The Minister carries out the implementation of the Scholarship Programme by performing the tasks specified in Section 4 of the Scholarship Decree through the Hungary Helps Agency Non-Profit Private Limited Company (hereinafter: the Agency).

The Agency, on the basis of the authorisation granted under Section 4(a) of the Scholarship Decree, hereby adopts the following Operational Regulations (hereinafter referred to as the "Regulations") for the implementation of the Scholarship Programme for Young Christians.

The objective of the Scholarship Programme is to provide opportunities to pursue higher education at state-recognised higher education institutions in Hungary for Christian young people in crisis regions of the world whose Christian communities in their countries of origin are subject to religious persecution, threats or restrictions on the free exercise of religion. The Scholarship Programme also aims to contribute to the social appreciation of professionals returning to their home countries and to the success of these communities in their home countries.

The Regulations shall be approved by the Minister, after obtaining the agreement of the Minister for Higher Education.
2. The Regulations and any amendments thereto shall enter into force on the day following the approval of the Minister described in point 1.
3. The Regulations and the unofficial English translation shall be published on the official website of the Agency immediately after approval.
4. In case of dispute, the Hungarian version of the Regulations shall prevail.
5. Enforcement of the principles set out in the Regulations may be supplemented by an Implementation Guide to define detailed procedural matters and to assist in the implementation of the detailed rules (hereinafter: the "Implementation Guide"). The Implementation Guide is issued by the Director General of the Agency. Entry into force shall be governed by the provisions of the Regulations.
6. The approval, of the Regulations and the issuance and acceptance of the Implementation Guide under Section 5 shall be communicated to those concerned.

II.2. The order of the preparation and the announcement of the Call for Applications

II.2.1. Within the framework of the Scholarship Programme, the Minister invites applications for a place at a Hungarian higher education institution on a self-financed basis. The Call for Applications for the Scholarship Programme is drawn up by the Agency on the basis of guidelines agreed between the Minister and the Minister responsible for higher education. The language of the Call for Applications is English. The Call for Applications shall include:

- e) the requirements for academic advancement;

The Agency sends the Call for Applications to the Minister for approval, which the Minister approves after obtaining the agreement of the Minister responsible for higher education. After approval by the Minister, the Agency shall publish the Call for Applications on the Agency's website on the instructions of the Minister.

II.2.2. The Agency sends the Call for Applications to the competent authorities and to the Hungarian higher education institutions participating in the Scholarship Programme.

II.3. The order of the selection procedure

II.3.1. Applicants shall submit their application materials online, via the dedicated electronic platform, after registration. The Agency shall ensure the operation of the electronic platform. Following the publication of the Call for Applications, the Agency will open the electronic application platform. In order to conduct the application, the higher education institutions receive the access rights from the Agency.

II.3.2. Applicants can access the online application system after registration.

II.3.3. The deadlines for submission of documents and the deadline for completing the application are set out in the Call for Applications.

II.3.4. After the deadline for submission of applications, a technical check will be carried out.

II.3.5. If the number of valid applications exceeds twice the number of admissible student capacity available, valid applications with certificates may be forwarded by the State Secretariat to the relevant partner churches for nomination. The State Secretariat may give preference to the candidates of the partner churches with which the Agency is currently carrying out or in the future will carry out support projects, thereby also helping that, on the basis of the recommendation of the churches, the most appropriate and committed students can participate in the Scholarship Programme, thus helping the prosperity of the Christian communities remaining in their home country to the greatest extent.

II.3.6. The competent partner churches shall prepare their candidate rankings by the deadline and send them back to the State Secretariat as a candidate list.

II.3.7. The Agency shall also be entitled to examine candidate lists received after the deadline, and the application materials of applicants on the lists may be forwarded to university entrance examinations, provided that the higher education institutions have the reasonable time required to complete the admission procedures.

II.3.8. The Agency will contact the Hungarian higher education institutions concerned and forward the files of applicants with a valid recommendation or nomination for admission.

II.3.9. The institutions shall check the applications formally and conduct their admission procedures until the specified deadline according to the ANHE and their own internal regulations.

II.3.10. The results of the selection procedure shall be sent by the institutions to the Agency. The final result and evaluation of the procedure converted to a scale of 100 points will be recorded on the online application platform by the deadline. The outcome of the procedure can be Acceptable, Conditionally Acceptable, Formally failed and Failed. Only those applicants can be accepted conditionally who cannot present the documents proving their qualifications or language proficiency during the procedure due to other ongoing procedures. Only applicants who have successfully completed a minimum of 56 points out of a maximum of 100 points during the admission procedure will be eligible to receive an accepted or conditionally accepted final result in the admission procedure. In the case of an admission score of less than 56 points, the applicant's admission score will be considered rejected and no scholarship shall be awarded.

II.3.11. The Agency will allocate the accepted and conditionally accepted applicants taking into consideration the following aspects:

II.3.11.1. In the case of applicants who can be supported, the capacity of the programme must be taken into account on the basis of the higher education institution's previous statement (minimum and maximum capacity).

- a) Deviations from the minimum and maximum capacities are possible on indication by the higher education institution.
- b) In the capacity assessment, preference will be given to candidates who are higher in the nomination ranking, and in case of equal nomination ranking, the admission score will decide.
- c) After the capacity check, applicants are categorized as "Scholarship Awarded" and "Rejected (Quota)".

II.3.11.2. In order to apply for doctoral studies, the applicant must be supported in writing by a researcher teaching at a doctoral school accredited in Hungary and must have obtained a Master's degree within the framework of the scholarship programme. The recommendation must be uploaded to the application interface by the deadline specified in the call for applications.

II.3.11.3. If a study programme is not initiated, the Agency may forward the applicant's application to the same study programme at another higher education institution, depending on whether there is free capacity for the higher education study programme. In this case, the new institution may decide on acceptance or rejection after examining the application material.

II.3.12. If the available funds are insufficient, the list of applicants belonging to the category recommended for support may be narrowed by the Agency based on the nominations of the partner churches and the admission results or reallocate successful candidates to another scholarship programme, as agreed by the individual ministers or ministries.

II.3.13. The Agency will draw up a list of eligible applicants based on the results of the application. The Director General will present the list of eligible candidates to the State Secretary. The Secretary of State submits the proposal to the Minister, on the basis of which the Minister prepares a proposal for the awarding of scholarships and sends it to the Minister responsible for higher education for a decision.

II.3.14. On the basis of the recommendation of the Minister, the Minister for Higher Education shall decide on the result of the application required for the award of the scholarship. The Agency will inform applicants and Hungarian host higher education institutions of the decision of the Minister for Higher Education.

Applicants who are awarded a scholarship will be notified of the duration of the scholarship agreement (in terms of academic semesters), the Hungarian host higher education institution of the scholarship holder and the course of study on which the scholarship holder may start. No appeal may lie against the decision of the Minister for Higher Education.

The list of scholarship holders is sent by the Agency to the immigration authority specified by Act XXXIV of 1994 on Police (hereinafter: competent immigration authority), the Consular Department of the Ministry of Foreign Affairs and Trade and the relevant embassies in order to facilitate the entry of the scholarship holders to Hungary.

II.3.15. Scholarship holders can begin their studies at the higher education study programme which they have been admitted to. After the decision on the allocation of scholarship holders is made, the higher education study programme of the applicant can only be changed in justified cases (e.g. the programme is not launched), considering the capacity of the programmes and the available funds. In justified cases (e.g. the programme is not launched), the applicant may be transferred to a similar or the same study programme of another institution, with the consent of the applicant and the higher education institutions. If the applicant cannot be transferred to a similar study programme of another higher education institution, the original host institution of the scholarship holder may forward the applicant to one of its other study programmes with the consent of the applicant. The transfer requires a decision by the Agency.

II.3.16. A person who has been identified by the national security services as a potential risk may be denied participation in the scholarship programme.
