

SIPPLINE & Guest WOW

The importance of personal hygiene and safety has never been more important than its been in the past year.

Hospitality sector, inspite of taking ample precautions has been the worst hit.

Hospitality in India |

India is well known for the WOW service delivered to it's guest. Going the extra mile has always been the differentiating factor. Now is the time to lend a new level of differentiation through a unique hygiene tool. Introducing Sipline.

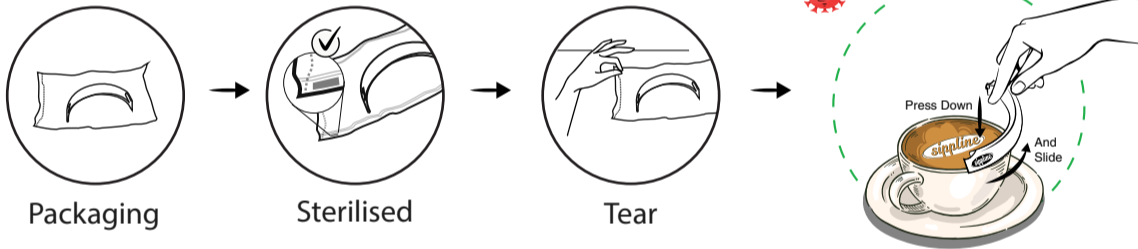

A new way of Hygiene is Born

What is SIPPLINE?

Sipline is a sterilized portable and reusable attachment used on the rim of the glass and the likes, to avoid lips coming in touch with them while sipping a drink.

Even though the glasses are washed, there are several instances where a human touch is inevitable; after washing till being served. Guests are often seen wiping their glasses before filling their drink. Isn't it worth thinking, WHY? Isn't it worth providing a solution for? Thus, sterilized Sipline fills the void.

Why SIPPLINE for you? |

Who does not love getting more than they expect. It is a human mindset and makes them feel important and being valued. Guests love unexpected service. This helps make a long lasting impression. Everyone respects true initiatives, like in this case, offering something that complements safety in the current scenario.
