V. DISCUSSION AND VOTING OF THE MEETING

1. Discussion

Apart from queries about reports and proposals answered by the Chair, the Meeting had also the others as below:

Questions and answers (Q&A):

Question 1: At present, the trend of HSC's brokerage market share is sideways or even down. Does HSC have enough potential to increase its market share and based on which basis?

Answer: In order to increase the brokerage market share, in addition to Financial capability, HSC always focuses on upgrading IT system, enhancing service quality as well as developing human resources to meet the market's demand.

However, there are two factors affecting increase in HSC's market share:

- Securities firms are competing for market share in a limited market segment.
- HSC has not lent for margin lending to ineligible stocks.

As HSC's business goal is sustainable growth, HSC should consider between profit from increase in market share and expenses and potential risks.

Question 2: What are the affects of increase in foreign investors' ownership on HSC?

Answer: Although there will be some limits in HSC's business activities after increasing foreign investors' ownership, it will also bring good opportunities for HCM stock in HOSE such as improvement of liquidity, funding capability (if necessary) and change in shareholder structure towards more foreign investors.

Question 3: What are the expectations of HSC in derivative market?

Answer: The first 2 derivative products are Index Future and Government Bond Future that HSC will introduce to investors in May 2017. HSC is one of active members coordinating with SSC to prepare for launching derivative market. Derivative market gives investors more opportunities in predicting market, hedging ... and this will be one of three pillars of Capital market besides Equity Market and Bond Market. Revenue from derivative in 2017 of HSC may be insignificant, but it is expected to go up dramatically in 2018.
