

To whom it may concern,

We understand that many leading organizations use Healthier Hospitals (HH) to guide their product specification process and design healthier spaces. We seek to offer products that are aligned with the Healthier Hospitals “Safer Chemicals” Challenge. This letter serves as a declaration regarding the following products:

Kilo Islands*

Plasma*

Prism* **

Hightower confirms that based on knowledge of our supply chain and collaboration with our suppliers, the products meet all the standards of HH’s “Safer Chemicals” Challenge, including the expectations that a product avoids the use of:

- Flame retardants at or above the 1,000 ppm level in homogenous material;
- Antimicrobials, unless added to materials or products for the sole purpose of preserving the product;
- Per- and poly-fluorinated compounds (PFCs);
- Polyvinyl chloride (PVC) above 1% by weight; and
- Formaldehyde, complying with the ANSI/BIFMA e3-2014 Furniture Sustainability Standard, Sections 7.6.1 and 7.6.2. The products listed above also comply with 7.6.3 and are all SCS Indoor Advantage Gold Certified.

*Optional Retractable Power Unit was not vetted

**This excludes Prism Honeycomb Table and Prism Single Bench Table

It is essential that any fabric applied to these products (whether COM or Graded-In) be vetted separately for HH compliance.

Furniture described herein meets the Healthy Interiors goal of the Safer Chemicals Challenge according to the manufacturer. Practice Greenhealth does not verify this information.

Signed,

Michaela Shaw
