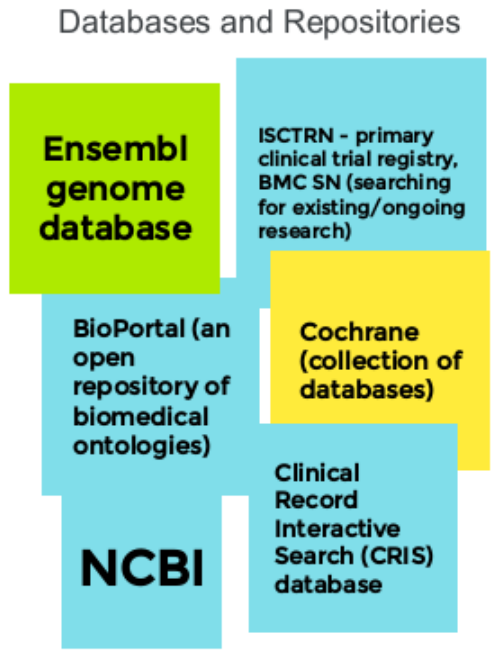
The most common challenges related to:

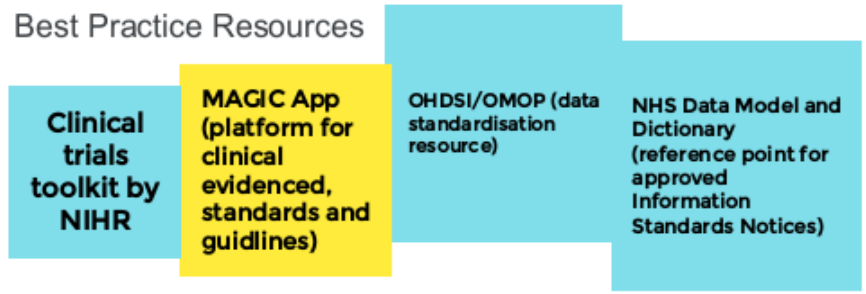
- Data information
- Data access (approval process)
- Data availability
- Latest research
- Data discovery platforms
- User experience

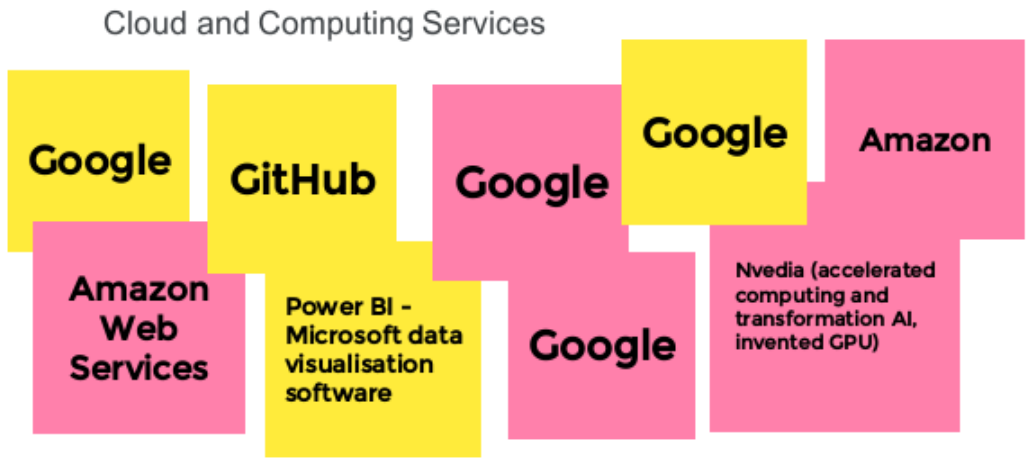
5. What web-based portals do you use most often to support your research?



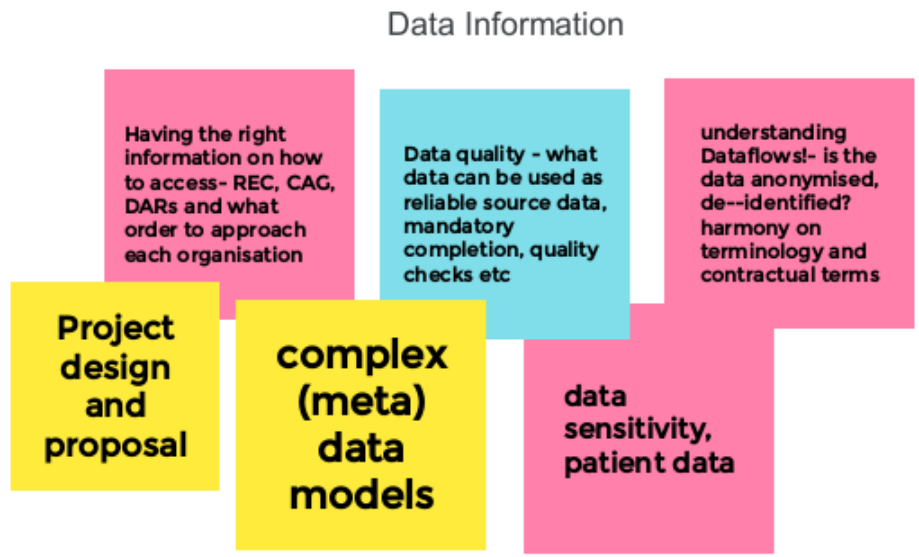


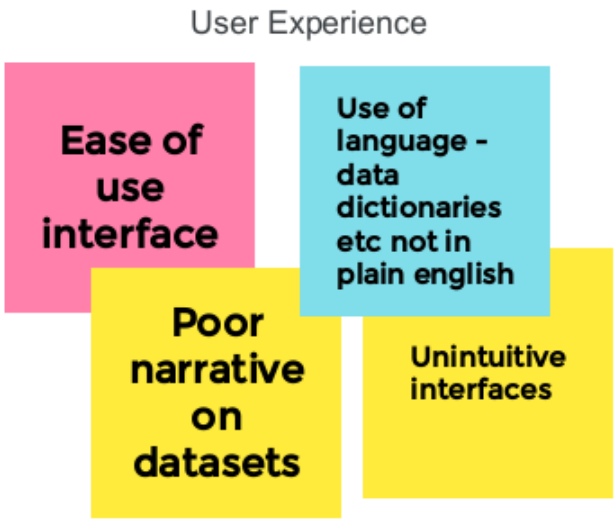


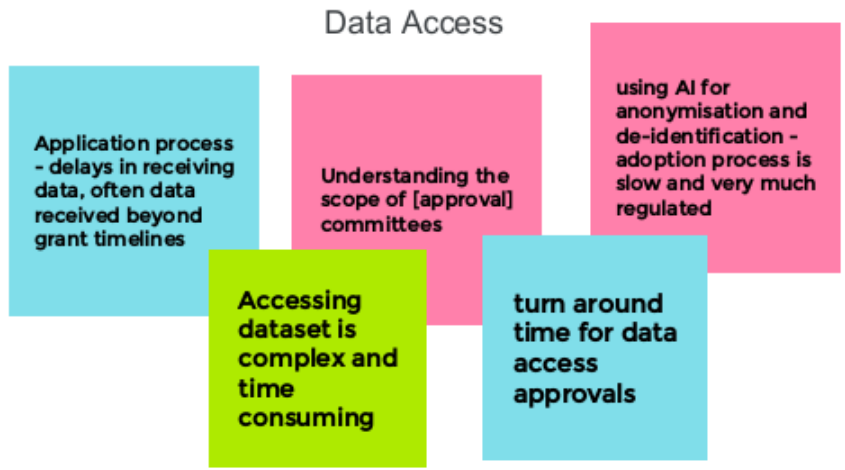


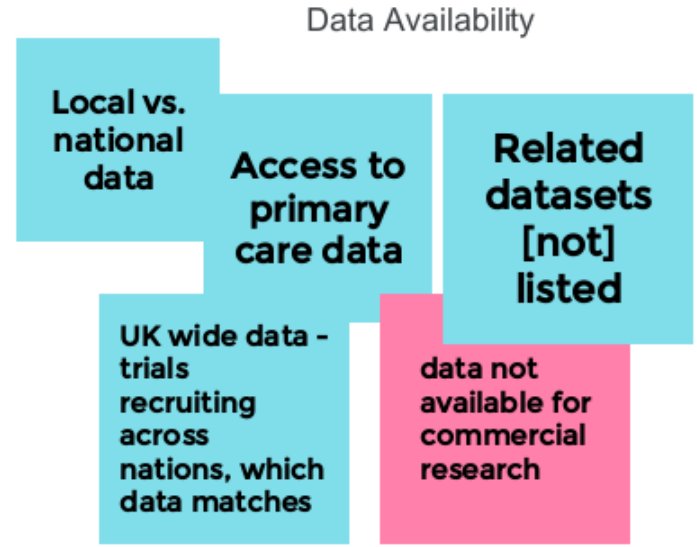


6. What is the biggest challenge you face when searching for and accessing the right data for your research?









Group Findings: Page 7 and 8

7. What interests you the most about the Gateway as a platform to discover and request access to health datasets?

This is what appeals to you most:

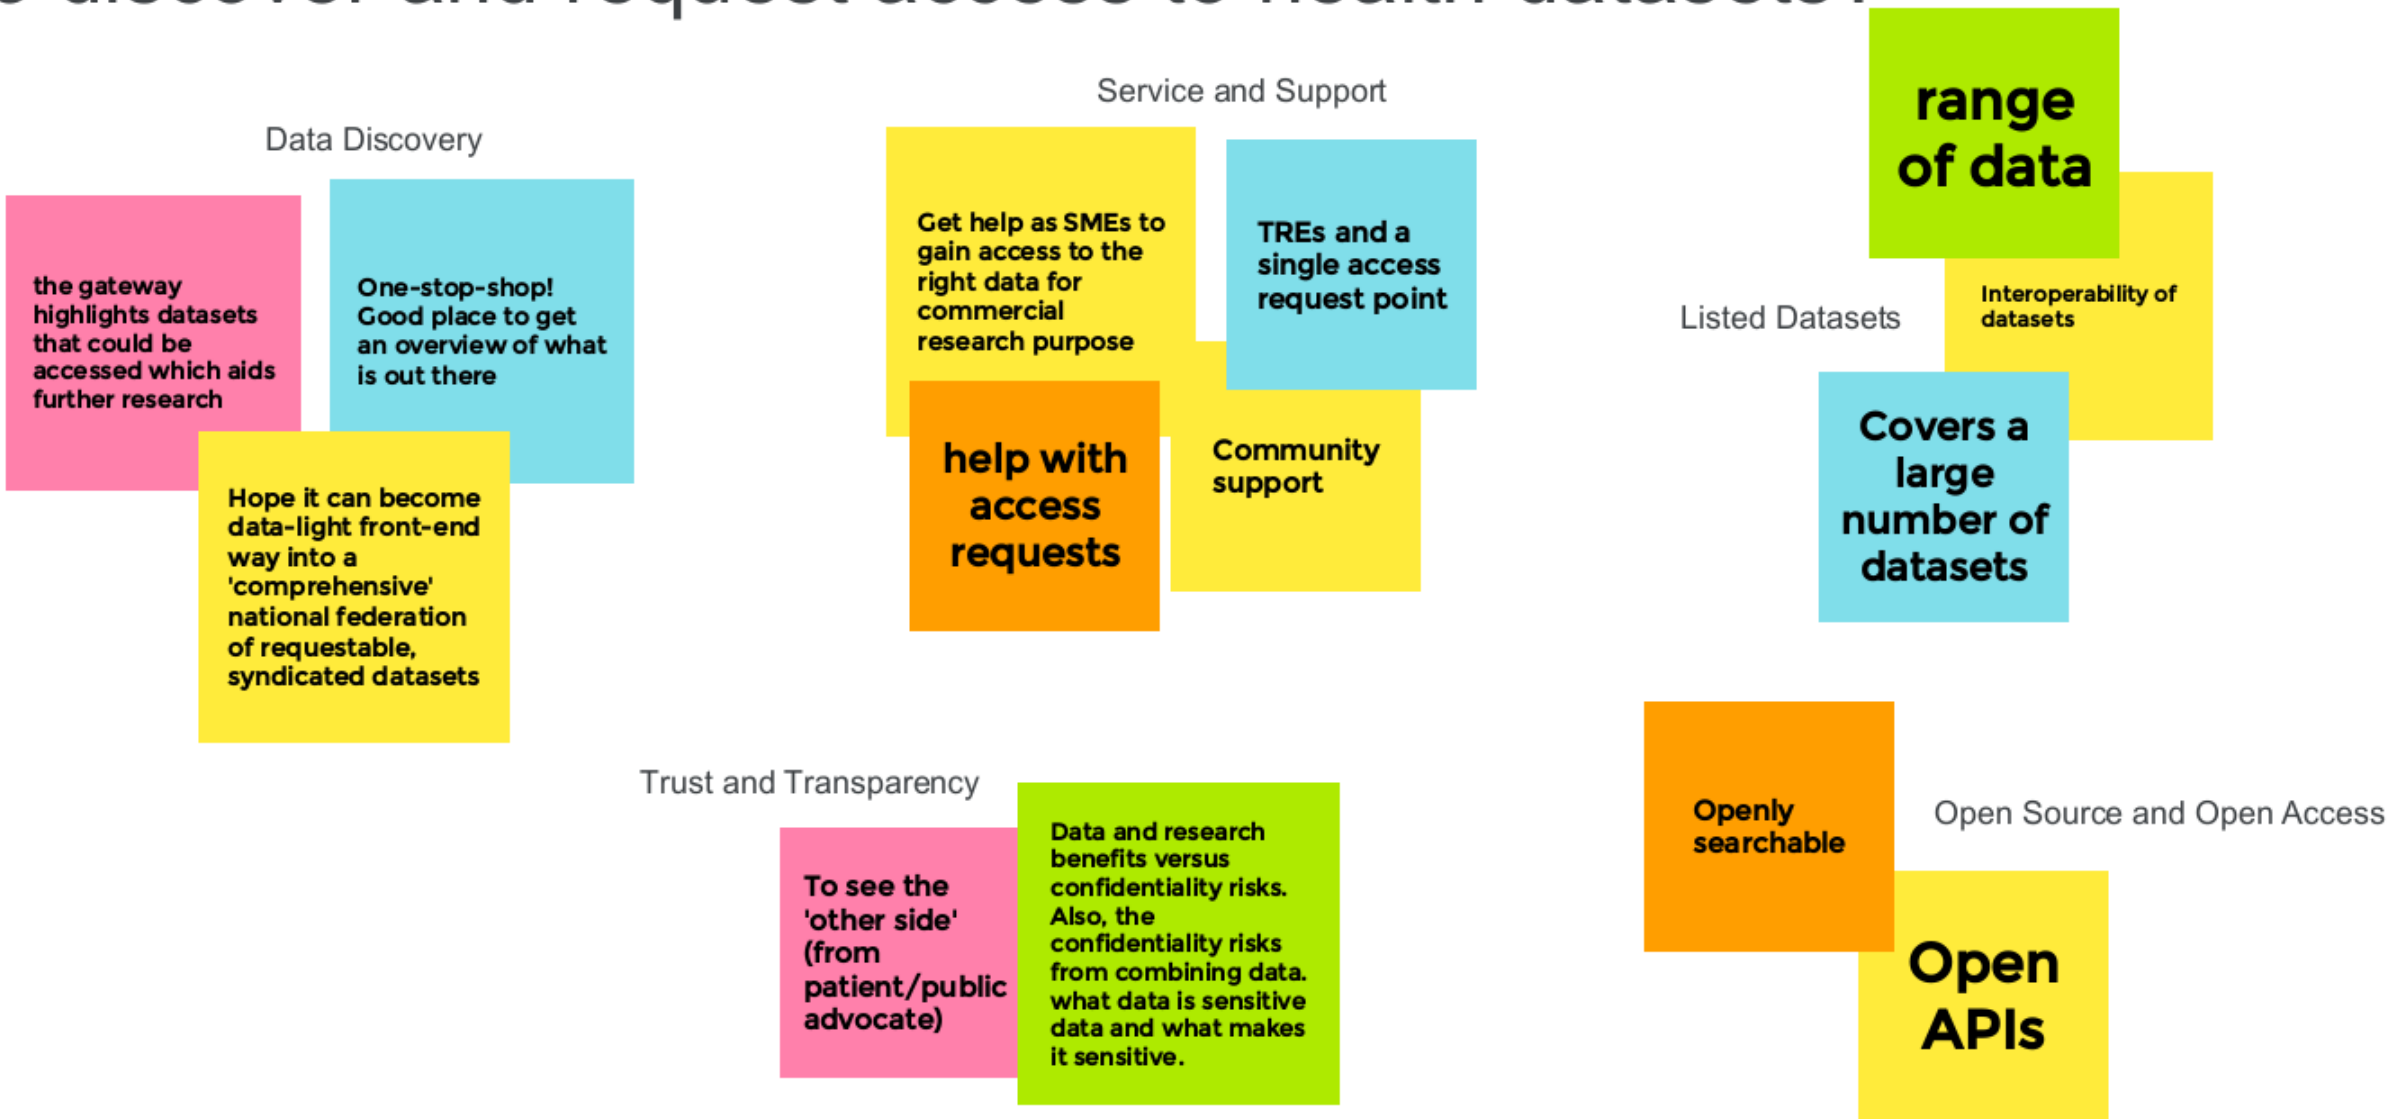
- Data discovery
- Trust and transparency
- The datasets!
- Service and support
- Open source and open access

8. What would encourage you to use the Gateway more? And why?

These are your suggested areas of improvement:

- Federation
- Search
- PPIE
- Development (focus)
- Visibility

7. What interests you the most about the Gateway as a platform to discover and request access to health datasets?



8. What would encourage you to use the Gateway more? And why?
