Linen Solutions for the healthcare industry

South India Linen Manufacturers Private Limited offers an eclectic range of products including bed linen, bath linen and uniforms. We welcome customization as our primary goal is to satisfy our customers' needs.

The organization is a consumer friendly conglomerate and chooses to cater to their clientele' needs. The products are crafted with skill and care and authenticity is guaranteed in our finished product.

The brand logo represents the core value and functionality of our brand. The colour purple signifies the royal charm that is reflected in the quality of our products. The letter "o" is designed to look like the linum bud - the fibres of which are weaved together to form our linen.

Amoda India is a part of South India Linen Manufacturers Private Limited, a company established in 1990. Amoda India aims to further the cause providing the best quality products at the lowest prices, while improving on comfort and customer satisfaction, one order at a time

# HOW TO CHOOSE THE RIGHT LINEN

## **Thread Count**

Thread Count, usually depicted as TC, TPI (threads per inch) or just T-. refers to the number of threads in a square inch of the linen. For example, 300 TC means that there will be 150 horizontal threads and 150 vertical threads in a square inch.

Higher thread counts make for more expensive linen. The higher the thread count, the more durable, soft and comfortable the linen will be.

In the healthcare industry, 220 TC to 250 TC bedsheets are standard for the general ward. They keep costs minimal and are durable enough for daily washes. In the deluxe wards, upto 300 TC bedsheets may be used.

## **Material**

Cotton and Poly-Cotton blends are the most used fabric in the healthcare industry. Cotton bedsheets are softer and more comfortable. Poly-cotton blend bedsheets are more durable. There difference is not much in the two and the choice depends on the buyer based on their preferences.

## **One time use?**

In the healthcare industry, there are situations where for hygiene purposes, there is a need for one time use sheets. In this case, it is best to use disposable bedsheets. The sheets are made of non-woven fabric and remain comfortable.

# BEDSHEET, PILLOW COVER, DUVET COVER

---

We have a wide range of bedding available to fulfill your needs. Since we are manufacturers, we can provide you with any thread count and pattern on your bedsheets, pillow covers and duvet covers.

Standard: 180 TC, 220 TC, 300 TC, 400 TC

# BLANKET AND DUVET

---

## Camel Blanket

Regular fleece blankets come in two sizes - 60" x 90" and 90" x 90". It comes in a camel colour.

These blankets are soft and comfortable while remaining affordable. These blankets can be used in almost every room. In a hospital setting, we understand that linen must be washed often.

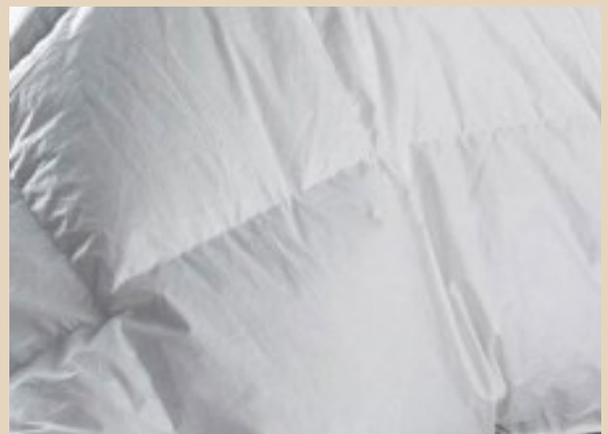

The blanket is machine washable and dries quickly

## Duvet

Duvet are available in a variety of weights and fillings. You can either choose the polyfill duvets or the microfibre duvets. The microfibre duvets are anti-allergenic, anti-dustmite, and OEKO-TEX100 certified.

These are advisable for your deluxe rooms and are to be purchased with a duvet cover. They are also machine washable.

---

# MATTRESS AND PILLOW PROTECTOR

---

## TPU LAMINATED

100% Waterproof mattress protector. This protector fits the bed like a fitted sheet. It protects the mattress from any damage by preventing liquid to seep through.

## 150 GSM QUILTED

This protector is water resistant. The quilting prevents the filling to shift. It protects the mattress as well as makes it softer for the patient. This protector has elastic straps to secure it to the bed.

## PILLOW

Pillow protectors come in both materials and fit the pillow like a pillow cover with a zip fastener.

For the healthcare industry, we have 2 main pillow types, the polyfill pillows and the microfibre pillows. The polyfill pillows are standard soft pillows to be used in most rooms. They are the affordable yet comfortable option. The microfibre pillows are anti allergenic and anti dust mite. They are also OEKO-TEX 100 Certified.

**If your pillow requirements differ from these, we do maintain a full pillow menu. Contact for specifications.**

---

# PILLOWS

# TOWELS

Our range includes bath towels, hand towels, bath mats to name a few products. Our towels are available in a variety of sizes and GSM, and can be customized based on your specifications.

We have a range of disposable bedsheets and pillow covers that may come in use in the healthcare sector. They are hygienic while staying super comfortable and soft.

These sheets and pillow covers remade to be lightweight and cost effective.

**DISPOSABLE LINEN**
