

EARTH

— DAY —

Earth Day 2020 has taken on new meaning.

What does it mean to celebrate the 50th Anniversary of Earth Day, now that we are practicing social distancing?

AIA CA takes #climateaction seriously. And we can still celebrate and honor the earth virtually. We are curious to see how other offices and individuals are celebrating.

Join us by tagging @aiacalif on your social media posts, or send the examples and photos to Shannon Calder, scalder@aiacalifornia.org. And use the below hashtags for all to see and celebrate together:

#earthday50 #earthday20 #change from within #virtualaiaca #aiacaherefor you
#careerresiliency #insteadof #thrivinginchange #silverlinings
