

# HOW TO ORDER AND COMPLETE YOUR BLOOD TEST

**PLEASE NOTE: LAB TESTS ARE ONLY AVAILABLE IN THE U.S. AND NOT AVAILABLE IN NY, NJ, OR RI - BUT RESIDENTS OF THESE STATES MAY TEST IN OTHER U.S. STATES.**

**Do NOT pay at Labcorp.** If you make an additional payment at the Labcorp office, that money **cannot be refunded**. Please be careful and simply present your requisition form at the time of your blood draw - no additional payment is required.

## STEP 1

### Place Your Order

- Go to the **Blood Tests** section of our website.
- Choose the test or panel that fits your needs.
- Add it to your cart - each test can only be added once.
- A \$10 **LabCorp blood draw fee** will be added automatically.
- Review your cart. If the same biomarker appears in both a panel and an individual test, we'll let you know.
- Continue to **Checkout**.
- Enter your payment information.
- Enter the **patient details** (first name, last name, and email) for the person who will take the test.
- Complete your purchase.

## STEP 2

### After You Pay

- Your order will be processed by our partner - **RupaHealth**.
- You'll receive an email from RupaHealth with a link to create a patient account.
- After you register, you'll get your **lab requisition form** (your official order).
- You'll need to bring this form to LabCorp (either printed or on your phone).

## STEP 3

### Get Ready for Your Test

- Blood draws are done **only at LabCorp locations**, Monday through Friday.
- Most tests require fasting for 12-14 hours before your appointment.
- Some tests may have extra preparation steps (you'll find these in your test instructions).
- The cost of the blood draw is already covered — you don't need to pay anything extra at LabCorp.
- You will **not** receive an at-home kit — your sample must be collected at LabCorp.
- LabCorp does **not** accept GetLabs for this service.

## STEP 4

### Schedule Your LabCorp Appointment

- Visit [LabCorp's appointment page](#).
- Enter your ZIP code or address.
- Choose a LabCorp location near you.
- Select a date and time that works best.
- When asked about payment, choose **"I already paid or someone else is responsible"**.

## STEP 5

### What to Bring to Your Appointment

- A valid photo ID (your name must match the information on your RupaHealth order).
- Your lab requisition form (printed or saved on your phone).

## STEP 6

### On the Day of Your Test

- A trained phlebotomist at LabCorp will collect your blood sample.
- Your sample will be processed and sent to the lab for testing.

## STEP 7

### Getting Your Results

- Results are usually ready within 1-10 business days after your blood draw.
- You'll receive your results by email from RupaHealth.
