

Cushions

Fact Sheet

Dash Cushion

Design by Form Us With Love

Dash is an innovative textile with a three-dimensional wool blend knit that makes it especially soft and padded. Dash is used on our Koti Sofa collection but we make good use of the off-cuts here in this series of desirable cushions. Apply them liberally to bring warmth to cool spaces and softness and comfort to any interior.

Melange Cushion

Design by Hem

Exceptionally warm, rich Norwegian wool lends the Melange Cushion an unmistakable air of luxury. Twisted yarns give the textile, called Modal Mouline, its distinctive duotone effect; these are woven together using traditional processes to create a classic woolen fabric that is as durable as it is attractive. The Melange Cushion make hard corners soft, add warmth to cool spaces, and bring comfort anywhere it is needed.

Neo Cushion

Design by Hem

The Neo Cushion collection is a series of versatile cushions to be used wherever and whenever a little soft support is needed in your home, office, or public space. This textile, called Uniform Melange, has an impossibly smooth appearance and thick, cushiony texture. The Neo Cushion is named after neoprene, a familiar and functional textile with which it shares some similarities, namely a softness to touch and durability. Two tones of thread are used in the 3D knitting, creating an unusual effect that is especially pleasing up close. The Neo Cushions are available in three different colorways and two sizes. Apply them liberally for maximum impact and extreme comfort.

Storm Cushion

Design by Sylvain Willenz

We chose the Razzle Dazzle textile created by Sylvain Willenz for Febrik, a young and creative Dutch textile company, for the Storm Cushion collection. The pattern takes its inspiration from the innovative camouflage technique of the same name, invented by artist Norman Wilkinson and originally applied to military ships. Razzle Dazzle features dynamic, clashing angles and juxtaposed shapes woven into its surface using a 3D knitting technique that creates extra depth and texture. Choose from eight color options and two sizes to add colorful punctuation to your soft-furnishing landscape.
