

Marking an Article as Fresh

If you're using the [mark as stale feature \(/article/du4vb7glc8-marking-an-article-as-stale\)](/article/du4vb7glc8-marking-an-article-as-stale), you'll need to know how to mark them as fresh if you've updated them with new information. Good news is that it's super easy.

From the article editor

There are a few ways to remove the stale status from an article.

- 1 Articles with the Stale status will become Fresh when saved
- 2 You can mark it as fresh by clicking **Mark article as fresh** in the top bar

You can choose to keep it as stale on save by toggling **Remain Stale on Save**.

From the Content tab

You can mark an article as fresh from the content tab. It'll have a yellow background and a stale badge. Click **Mark as fresh** to mark the article as fresh without going to the article editor.
