## NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD FROM 01 JANUARY 2023 TO 30 JUNE 2023

**2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****2.6 Financial assets****(a) Classification and measurement****(i) Financial assets measured at fair value through profit or loss (FVTPL)**

Financial assets at fair value through profit or loss are financial assets held for trading or designated by the Board of Management at initial recognition at fair value through profit or loss.

A financial asset is classified as held for trading if meeting one of the following conditions:

- It is purchased or created for resale/repurchase in short term; or
- At initial recognition, it constitutes a part of an identified portfolio of financial instruments which are traded for short-term profits; or
- It is a derivative (except those defined as financial guarantees or effective hedges).

At initial recognition, the Board of Management designates a financial asset at fair value through profit or loss if such designation promotes the fairness of its presentation due to one of the following reasons:

- Such designation eliminates or significantly reduces a measurement or recognition inconsistency (also called as “accounting mismatch”) that would otherwise arise due to different bases; or
- It gives rise to a group of financial assets whose performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy and internally disseminated to the Company's key management (as defined in Vietnamese Accounting Standard on Related parties disclosure) such as Board of Directors, Board of Management and major shareholders.

Financial assets at fair value through profit or loss are initially recorded at cost exclusive of transaction costs. Transaction costs related to purchases of FVTPL financial assets are expensed off immediately.

Financial assets at fair value through profit or loss are subsequently measured at market value or fair value (in case market value is indeterminable). Those shares, including derivatives to be settled in shares, that not traded on active market or those whose fair value is not reliably determined are accounted at cost.

All gains or losses from change in fair value of FVTPL financial assets are recognised in profit or loss of the statement of comprehensive income.

**NOTES TO THE FINANCIAL STATEMENTS**

FOR THE PERIOD FROM 01 JANUARY 2023 TO 30 JUNE 2023

**2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****2.6 Financial assets (continued)****(a) Classification and measurement (continued)****(ii) Held-to-maturity financial assets ("HTM")**

HTM financial assets are non-derivative financial assets with the followings characteristics:

- Payments are fixed or determinable;
- Maturity is fixed;
- The Company has positive intention and ability to hold to maturity.

The following assets are excluded from HTM financial assets:

- Non-derivatives classified as FVTPL financial assets at initial recognition;
- Non-derivatives classified as available-for-sale ("AFS") financial assets; and
- Non-derivatives qualifying conditions to be classified as loans and receivables.

HTM financial assets are initially recorded at cost inclusive of directly attributable purchase costs, subsequently measured at amortised cost using effective interest method ("EIR").

Effective interest method is a method used in calculating the amortised cost of an HTM financial asset or a group of HTM financial assets and in the allocation and recognition of the interest revenue or interest expense in profit or loss over the relevant period.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the financial instrument's expected life, or a shorter period where appropriate, to the net present value of a financial asset or a financial liability.

Amortised cost of HTM financial assets is determined at historical cost less principal received plus (or less) accumulated amortisation using effective interest rate method between historical cost and maturity value, less impairment loss (if any).

As at reporting date, HTM investments are provided for impairment loss when there is any objective evidence of impairment or uncollectibility as a result of one or more events that occurred subsequent to the initial recognition and affected estimated future cash flows of HTM investments. Objective evidence of impairment may include:

- Significant financial difficulty of the issuer or the obligor;
- A breach of contract, such as default or delinquency in interest or principal payments;
- The lender, for economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the lender would not otherwise consider;

**NOTES TO THE FINANCIAL STATEMENTS**

FOR THE PERIOD FROM 01 JANUARY 2023 TO 30 JUNE 2023

**2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****2.6 Financial assets (continued)****(a) Classification and measurement (continued)****(ii) Held-to-maturity financial assets ("HTM") (continued)**

- It becoming probable that the borrower will enter bankruptcy or other financial reorganisation;
- Observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the group, including:
  - Adverse changes in the payment status of borrowers in the group; or
  - National or local economic conditions that correlate with defaults on the assets in the group.

Provision for impairment of HTM financial assets is determined at the difference of the estimated recoverable amount and the carrying value of HTM financial assets at the reporting date. Provision/(reversal of provision) for such impairment is debited/credited to expenses in profit or loss of the statement of comprehensive income.

HTM financial assets are classified as current and non-current assets in the statement of financial position based on their remaining maturity as at the reporting date.

**(iii) Loans**

Loans are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

In the reporting year, the Company had the following types of loans:

- Margin loans: the amounts lent to customers for their purchases of listed securities in accordance with Decision 87/QD-UBCK issued by the State Securities Commission on 25 January 2017. According to this regulation, the initial margin (ratio of net equity to market value of security to be purchased on margin as at trading date) is set by the Company but shall be not lower than 50%. The margin loans are collateralised by securities eligible for margin lending
- Trading advances: the amounts advanced to customers at the trading date. These amounts are repaid within two (2) trading days.

Loans are initially recorded at cost and subsequently measured at amortised cost using the EIR method).

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD FROM 01 JANUARY 2023 TO 30 JUNE 2023

**2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****2.6 Financial assets (continued)****(a) Classification and measurement (continued)***(iii) Loans (continued)*

Amortised cost of loans is determined at historical cost less principal received plus (or less) accumulated amortisation using the EIR between historical cost and maturity value, less impairment loss (if any).

As at reporting date, loans are provided for impairment loss when there is any objective evidence of impairment. Provision for impairment of loans is determined at the difference of market value of collateral and the carrying value of loans at the reporting date. Provision/(reversal of provision) for such impairment is debited/credited to expenses in profit or loss of the statement of comprehensive income.

*(iv) Available-for-sale financial assets ("AFS")*

AFS financial assets are non-derivative financial assets that are not classified as FVTPL, HTM, loans nor receivables.

AFS financial assets are initially recorded at cost inclusive of directly attributable purchase cost.

At the reporting date, AFS financial assets are measured at fair value. Those shares not traded on active market or those whose fair value is not reliably determined are accounted at cost.

All gains or losses from revaluation of AFS financial assets are accounted for directly in equity (other comprehensive income) through the statement of changes in equity, exclusive of impairment losses. Such recognition is applied until the asset is de-recognised.

At derecognition, accumulated gains or losses in equity are recognised in profit or loss of the statement of comprehensive income as a reclassification. Gains using effective interest method is recognised in profit or loss of the statement of comprehensive income in accordance with Standard on Revenue recognition.

As at reporting date, AFS financial assets are provided for impairment loss when there is any objective evidence of impairment.

Objective evidence of impairment for debt instruments may include those identified as for HTM financial instruments.
