16:00	Debrief + Q&A
16:30 - 16:45	END OF DAY 1

This programme is comprised of four sessions which will follow different patient pathways to give you a broad overview of dentistry from general practice and secondary care perspectives. It will demonstrate the breadth of care provided by dentists at every stage of the patient pathway, as well as the different skills and values required in dentistry.

We would encourage you to engage with the interactive portions of the day on Slido, ask lots of questions and participate in the reflective exercises outlined in your work experience journal. Slido will be open during all our breaks to give you opportunity to ask even more questions. We are really looking forward to spending the day with you.
