# What You Need to Know

### THE HURRICANES' RESUME

ATI ANTIC COAST CONFERENCE

- 17-8 overall record. 8-6 in ACC play.
- Currently No. 55 in NCAA RPI.

• Six of eight losses have come to teams with an RPI of 20 or better. Other two losses are at Rutgers (RPI - 58) and at Virginia (RPI - 68).

• According to RealTimeRPI.com a great win over Penn State (RPI - 6) and good wins over Davidson (RPI - 90), Virginia (RPI - 68) and Georgia Tech (RPI - 78).

• Conference rankings according to RealTimeRPI.com and WarrenNolen.com (Big 12, Big Ten, Big East, SEC, ACC).

• The ACC won the ACC/Big Ten Challenge, 7-5, this season. Currently, the Big Ten is rated as the second best conference. Miami went 2-0 over Big Ten teams this season (Penn State, Wisconsin).

- An 11 seed in ESPN Bracketology.
- An 8 seed in College Sports Madness Bracketology.
- A No. 3 seed in each of the last two NCAA Tournaments.
- No bad losses according to RealTimeRPI.com.

• Suffered through a four-game stretch (at No. 10 Maryland, at No. 18 FSU, vs. No. 11 UNC, at Wake Forest) when flu hit the team/coaches/support staff.

### **MEIER IN EIGHTH SEASON AT MIAMI**

• Katie Meier and her staff are in their 8th year at the helm in Coral Gables.

 $\bullet\,$  UM advanced to the NCAA tournament 2nd round for the 2nd consecutive season in 2012

- Canes finished 2nd in ACC with a 14-2 record in 2011-12
- Miami finished with a 26-6 record.

• Three straight 20-win seasons for Meier, on the way to fourth.

• Meier has been named the head coach of the 2013 USA U19 team that will compete in the FIBA World Championships.

### **A PREMIER SCHEDULE**

• ACC schedule expanded to 18 games and four ACC teams rank among the Top 20 in the nation.

• Miami's out-of-conference schedule included Tennessee, Penn State and Rutgers

### ALL-ACC PERFORMERS

• Morgan Stroman and Stefanie Yderstrom have each been named 3rd Team All-ACC in their careers.

• Morgan Stroman and Keyona Hayes were named ACC Player and Freshman of the Week, respectively (Feb. 11).

• It was the first time that Miami swept the weekly awards since Jan. 11, 2010.

• Stroman scored 24 points, grabbed a career high-tying 16 rebounds and led Miami with four assists at Clemson (Feb. 7).

• Stroman led UM with 16 points vs. No. 19 FSU (Feb. 10)

• Hayes averaged a double-double on the week with totals of 20 points and 20 rebounds. Her fourth double-double of the season came at Clemson, where she scored 12 points and grabbed 10 rebounds.

### YDERSTROM STEPPING UP HER SENIOR SEASON

• Yderstrom has reached double-figure scoring in 16 games this season.

• 30 3-pointers have come in ACC play - ranks No. 6.

• 216 career 3s is second all-time at Miami (Riquna Williams, 272).

- 85% career FT shooter best in school history.
- 88.1% from the line this season (52-59), best in the ACC.
- In ACC play, 4th in conference in 3FG% at 42%.
- 2nd on team in assists (2.4), 2nd in scoring (11.8).
- Has started 100 consecutive games.

### **GREAT PLAYER, GREAT SEASON**

• Morgan Stroman scored a career-best 28 points vs. UNC (Jan. 27).

• Leads Miami with 7 double-doubles on season, has 24 for her career.

• Leads UM in scoring (13.2), rebounds (8.5), steals (2.0) and blocks (1.2).

• Double digit rebounds in 9 games this season.

• 6th all-time at UM with 817 rebounds and in FTs made (371), 7th in FT attempts (537), 8th with 264 steals and 90 blocks.

• Missed second half of last season with torn Achilles'.

### CANES SET FOR ROAD CLASH WITH NC STATE

- · The last meeting between Miami and NC State ended in a 79-53 victory for the Canes earlier this season on Dec. 20.
- In that game, Stefanie Yderstrom scored 21 points while hitting all eight of her free throws.
- · Also in that game, Miami won the rebounding
- advantage 51-40 and shot 44.8 percent from the field while NC State shot 27.4 percent.
- The Wolfpack are coming off a 79-70 loss to Georgia Tech on Feb. 17.
- Myisha Goodwin-Coleman scored a career-high 30 points in the Georgia Tech loss.
- Kody Burke leads the Wolfpack in scoring with 14.0 ppg, followed by Marissa Kastanek with 13.0 ppg.
- NC State has a 9-6 record all-time against Miami, but the Hurricanes have won the last five meetings.

### LAST TIME OUT

- Miami defeated Boston College, 78-53, on Feb. 17.
- · Five players reached double figure scoring for just the second time on the season. It was the first time that all five starters reached double figures.
- · Morgan Stroman and Shawnice Johnson led the team with 17 points.
- Wilson and Keyona Hayes led UM with 9 rebounds.

### PLAY 4KAY

- The Canes' annual Play 4Kay game was Feb. 10 vs. FSU.
- · For the first time, UM wore pink uniforms in the annual contest in an effort to raise breast cancer awareness.
- · The game was televised on CSS.
- · All proceeds from t-shirt sales went to the Sylvester Comprehensive Cancer Center.

### **MEIER TO LEAD TEAM USA U19 SQUAD**

- Katie Meier named head coach of 2013 USA U19 team that will compete in FIBA World Championship.
- Meier led 2012 USA U18 Women's National Team to a perfect 5-0 mark and the gold medal at the 2012 FIBA Americas U18 Championship.
- Trials to select the 12-member USA squad will be held May 16-19

• The 2013 FIBA U19 World Championship, will be hosted by Lithuania from July 18-28 in Klaipeda and Panevėžys.

Hometown (Previous School) Detroit, Mich. (Pershing) Ostertalje, Sweden (Igelstaviken) Naples, Fla. (Community) West Park, Fla. (South Broward) Marietta, Ga. (Saint Francis)

Chesapeake, Va. (Indian River) Gastonia, N.C. (Indian River CC) Ft. Lauderdale, Fla. (Dillard) Hopkins, S.C. (Lower Richland) Minneapolis, Minn. (Roosevelt) Pittsburgh, Pa. (Pittsburgh) Monroe, La. (Ouchita Christian)

### TOUGH TO BEAT AT THE BANKUNITED CENTER

- · Miami has won 54 of its last 57 games inside the BankUnited Center.
- The only losses have come to No. 20 Tennessee (Nov. 18, 2012), No. 11 North Carolina (Jan. 27, 2013), and No. 19 Florida State (Feb. 10, 2013).
- Prior to its loss to UNC, Miami hadn't dropped a home ACC game since Feb. 21, 2010 to Georgia Tech, a span of 1.072 days.

### 1,000 POINT CLUB

- · Morgan Stroman and Stefanie Yderstrom have reached
- 1,000 career points this season.
- Stroman reached on Nov. 23 vs. FAU, became the
- 22nd player in UM history to do so. · Yderstrom reached on Jan. 3 vs. Clemson.

### SURIYA MCGUIRE: MS. BIG SHOT

- · Suriya McGuire has scored 2 game-winning baskets this season.
- · First came with 14 seconds left over then No. 6 Penn State (Nov. 29).
- Second game with 5 seconds left at Wake Forest (Jan. 24).
- McGuire scored a career-best 17 points vs. Wake.
- Leads team in assists (2.4) and 2nd steals (1.5).

### PEPPER TOO HOT FOR NC STATE TO HANDLE

- · Shawnice "Pepper" Wilson has faced NC State 3 times
- since transferring to UM after her sophomore season. • Averaged 11.3 points and 14 rebounds in those
- games.

 Then career-best 17 points and 17 rebounds at NC State as a junior.

• On the season, has reached double figure scoring in 11 games and double-digit rebounds in seve.

### CANES HAND NO. 6 PENN STATE FIRST LOSS

- Then No. 6 Penn State fell 69-65 on Nov. 29 at the BankUnited Center for their first loss.
- · Miami forced Lady Lions into 20 first-half turnovers.
- · Stroman led the Canes with 15 points and 5 steals.
- · Yderstrom and Woods added 13 and 11 points.
- 2nd-highest ranked team UM has ever defeated (No. 5 Maryland - 2012).

### UM CLASS RANKED 11TH

 3 high school standouts. Adrienne Motlev (Newport News, Va.), Nigia Greene (Atlanta, Ga.) and Jessica Thomas (Gainesville, Fla.), each signed with the Canes.

. The trio will join the Hurricanes for the 2013-14 academic year.

 Motley, a 5-9 guard from Woodside High. ranked No. 27 overall prospect and 7th best PG in the nation by ESPN HoopGurlz.

• Greene is a 4-star prospect according to ESPN HoopGurlz. Ranked No. 41 overall, and

the 9th-best guard in the nation. • Thomas ranked 48th best PG in nation by

ESPN HoopGurlz. In 2011, the 5-6 guard led the Buchholz High to semifinals of the Florida Girls State Basketball Plavoffs.

· Younger sister of Hurricane legend Lamar Thomas.

· All three members incoming class have been nominated to play in the 2013 McDonald's All-American Game

 Motley was one of 20 players named a 2013 WBCA High School All-America honorable mention.

### THE NEWCOMERS

• The Canes welcome freshmen Caprice Dennis (G, 5-9) from Detroit, Keyona Hayes (F, 6-1) from Marietta, Ga., and Macy Keen (C, 6-6) from nearby Ft. Lauderdale, Fla., to the 2012-13 squad.

• In their debuts, Dennis finished the night with five points, three assists and two steals. Hayes had four points and Keen added three rebounds and a free throw.

### FORMER STARS IN THE WNBA

· UM's Shenise Johnson and Riguna Williams were selected by the San Antonio Silver Stars and the Tulsa Shock with the fifth and 17th picks, respectively, in the 2012 WNBA Draft. · Johnson and Williams became the 3rd and 4th players in UM history to be selected in the WNBA Draft.

· Williams was named to the 2012 WNBA All-Rookie Team.

## UN

· The University of Miami recorded a department-wide school-record Graduation Success Rate (GSR) of 93 percent, according to the rates released Oct. 25 by the NCAA.

• As a department, Miami's 93 percent GSR ranks fourth among ACC schools and is eighth overall among FBS schools. Overall, the University of Miami athletic department has improved from

77 to 93 percent from 2005 to 2012, a year after UM student-athletes posted a then-record 89 percent GSR in 2011. UM has exceeded the NCAA average GSR in each of the last eight years.

· Six UM teams compiled GSR marks of 100 percent; men's diving and golf posted its eighth consecutive perfect GSR mark, while women's tennis recorded its fi fth straight GSR score of 100 percent. Also adding perfect GSR scorers were women's rowing, women's golf, women's swimming and volleyball.

53 vs. UNF (11/9/12) 58 by Maryland (1/10/07) 53 vs. UNF (11/9/12) 40 by Maryland (1/31/08) 32 vs. Davidson (12/8/12)

### Head Coach Katie Meier

Katie Meier enters her eighth season as the head coach of the Hurricanes' women's basketball program in 2012-13. A well known and respected figure in women's basketball, Meier has worked tirelessly to put her mark on Miami's program and to build a winning tradition.

All of her hard work was rewarded after the 2010-11 season as she was named the Associated Press National Coach of the Year - sharing the award with Connecticut's Geno Auriemma and Stanford's Tara VanDerveer.

Meier led the Hurricanes into the NCAA Tournament for the first time since 2004 and its win over Gardner-Webb in the first round was the first tournament win for the 'Canes since 1993. Miami entered the 2010-11 season with high internal expectations, but were picked eighth in the Preseason ACC Poll and were coming off a season in which it was the No. 12 seed in the ACC Tournament.

However, the Hurricanes exceeded all of the outside expectations and at one point, won 17 straight games. They were a prefect 20-0 inside the BankUnited Center and finished 12-2 in ACC play-earning their first regular season conference title since joining the league in 2004. As a reward, Meier was named the ACC Coach of the Year and later would be selected as the WBCA/RUSSELL ATHLETIC Region 2 Coach of the Year, as voted on by her peers.

Hired on April 19, 2005, then UM Athletics Director Paul Dee announced the appointment of Meier in front of national and local media, fans, alumni and support staff, signifying the beginning of a new

In her first season, Meier wasted little time in making the first steps towards those goals. After receiving little attention in the ACC preseason polls, the Hurricanes posted an impressive overall record of 17-13. After fighting through a conference that would send nine teams to the postseason, including three to the NCAA Final Final Minim finished with a sixth-place, 6-8 record in ACC play en route to earning a berth into the second round of the 2006 Women's National Invitation Tournament.

Throughout the season Miami posted wins over ranked teams such as Mississippi (No. 25), Boston College (No. 21) and Virginal Tech (No. 25)- and nearly knocked off then-No. 1 Duke in double-overtime. The Hurricanes also recorded wins over two eventual conference champions in Hartford (America East) and Oakland (Mid-Continent). Under her direction, standout Ta-mara James produced one of the greatest seasons ever seen by a UM player in 2005-06, including becoming the University's all-time leading scorer before being taken as the No. 8 overall pick in the 2006 WNBA Draft by the Washington Mystics.

In Meier's second season in 2006-07, the Hurricanes got off to a strong start, winning seven of their first eight games-includ-ing a 79-70 win over Indiana to claim the UM Thanksgiving Tournament title. On Dec. 1, Meier picked up her 100th career victory as the Hurricanes defeated Jackson State, 77-50. However, with only eight healthy players to call upon by the start of the ACC schedule, Miami faced challenge after challenge competing in a league that ranked among the top-three strongest women's basketball conferences nationally and produced two of the NCAA Tournament's four No. 1 seeds in 2006-07.

Regardless, Renee Taylor emerged as the ACC's leading scorer-upholding Miami's streak of producing the league's leading scorer in all three years it had been a member. The All-ACC Second Team selection set school records in single-game scoring with 42 points at Houston and became the 19th Hurricane to score at least 1,000 points-and just the sixth to do so in her first two seasons. In addition, transfer Maurita Reid emerged as a defensive threat, tying the school record with 10 steals versus Wake Forest and finishing among the ACC's leaders and NCAA's top 10 in steals per game.

The 2007-08 season, Meier's third with the Hurricanes, saw Maurita Reid continue her rise among the ACC elite. The senior was nothing short of impressive shooting beyond the arc and picking opponent's pockets. She hit four or more three-pointers on 10 different occasions and finished the season with 110 steals, good for second in the conference and fifth in the NCAA. The Queens, N.Y. native led the team in points (15.3 ppg) and rebounding (5.6 rpg) and was also named the ACC All-Defensive Taxet.

With a No. 21 incoming recruiting class, Meier and the Hurricanes saw significant improvement during the 2008-09 season. The freshman class was highlighted by McDonald's All-American Shenise Johnson - out of Henrietta, N.Y. and Riquna Williams from nearby Pahokee, Fla

Johnson lived up to the hype as she was the team leader on the season in points, rebounds, assists and steals. Under Meier's guidance, Johnson was named the ACC Rookie of the Week on three occasions and was named to the ACC All-Freshmen team as well as ACC Honrable Mentod. The versatile guard/forward also led the U19 USA team to a gold medal finish in the 2009 World Obscherberge to Pontod. World Championships in Bangkok, Thailand.

The 2009-10 season was one of the most successful in program history. Under Meier's vision, the Hurricanes advanced to the WNIT Championship game. Miami posted a 22-14 overall record - the first 20-win campaign since the 2002-03 season and just the eighth all-time.

In her sophomore season, Johnson was joined by a healthy Riquna Williams and the duo racked up accolades throughout the season. Johnson was named First Team All-ACC, while Williams garnered second-team honors. The tandem led Miami to a 5-1 WNIT record - the deepest postseason run in team history - with both earning all-tournament honors along the way.

Following the 2009-10 campaign, then University of Miami Director of Athletics Kirby Hocutt announced that Meier signed a contract extension through 2015.

"We are excited about the tremendous progress our women's basketball team achieved this past season," said Hocutt. "Coach Meier continues to assemble a special group of talented young women at the University of Miami and we look forward to the future success of our program."

Miami's success proved to be immediate, as it earned a conference regular season title in 2010-11 and returned to the NCAA Tournament for the first time in seven seasons.

Johnson and Williams proved to be the All-America candidates that they were expected to be. In fact, Johnson was named to four different All-America squads, including the prestigious WBCA/State Farm Coaches' All-America Team. She also earned AP, USBWA and Full Court Press honors and became the second player in program history to be named the conference player of the year (Frances Savage - BIG EAST - 1992). Johnson also garnered All-ACC Defensive Team honors for the second straight season and was named to the ACC Tournament Team. Williams, along with Johnson, was named First Team All-ACC and was the conference scoring champion, pouring in 21.7 points per game.

The duo combined for seven ACC Player of the Week accolades on the season as Williams took home the award on four occa-sions. No other team in the league was recognized more than twice for the weekly honor.

The season also saw the emergence of sophomore forward Morgan Stroman. The 6-1, 2009 McDonald's All-American matched Johnson for the team lead with 11 double-doubles on the season, as she scored 13.6 points and grabbed 8.2 rebounds per game. For her efforts she was named Third Team All-ACC.

Miami's success continued into the 2011-12 season. The Canes finished second in the conference standings with a record of 14-2 and were 26-6 overall. UM also defeated the eventual conference tournament champion - Maryland - both times they faced in the regular season.

Seniors Shenise Johnson and Riguna Williams continued to live up to the hype of them being one of the best backcourt duos Seniors shellse Johnson and Indone Winiaris Continued to live up to the hype of them being one of the Dest Datactourt buds in the nation, as they were second and third in the league in scoring and each were again named First Team All-ACC. The ac-colade was the third straight honor for Johnson and the second for Williams. Johnson was also named to the All-ACC Defensive Team for the third consecutive season. Johnson earmed a place on five different All-America teams, including the WBCA squad for the second straight year. Williams eanred AP All-America Third Team recognition in her final collegiate campaign as well.

Unfortunately, Morgan Stroman suffered a season-ending injury midway through the conference schedule, leaving a seem-ingly insurmountable void in the lineup. However, junior guard Stefanie Yderstrom stepped up to the occasion. The native of Sweden ended the season with more three-pointers than any other player in the league as was rewarded with a Third Team All-ACC selection.

Miami once again advanced to the NCAA tournament as a No. 3 seed. The Canes traveled to Spokane, Wash. and defeated the No. 14 seed, Idaho State in the first round but fell to host Gonzaga in the second.

Though the departure of Williams, Johnson and Sylvia Bullock cannot be ignored, there is plenty of talent returning for the Canes for the 2012-13 season, including four players that have started a significant amount of games and AlI-ACC perform in Yderstrom and Stroman. Pepper Wilson, the 6-6 center, also entered her name into the fray of players that will look to garner conference and even national recognition with her play late in the 2011-12 campaign.

### By David Villavicencio

CORAL GABLES, Fla. - Maria Brown is a consistent contributor on the court for Miami's women's basketball team.

The junior provides a lot energy and aggressiveness on defense, mixed in with a talented mid-range game offensively. Despite being an important player for Miami, Brown is most proud of her off-court work.

Brown is very active in the Miami community, helping with a variety of charities, but she recently spent time with Miami native Deja Webster and the experience made a big impact on Brown.

"My experience with her was amazing," Brown said. "She's such a great kid. Her smile is amazing. How could she be going through so much, doing chemo and just the thought of having cancer and still keep a smile on her face and being so positive about life?"

Webster, who is battling Stage III Hodgkin's lymphoma, spent two days as an honorary member of the women's basketball team. She is the first person to be recognized by the University of Miami in conjunction with the Austen Everett Foundation. Everett was a soccer player at Miami before succumbing to non-Hodgkin's lymphoma in August 2012.

"She was with us for two days and she just hung around the team and watched us practice. Before shoot around, she ate with us for our pre-game meal," Brown said. "I asked the guy she was with if she wanted to stay with me before the game. She said she wanted to stay, so we just went to the lounge and watched TV. A few of the other players were in there so we were talking and just having fun, just enjoying each other's company and sharing stories."

Miami coach Katie Meier knows that Webster enjoyed her time with the team, but Meier is confident that her players benefitted just as much from spending time with Webster as she did by being with the team.

"The day was a blessing for us," Meier said. "We thanked her for letting us spend time with her and I truly meant it. We did nothing for her. She did everything for us. That's usually the case when you choose to give instead of complain. You end up receiving without knowing it."

Like Meier, Brown feels the team benefitted immensely from spending time with Webster.

"She was really an inspiration to me and I let her know that," Brown said. "I told her that she inspired me to be great and to be the best person I can possible be everyday. My experience with her was very touching because I have a personal connection with that. My grandmother had ovarian cancer, so I really enjoyed connecting with her, and I made sure we spent quality time together and she enjoyed herself."

A Louisiana native, Brown has always been involved in community service. The daughter and granddaughter of nurses, she was taught at a young age about the importance of helping others.

"It's just my character," Brown said. "My family has always been a very helping family. My grandmother always took people in and helped them get on their feet when they had nowhere to stay or no job. She would let them come in and she would cook for them. It's always been helping, helping, helping. That's just how my family is. My mother and grandmother are nurses so I guess it's kind of instilled in me. I am a giving person. I love positive energy and seeing people smile."

Brown spends a lot of her free time making people smile at the Yes Institute. The 20-year-old has spent several months volunteering her time to make sure that others who need help are receiving it.

"Their mission is to keep children safe," Brown said of the Yes Institute. "They basically focus on gender and (sexual) orientation. We talk to teachers, parents and administrators on how to approach people in that population because there are a lot of students that are not educated about homosexuality. It's a topic that's not talked about a lot because people don't feel more comfortable. We also talk to troubled teens and anybody who needs help getting through things. People being bullied, that may be suicidal or maybe something else is affecting them. I just go talk to people and give them my story and the experience I've had."

While Brown helps others off the court, she helps her team and coaches on the court.

"She calms me down," Meier said. "Maria and I have a good relationship. It's deep. I can usually get the pulse of them team when I look at her, she has a really expressive face. I know when things aren't right and I can know when things are good. She always says, We got you coach, it's going to be okay.'She's one of those kids that really thinks about the coaches and let's us know 'we're good and we've got it.'She's a very caring individual, and I really appreciate that about her. She honestly cares about people."

Brown uses her energy and magnetic personality to get the most out of herself and her teammates.

"I'm a very energetic person," Brown said. "I like seeing smiles on peoples faces and just making people happy. That's just my character. For me to be able to give that to my team and get it back from my team, it's important to me."

While stars like Morgan Stroman and Stefanie Yderstrom get most of the accolades, Meier feels players like Brown are instrumental in Miami's success.

"We can't win big time basketball games without her. We just can't," Meier said. "She brings physicality off the bench, keeping our spirits up, making sure everybody settles and she has a tremendous amount of poise. Most nights, if we're having a special game and we're clicking or playing with passion or intensity it usually goes back to something Maria did."

### By David Villavicencio

CORAL GABLES, Fla. - Freshmen make mistakes.

Newcomers to the college game, freshmen often make their teammates and coaches cringe at some of the ill-advised decisions they make on the floor.

Inexperienced and error-prone freshmen rarely are expected to play key roles on a team, but Caprice Dennis is not a typical freshman. The 5-foot-8 point guard has earned Miami coach Katie Meier's trust by playing a key role in the Hurricanes' early success this season.

"It means a lot because for freshmen, it's tough to come in and get a lot of minutes," Dennis said. "You have a lot of upperclassmen and coaches trust them because they've been around and the coaches know what they're going to do. To gain Coach Meier's trust in such a short period means so much to me. I love that she trusts me."

While Meier has been impressed with Dennis' performance on the court, it's the 18-year-old's hard work off the court that has helped her become a key member of Miami's rotation.

"I really enjoy when we're in film, whether it's one-on-one or with the guards or the entire team, she has the answer," Meier said. "I will rewind something and ask what they see and she knows it and has a solution for it. Players are going to make mistakes. They may dribble the ball off their foot sometimes, but I haven't seen her make a lot of choice mistakes or a lot of thought mistakes. For a freshman, that's a big deal."

Making the right choice is something Dennis has been trying to do for much of her life. Growing up in Detroit, Mich., Dennis honed her on-court decision-making skills on a daily basis.

"Detroit is a wonderful city," Dennis said. "A lot of people have different opinions on it, but being in the city day-in and day-out, I love it. It's always basketball there. Everybody is playing basketball and ever since I was a little kid, I always had a ball dribbling up and down the street. Wherever you go, you see someone playing basketball and I was one of those people."

While her daughter made great decisions on the court, Gwendolyn Gray wrestled with a difficult decision off the court. Following Dennis' freshman year at Detroit Pershing High, Gray allowed her daughter to move in with assistant girls' basketball coach Shawn Hill.

"My freshman year after high school, I moved in with my assistant coach at the time," Dennis said. "For the rest of my years, he was my head coach and he had nine children. I consider them my family so I consider myself to have 11 siblings. I moved in with him and stayed there until I came to college."

Dennis has a special relationship with Hill, whom she calls "Dad." The two speak often and she credits Hill for helping get her to where she is today, both as a basketball player and as a person.

"We still have a connection," Dennis said. "He really helped me out a lot as far as getting focused on school. I really appreciate that. My mom had a lot to do with it, too. She made the decision to let me go. That was a big decision and I'm grateful for that."

Dennis made her first big decision during her senior year at Pershing. An all-state guard, Dennis was recruited by major programs like Kentucky, Texas and Kansas. She ultimately committed to the Jayhawks, but her strong decision-making skills led her to re-evaluate her choice to be sure it was the right one.

"When I was committed to Kansas, the reason I de-committed wasn't because I didn't want to go to Kansas. It was because I wanted to be sure that I made the right decision. I came out of it with the idea that I was still going to Kansas. That was my No. 1 school."

Everything changed when Dennis visited Miami. While Dennis was a Jayhawk coming into her visit, she left Coral Gables a Hurricane.

"I came on a visit here and I immediately had a great connection with Coach Meier," Dennis said. "I connected with the players, too, but the connection I had with Coach Meier so quickly was overwhelming. I was like 'wow, this is where I really want to be.'I talked to my family about it and they agreed that they loved the school and the program and we all made the decision that I should come here."

Meier noticed something special about Dennis during the guard's official visit. While the two shared time at practice and at a team function at Meier's home, Miami's coach feels the strongest bond between the two was formed over breakfast the next morning.

"We had the kids over to my house and I saw her observe the team," Meier said. "She didn't get really involved and she wasn't completely outgoing, but I definitely was watching her watch my team. I could see her smile at really quaint moments that meant a lot to me but some kids missed. Maybe it was Morgan Stroman just being silly with Suriya McGuire or having a player patting a coach on the head messing around, just that casualness that we have and I saw her see that stuff."

"So the next day at breakfast I said 'I want to talk to you about some stuff I saw yesterday because people miss what's special down here.' They miss this relationship. I asked her what she saw in practice and her observations were that we build confidence and give our players a lot of power. She said she saw that we trusted them. She saw things that weren't just obvious. I thought she was a high-level thinker. She's very wise. So we talked on a higher level than our normal talks with a recruit. I wasn't selling myself or the program or the school. I was very interested in her and what made her tick and what was important to her. I think that is what started it."

That same morning, Dennis noticed Meier's genuine interest in her as a person. The young guard felt a connection similar to the relationship she had with Hill. That is when she knew she was going to be a Hurricane.

"She made me feel like I could trust her," Dennis said. "That is a big thing with me being able to trust somebody completely. She is such a wonderful person and if you're around her you know that she has this burst of enthusiasm at all times. No matter how her day is going, you won't know because she is always presenting herself with a lot of enthusiasm. From the beginning, I really liked her personality and since then, our relationship has grown a lot. I've gotten to know her better and I am always trying to pick her brain on and off the court to make our relationship better every day."

Along with her outstanding basketball talent, Dennis' strong decision-making skills have traveled with her to Coral Gables. She leads Miami's freshmen in minutes played and has made key contributions in the team's victories over No. 6 Penn State and Alcorn State.

"In our games against Penn State and Alcorn State, Caprice made huge plays for us," Meier said. "Unfortunately, we needed those plays against Alcorn - which shouldn't have happened but we needed them - and she was in the lineup and withstood the run and answered it. In those two games, I have put her in to answer those runs and that shows a lot of confidence in a freshman."

Despite her early success, Dennis recognizes that there is room for improvement in her game and she has decided to be proactive in her efforts to mature as a player.

"There is always room to improve," Dennis said. "My shooting can get a lot better. I don't know my shooting percentage, but I know it's not the best. I'd like to get that up and I really want to focus on my ball handling. I think I can work on that a lot too."

Dennis also hopes to add muscle to make her more of an offensive force around the basket. At just 134 lbs, Dennis has struggled at times this season to get to the rim. But the freshman guard is confident her work with strength coach Alex Parr will help her finish strong in traffic going forward.

"I also definitely have to get a lot stronger," Dennis said. "You'll see some of my finishes where I get to the basket and I should be able to finish but I'm not capable because I'm not strong enough. I definitely want to get a lot stronger."

While physical strength is something Dennis lacks, her mental toughness is off the charts. Meier marvels at her ability to remain calm and composed in the most pressure-filled situations.

"She is very calm and steady Eddie," Meier said. "I remember right before Tennessee I said, 'Caprice, are you excited?' And she said, 'they play ball just like I do.' It was a straight pulse with no spiking. It has not been a roller coaster with her at all. It's just a matter of her understanding her role and playing. If you give her some freedom, she is going to make the right choices."

Relaxed under pressure, Caprice Dennis is avoiding the typical freshman mistakes and helping the Hurricanes make the right decisions on and off the court.

# **KEYONA HAYES** Freshman | Forward | 6-1

Marietta, Ga. | Saint Francis

### Jan. 11, 2013 ACC Rookie of the Week

**As a Freshman (2012-13):** Pulled down nine rebounds and scored seven points vs. Boston College (2/17... Netted fourth doubledouble of season with 12 points and 10 rebounds at Clemson (2/7)... Led Miami with 11 rebounds vs. Virginia Tech (2/3), also scored eight points... Scored seven points at Florida State (1/13)... Named to the UM Holiday All-Tournament Team... Third double-double came with 11 points and 15 rebounds vs. Central Connecticut State (12/28)... Poured in 10 points in ACC opener against NC State (12/20)... Scored 12 points to go with four rebounds and a season-best four block vs. Davidson (12/8)... Pulled down six rebounds in win over No. 6 Penn State (11/29)... Second double-double came vs. FAU, scored new career-high 14 points and grabbed 14 boards (11/23)... Recorded first double-double of collegiate career with 10 points and 11 rebounds at Richmond (11/12)... Scored four points and grabbed two rebounds in collegiate debut vs. UNF (11/9).

High School: Ranked as high as No. 31 overall prospect by Blue Star Basketball... ESPN HoopGurlz ranked as No. 11 forward in nation... Named to 2012 GSWA Class A All-State first team and 2012 *Atlanta Journal-Constitution* Class A All-State first team averaging 16 points and 6 rebounds as a senior... Averaged 18 points, 12 rebounds, six assists and five blocks per game as junior and 19 points and 13 rebounds as sophomore.

### By David Villavicencio

CORAL GABLES, Fla. - Adjusting to new surroundings is rarely easy.

Meeting new people and learning a new city can be challenging to anyone. But for someone shy like Keyona Hayes, that challenge can often seem terrifying.

Hayes moved a lot as a child, living all over Georgia and meeting new people more often than she would have liked.

"Growing up in Georgia was fun," Hayes said. "But I didn't really stay in the same spot. We moved around a lot so I had to make friends a few different times."

The 18-year-old freshman is admittedly introverted and has never enjoyed talking to others, especially those she barely knows. Growing up, Hayes rarely said a word off the court. Instead, the 6-foot-1 forward preferred to let her stellar play on the court talk for her.

"Because I was on the basketball team, I was known and people wanted to talk to me," Hayes said. "I'm the type of person that will talk to you, but I probably wouldn't approach you first. So it was tough, but being on the basketball team helped me make friends whenever I was in a new place."

Hayes, who was an all-state selection at St. Francis High in Marietta, Ga., was not the typical superstar. People generally associate big-time players with big time egos, but Hayes never liked talking about herself or her accomplishments.

Her talent drew the attention of several universities, including Miami, South Carolina and Charlotte. While many recruits love the recruiting process and all the attention that comes with it, Hayes did not enjoy the need to converse with coaches at prospective universities.

"Recruiting was fun," Hayes said." A lot of coaches called but I don't really like to talk to people, so I e-mailed them and talked to them on Facebook. I tried not to talk on the phone too much, but it was a fun process and definitely a good experience."

Ironically, it was conversations with Miami coach Katie Meier that drew Hayes to the Hurricanes.

"I really love Katie and she's a really good coach," Hayes said. "She makes you feel like you're important and like she needed you. She has a lot of energy and is always making you feel great. She's a very good person and has a great personality."

While on a recruiting visit to the Miami campus, Hayes got to know Meier and her future teammates. She instantly felt comfortable around the team and knew she wanted to join the Hurricane family.

"The team made me feel like I was a part of the family, even though I wasn't," Hayes said. "That's something most teams don't have. They made me feel like I had been here for a long time, even though I had just met them. It was a good feeling."

Like most freshmen, Hayes has an upperclassman that she looks up to and tries to emulate. Fortunately for Miami, that upperclassman is captain Morgan Stroman.

"We connected when she first stepped foot on campus in the summer," Stroman said. "I stayed in the village so she came over and hung out with me and Suriya [McGuire] once. I have a close bond with a lot of people on the team. When practice was going on, the coaches would say, 'you two need to stick together. She can be really good if she looks up to you.' I took that as a challenge to be a better leader, not just for her, but for everyone on the team. We hang out a lot and she's been taking it in. I really like how she plays on the court."

Stroman has been a contributor for Meier's team since the day she arrived in 2009. Now, the senior forward is contributing to the development of Hayes, whom many believe could be the next great player at Miami.

"I really wish I had the energy that Stro has," Hayes said. "I would be a whole different person because Stro has a lot of energy. I'm going to try to be that way."

Stroman, who leads the Canes in scoring, rebounding, blocks and steals, thinks Hayes can be the type of player she wants to be immediately.

"She just needs to step out of her comfort zone," Stroman said. "I think she is a little stuck on how other people would react if she were to be more energetic. I think as long as you're out there playing basketball, you really don't need to worry about what anybody else thinks. She can do it and we've seen her do it in spurts. We just need that to be a continuous thing."

In her brief time at Miami, Hayes has forged bonds with Stroman and the rest of her teammates. Those strong relationships off the court have proven beneficial on the court, as Miami is off to a strong start this season.

"The whole team really hangs out a lot," Hayes said. "I look up to them and listen to what they have to say. They're really good people. I feel like our relationship off the court helps us play better on the court."

Hayes has been a key contributor as a freshman, providing offense and rebounding off the bench for the Canes. She has already scored double-digit points in three of Miami's first eight games, including a 14-point, 11-rebound effort against FAU.

"I came in ready to help," Hayes said. "I knew what to expect from Coach and what she wanted from me. I came here ready to work and I earned my spot. Coach believed in me and I showed her that I'm ready to play."

Even though she has had success early in her career, Hayes admits that she would like to be more consistent. The talented forward sees plenty of room for improvement in her game.

"I'd like to improve my feet," Hayes said. "They're kind of slow. I believe that if I get that a little better, then I'll be able to move vertically and be alright. I work out with the coaches twice a week outside of practice to improve my footwork. It's already getting a little better because I can move quicker vertically now than I could before, but I still have a lot of work to do."

Hayes knows that improvement will not come easily. As someone who has always gotten by on natural ability, it has been challenging for Hayes to stay after practice and work on her game. But she has seen progress already and that has motivated her to continue to strive for excellence.

"I want to improve my work ethic," Hayes said. "I never really had to work for anything, so it's been kind of a challenge. At first, it was hard because I wasn't used to having to do extra workouts outside of practice. Now, I'm ready and always looking to get another workout in."

The freshman has big expectations for herself. While she is pleased with the way her career has begun, she aspires to be one of the all-time great Hurricanes by the time she leaves Miami.

"I think my career is going to go well," Hayes said. "I think I can become and All-American. I want to make the All-ACC team. I just have to work hard to get to that level."

Stroman sees plenty of signs that Hayes can become the star player that she hopes to be. She just needs to continue working hard to improve off her natural ability.

"There are so many people who come up to me and say they like Keyona Hayes and they like how she plays," Stroman said. "I agree with them. I think that by the time she leaves here she is going to be one of those players that is going to be remembered. She can catch anything you throw to her. She rebounds like crazy. Her field goal percentage is really good too. If she keeps it up and bumps her energy a little, she could be one of the greatest players to ever play here."

# SURIYA MCGUIRE Sophomore | Guard | 5-11

Minneapolis, Minn. | Roosevelt

As a Sophomore (2012-13): Scored 12 points and grabbed five rebounds vs. Boston College (2/17)... Scored 10 points vs. Florida State (2/10) to go with five rebounds and four assists... Scored 10 first-half points and had four assists vs. Virginia Tech (2/3)... Scored a new career best of 17 points at Wake Forest (1/24), for the second time this season, made game-winning basket in final seconds... Scored 11 points, including reaching a career-best with five made free throws vs. Georgia Tech (1/17), added team-best four assists and four rebounds... Matched a career-high 13 points at No. 10 Maryland (1/10), also added five rebounds... Grabbed a career-best six rebounds vs. Wisconsin (12/29)... Poured in a new career-best 13 points to go with five steals vs. Alcorn State (12/3)... Scored eight points, including the game-winner on a layup agaisnt No. 6 Penn State (11/29)... Matched a career-best with five rebounds vs. Radford, also scored eight points (11/24)... Dished out five assists and scored four points to go with three steals vs. UNF (11/9).

**As a Freshman (2011-12):** Scored nine points at Boston College (1/29)... In just 11 minutes, scored season-best 10 points, to go with three rebounds and three blocks (12/29)... Scored six points with two boards vs. Holy Cross (12/28)... Dished out six assists to go with four rebounds vs. ULM (12/16)... Had four steals in just 11 minutes vs. Ole Miss (12/10)... Recorded career-first block vs. Longwood (11/27), while scoring five points and pulling down four rebounds... Had seven points with five rebounds vs. USF (11/24)... Scored nine points to go with four steals in 13 minutes vs. Prairie View A&M... Was defensive catalyst for Canes at No. 3 Tennessee (11/15), recording pair of steals to go with four points... Scored four points, grabbed five boards and handed out pair of assists in collegiate debut, win over Texas-Pan American (11/11).

High School: Was ranked as No. 7 overall player in nation by *Collegiate Girls Basketball Report* and fifth-best point guard by *hoopgurlz.com...* Scored 13 points per game season ago and was one of five players to be named to Nike Nationals All-Tournament Team while playing for North Tartan AAU squad.

### By David Villavicencio

CORAL GABLES, Fla. - Leaving for college is tough for many athletes.

While the excitement of participating in college sports can be uplifting, many athletes struggle with leaving family and friends behind to further their athletic and academic careers.

Miami guard Suriya McGuire was a star at Roosevelt High in Minneapolis, Minn., but the 5-foot-11 guard decided she wanted to play collegiately for the Hurricanes.

Like many college athletes around the country, McGuire was leaving her family and friends behind to pursue a college degree and athletic career. But the sophomore was leaving behind her best friend and closest confidant, her mother, Anjali.

"It's always been me and my mother," Suriya said.

The two have been inseparable, moving from city to city because of Anjali's job as an on-air radio personality. When Suriya decided she was going to attend Miami, both McGuires wondered what it would be like to be apart. Anjali admitted that she worried about how different it would be without Suriya around.

"Suriya is everything to me," Anjali said. "My career is very important to me but my number one job has always been being her mom. I was always including her in anything that I did. She is always with me. People say we are connected at the hip. She is my best friend. She's not just my daughter."

The two did not have to worry for long, as Anjali found an opening at 95.7 The Beat in Tampa Bay. "Anjali the Queen B" moved to Florida to be closer to Suriya and she says the two of them could not be happier.

"I moved here because of her," Anjali said. "Part of me left, so I left Minneapolis to specifically be with her. Tampa was the closest I could get and it's such a blessing to be able to come see her. It was definitely worth moving and being closer to her."

The two speak daily on the phone and Anjali has come to visit Suriya at Miami "at least seven times." Anjali was in attendance for Sunday's game against North Carolina and was incredibly proud to see her daughter fulfilling her dream.

"It's such a blessing to see her succeed," Anjali said. "This is what she has worked so hard for. It's her passion. When I used to come home from work at two o'clock in the morning, she would ask if we could go outside and shoot. She would go to bed with the basketball. This is what she's always wanted and always worked for."

McGuire has provided key contributions to the Canes this season. Her tenacious defense has been instrumental in several Miami victories. Suriya has also hit a pair of game-winning shots, most recently in a win over Wake Forest on January 24.

"I think I've matured a lot," Suriya said. "I still have a lot of growing to do, but compared to last year, I've grown. I've been in a numerous situations where I could have either broke or progressed and I feel like I've been growing and progressing."

Suriya admits that she would like to be more confident on the court, but she struggles to maintain her confidence at a high level.

"It's always been that way for me," McGuire said. "It's not like I lost confidence when I got to college, I've been this way my whole life. I'm very passive. Everyone says 'you're right there, just shoot.' I've always been the player to pass first and not shoot. It's always been a confidence thing for me."

McGuire feels that a talk with her mother or some time with members of her Miami family help get her confidence back on track.

"I talk to my mother a lot," McGuire said. "The coaches try to keep me in it and so do my teammates."

Two teammates who McGuire turns to frequently are senior captain Morgan Stroman and junior guard Krystal Saunders.

"I got attached to Stro before I even got to school," McGuire said. "She kept communicating with me and trying to get me to come here. We just clicked. People say that we should be sisters. We say the same things and finish each other's sentences."

Stroman felt a connection with McGuire from the minute the two met during McGuire's recruiting visit to Miami.

"When she first got here, we noticed that we had the same personality," Stroman said. "She wasn't even my recruit. I was just helping out, but we connected. Once she got here, we hung out more and developed that friendship and bond. That's like my sister on the team. I could tell her just about anything and be comfortable."

While McGuire and Stroman became close friends instantly, McGuire's relationship with Saunders took more time to develop.

"Me and Krystal got close with time," McGuire said. "She was my teammate and we were cool, but now, she is one of my best friends. It doesn't matter what it is, she will let you know what you need to know. That helps me. I like that she is honest with me."

Beyond being honest with McGuire, Saunders also helps keep a very emotional McGuire calm and focused.

"I'm a very emotional player," McGuire said. "When I don't make a shot, you're going to know. When I don't get a steal, you're going to know. When I do get it done, you're going to know, too. Krystal Saunders is the one that keeps me calm on the court and talks me through some things."

McGuire would like to control her emotions a bit better and improve on her jump shot. But the talented guard believes she can make the biggest contribution to Miami basketball by maturing as a player and a person.

"I hope that I keep progressing," McGuire said. "I feel like every year I have grown and I want to continue to mature. I feel like I can do that and I want to continue to see myself progress and the team progress."

Anjali is confident that her daughter will continue to improve on and off the court and accomplish her goals.

"She is my greatest joy, my greatest accomplishment and my greatest legacy," McGuire said. "I feel like the best is yet to come."

# Krystal Saunders

# Junior | Guard | 5-8

West Park, Fla. | South Broward

As a Junior (2012-13): Scored 11 points and grabbed four rebounds vs. Boston College (2/17)... Had nine points to go with four rebounds vs. Florida State (2/10)... Scored nine points and grabbed three rebounds at Wake Forest (1/24)... Tied a season-best with six rebounds to go with seven points vs. Georgia Tech (1/17)... Scored 10 points to go with seven points vs. Georgia Tech (1/17)... Reached season-highs in points (13), rebounds (6) and assists (4) vs. Davidson (12/8)... Scored eight points in Miami's win over No. 6 Penn State (11/29)... Knocked down a pair of threes on way to score 13 points vs. Radford (11/24)... Scored for the points in 17 second left to seal win at Richmond (11/12)... Scored five points and pulled down five rebounds vs. UNF (11/9).

**As a Sophomore (2011-12):** Grabbed seven rebounds, six on offensive glass and scored nine points at Duke (2/24)... Made first career start vs. Virginia Tech (1/23)... Scored career-high 16 points vs. ULM (12/16), connecting on 2-of-3 3-pointers... Hit first 3-pointer of season at Michigan State (12/1)... Dished out five assists to go with two steals and four points vs. Longwood (11/27)... Had seven points and was 3-3 from FT line at Alaska Anchorage (11/23)... Scored six points and grabbed six rebounds to go with five assists and pair of steals vs. Prairie View A&M (11/17).

As a Freshman (2010-11): Appeared in 24 games of 2010-11 season... Led all freshman with 18.8 minutes per game despite missing nine games with hand injury... Scored career-best 14 points against

George Washington (12/28)... Grabbed career-high eight rebounds vs. FAU (11/26)... Led team once on season in rebounds, assists and steals.

High School: Was named Florida's MissBasketball after leading South Broward to 23-2 record and appearance in Class 6A Final Four... Led team with 22.7 points, 7.0 rebounds and 5.1 assists per game that season... Was named *Sun-Sentinel* Player of the Year.

### By David Villavicencio

CORAL GABLES, Fla. - Krystal Saunders never wanted to leave.

Family is very important to the West Park, Fla., native and she knew she wanted to play in front of them.

Saunders, who was named Florida's Miss Basketball in her senior year at South Broward High School, was recruited by nearly every major program in the country. But she always knew that Miami was where she wanted to be.

"I had a lot of schools coming after me but there was just something about Miami," Saunders said." I loved how [head coach] Katie [Meier] interacted with her players, how much she cared about them and how much enthusiasm she had. I just felt like it was the right place for me to be and plus it was close to home. I had just moved back from Georgia, so I just felt like it was the right place for me."

Saunders originally had ACC rival Clemson as her leader during the recruiting process, but the appeal of playing close to home was impossible to turn down.

"I'm very appreciative to have my family there because most of the girls don't," Saunders said. "I'm from 30 minutes away, so I can drive home whenever I want to. I even take the girls sometimes so they can be with my family because they're away from theirs. I'm very grateful just to have them at every game. They have season tickets for a reason. They don't miss one game."

The 5-foot-8 quard has always had a large group of family and friends supporting her at the BankUnited Center, but her mother and biggest fan, Kala, was finally able to join that cheering section this season.

"It's great because my mom is there," Saunders said. "She was in Georgia and she just moved back this year, so it's great to see her face because she's my No. 1 fan. After a game, I get a phone call from her and we talk about basketball all the time and just to see her face cheering me on is great."

Miami head coach Katie Meier noticed a positive change in Saunders since her mother moved back to south Florida.

"I think she's a lot more aware of who she is," Meier said. "She is just a little bit more grounded now. I think she gets real good feedback from her mom, real honest feedback. Krystal puts a lot of pressure on herself and definitely expects to make every shot she takes and she expects every pass to be converted. I mean she's totally a perfectionist, which you find a lot in female athletes who have done well, and I think it's nice to kind of have her mom there and just be like, 'You did good, you did good. You know 5 for 8 is still pretty good.'I think it's important for Krystal to have that sounding board too."

While Saunders' cheering section gained a key component this year, it also lost one of her biggest fans when her grandfather, Michael, passed away. The 21-year-old is dedicating her season to her lost loved one.

"It happened so soon," Saunders said. "I told myself to stay strong for my mom and just play hard whenever I go out there for him."

Meier knows that it is hard for anyone to remain focused when they lose someone they love, but she is impressed with how Saunders has handled herself after her grandfather's passing.

"I think that's just an inspiration for her," Meier said of Saunders honoring her grandfather. "Krystal's family is deeply rooted in basketball. Their family and basketball is like intertwined. That's where they do a lot of their socialization, a lot of their conversations, so it was a big loss for her. I thought she handled it really, really well, really maturely and you can kind of see Krystal has definitely grown up this season."

Saunders' path to Miami is an interesting one. Meier and her staff were aware of Saunders' play at South Broward High School, but a call from fellow South Broward alum and former Hurricane great Tamara James really jumpstarted Miami's pursuit of Saunders.

"Tamara was back working out at her high school and she called me and was like 'I love this kid," Meier said. She said, 'she's a Katie Meier player. She competes, she's smart, she dives on the floor, she talks, she does all the things you love in a player.'

Meier valued her former star's opinion and went to get a better look at Saunders. What she saw was exactly what James described and that prompted her to invite Saunders to a Miami home game.

"It was [Shenise Johnson's] freshman year and we lost to North Carolina," Meier said. "Krystal was at the game and she figured she couldn't come back to talk. I was like, 'oh no, come back here now. I want to know you and I need you to be in these moments. I'm not only going to bring the recruits back when we win. Come in here and tell me what you saw.' She said, 'you need to get [Shenise] some help.'

So I said, 'well can you help?' And she said 'yeah.' If anyone has that much moxie that they can come in here and tell me whatever with that much confidence, I was like 'well let's do it. You have the offer.' She looked me straight in the eye and said 'you need me.' I'll never forget that. It was awesome."

Meier believes the honest moment she and Saunders shared that day played a big part in her wanting to come to Miami. The transparency Meier and her staff showed

"I think that honest moment, that raw moment was big," Meier said. "She's been pretty close with all of the coaches that she's had and I think that was really important for her to have that trust factor. She was able to see that we weren't hiding anything. That was who we were."

Since arriving at Miami, Saunders has blossomed as a player. Originally a role player in her early years, she has stepped into a key role for the Hurricanes as a junior.

"Halfway through the season, I guess we sort of figured that Krystal needed more time at the point," Meier said. "She can think very quickly and she makes very quick decisions and she has a good amount of certainty when she makes them. When [Michelle Woods] went down with the flu, Krystal really stepped up and then you just saw a new side of her emerging. That's where her leadership has really been coming along. It happens a lot in basketball when you have to fill another role and you just add it to your capacity. That's been fun she seeing her just expand her game."

Saunders recognizes the importance of her development. She, along with veterans Morgan Stroman, Stefanie Yderstrom and Pepper Wilson, needs to be a consistent performer for the Canes to continue their success.

"I felt like I had to step up and be a leader," Saunders said. "We have Pep and Stro and Stef, but I feel like my role as a point guard, just being a vocal leader, that's where my progression came from and that brought confidence to my game."

### By David Villavicencio

CORAL GABLES, Fla. - Michelle Woods may not be the most talkative player, but her game makes a lot of noise on the court.

The sophomore guard leads the Hurricanes in 3-point percentage, while ranking second in assists and minutes, and third in scoring.

Woods, 20, has been successful playing point guard for Miami despite lacking the outgoing personality that most great floor generals naturally have.

"I'm a quiet person," Woods said. "The coaches want to see me talk more on the floor but I don't talk that much."

Miami coach Katie Meier and her staff constantly reminds Woods to be more vocal on the floor. When the young guard is not being verbal enough, Meier is quick to give Woods a reminder of what she needs to do.

"If I'm not talking, she'll probably make me run and that reminds me to talk," Woods said. "They'll pull me aside and talk to me about what they want me to do. If I still don't talk enough, I know I'll probably be running."

Woods admits that she could be more vocal but Meier has already seen the sophomore improve as a leader from when she first arrived on campus prior to last season.

"She's made a significant improvement in that area," Meier said. "She knows the game. When someone is in the wrong spot for her, that upset her but she wasn't communicating it. She was just being upset and leaving it alone. We're pretty frank around here and we told her 'what do you think is going to change?' We only have five timeouts a game so if you need something to change, you can't wait for the coaches to fix it for you. She realized that she needed to take charge and she's done a great job with it."

### Silent recruitment

Communication was a struggle for Woods during her recruitment, as well. A two-time Class 2A Player of the Year in Florida, Woods guided her team to a pair of state titles and five district titles while playing for her father, Mitch Woods, at Naples Community School.

All of her accolades made her a highly attractive prospect to schools all around the country and Woods was bombarded with letters and phone calls from college coaches trying to get her to join their programs.

"My dad would get phone calls from coaches and he was always telling me to call coaches," Woods said. "I didn't really listen though because I don't like to talk. I got bombarded with letters, but I wouldn't open most of them up. The schools that were too far away I wouldn't even open their letters."

Woods' father, who played collegiately at Rollins College in Winter Park, Fla., played a key role in forming Woods as a basketball player.

"I look up to him,"Woods said."He always tells me stuff to do like put up extra shots or work on my ball handling and study my plays. He is always trying to help me improve as a player and a point guard."

Playing for her father for most of her career, Woods looked for a coach that she could connect to like she did with her father. Though Meier is more animated than Coach Woods, Michelle felt a connection to Miami's coach similar to what she had with her dad.

"My dad is really calm and she is very different," Woods said. "Coach Meier is very enthusiastic, animated and has a lot of energy. Coach Meier likes to yell to get her message through but it's in a good way. Off the court, she is like a mom. She takes care of us. She's always looking out for us and always willing to help us."

Woods weighed all of her options and settled on a final three of Florida State, Florida Gulf Coast and Miami.

"Gulf Coast is like 15 minutes from home but I didn't want to be that close to home," Woods said. "FSU is kind of far away, so Miami was perfect. It was the best choice. It's only like an hour and a half away from home. But I didn't talk to the coaches and tell them that. I came on my official visit and after that, I was sure I was going to come here."

While Woods knew she wanted to be a Hurricane, Meier and her staff were not as confident.

"She made sense to us, being from a great family and local enough," Meier said. "We were far enough away where she could get a little bit away from home but was still within driving distance. I felt good about her but we couldn't really get a read on her."

Before Woods told Meier she wanted to be a Hurricane, the talented guard scared Miami's coach into thinking she was going to play collegiately at the University of South Florida.

"She had gone to South Florida's team camp for a weekend and that had us nervous," Meier said. "She called me right after the camp and she did really well. I thought 'oh gosh, that's closer to home and I didn't hear from her all weekend.' So she finally calls me and tells me 'Coach, you've been recruiting me the hardest and the longest and I have so much respect for you guys that I wanted you to know that I've made my decision.' And my heart just dropped because she said, 'I don't want you to have to read this in the paper.' And I was like 'no way did we lose this kid!'I had a horrible feeling and then she goes 'I'm committing to Miami.'I remember yelling at her and her parents because they had me going, but I was so excited to hear that she was going to join us."

### **Overcoming challenges**

Woods has always been the quiet floor general. As one of the best high school players in Florida, Woods was a star without having to say much, so becoming a more vocal leader has been a challenge for her.

"I struggled with it in high school," Woods said. "I didn't talk much in high school and having to communicate more now is different and new to me. I've been working on it though to try and get better at it."

The second-year guard is still timid at times, but she is becoming the leader Meier wants running her offense.

"She is demanding things from her teammates now," Meier said. "She's a very nice young lady and well raised but she is demanding when she needs to be. The team is figuring out what it takes to win and that's been fun to watch, especially in her. She's not saying 'I shouldn't yell at her because she is a senior.' Someone is making a mistake on her team under her command and she is demanding more from them. That's going to make her an important player for us."

While Woods is tackling the challenge of overcoming her quiet demeanor to become a better communicator, the talented guard has always challenged herself in different ways on the basketball court and found success.

She grew up playing youth basketball with her older brother, Mitch. Early on, opposing teams did not guard Woods because she was a girl. Then they saw her play and made her a focal point as they tried to defend the future Division I player.

"It made me better," Woods said of playing against boys. "They were much faster and stronger but I could still hang with them. A lot of teams didn't want to guard me because I was a girl and they thought I would get hurt. But then they saw that I could play and they had to guard me."

After playing with the boys for three years, Woods transitioned to girls' basketball. But playing with girls her own age proved to be boring and uncompetitive so she decided to play against older, more physically mature girls.

"I had to play up because there was no competition,"Woods said. "It was easy playing against people my age. As I started playing up, it was a little bit intimidating. I was really young and worried that I would get my shot blocked all the time. But then I started to gain confidence."

Meier has seen Woods' confidence soar as the season has progressed. With every game, Woods has become more of a leader and earned more of Meier's trust. Though just a sophomore, Meier considers Woods one of the leaders on the team and someone who holds the responsibilities of an upperclassman.

"She is extremely talented," Meier said. "She's a very composed player. She definitely wants to have command of the game. In her freshman year, she didn't have to have as big of a role because of the All-Americans we had in the backcourt, but she had a very important role. I think she knows that she has worth here, but it's a matter of her taking that next huge step. So much has graduated from our backcourt. Most freshmen get a little more responsibility in their sophomore year, but it's like she has junior responsibilities right now. That's a big leap for her because we ask her to play a lot of point guard."

Following in the footsteps of stars Shenise Johnson and Riquna Williams, Woods has had to take on significant responsibilities. Johnson and Williams were the primary ball handlers on a team that went to the second round in the NCAA tournament last year. This season, Meier has turned to Woods and senior Stefanie Yderstrom to make Miami's offense go and she has been pleased with how Woods has responded.

"Playing point guard for me is not easy. It's fun, but it's not easy," Meier said. "I want you to think as quickly as I do and that's a very hard thing to do. To have all the options in your brain and picking one of those options as you're going full speed down the court. Early on, I think the adjustment we made with Michelle was giving her two options instead of 20. We give her two and then in the next time out we'll give her two more. I think you can see she is getting command of the game that way and that is going to help us in ACC play."

As a Junior (2011-12): Named third team All-ACC and to All-ACC Academic Team... Named to Miami Holiday All-Tournament Team... Led ACC with 68 3-pointers... Nailed a trio of 3s on way to 18 points vs. Wake Forest (3/2)... Hit three 3-pointers on way to 13 points vs. Boston College (2/26)... Scored 16 points with four 3-pointers at Duke (2/24)... Scored 12 points at NC State (2/16)... Poured in a career-best 26 points in win at No. 8 Maryland (2/12), also reached career mark by go ing 8-of-8 from free throw line... Scored 10 points and had career-high seven steals vs. North Carolina (2/8)... Scored 15 points with three treys at Boston College (1/29)... Hit three 3-pointers on way to 14 points vs. Wake Forest (1/26), also had career-best three blocks... Scored career-best 22 points vs. Virginia Tech (1/23)... All nine of points came via the 3-ball, including game-winner at Florida State (1/15)... Hit four second half 3-pointers vs. Maryland (1/12) for all 12 of points... Vs. NC State (1/5), scored 12 points with three assists and pair of steals... Scored 15 points with three 3-pointers at North Carolina (1/2)... Had 3 career night vs. VCU (12/29), scoring 3 career-best 20 points and matching career-highs with seven made field goals and four steals... Tied 3 career-high with five made 3-pointers vs. Holy Cross (12/28), on way to 17 points and three assists... Grabbed four rebounds and hit two 3-pointers for six points vs. Ole Miss (12/10)... Played career-high 41 minutes vs. Rutgers (12/5), hitting two 3-pointers as well... Scored 11 points for the second straight game, with three treys at Michigan State (12/1)... Hit three 3-pointers vs. Longwood (11/27) on way to 11 points... Scored nine points with

three boards and three assists vs. USF (11/24)... Hit three 3-pointers on way to 13 points to go with five assists vs. Prairie View A&M (11/17)... Sank two 3-pointers at No. 3 Tennessee (11/15)... Scored 12 points and was perfect 2-2 from the 3-point line in Miami's season-opening win over Texas-Pan American.

As a Sophomore (2010-11): Named to All-ACC Academic Team... Started all 33 games of 2010-11 season.... Finished 10th in the ACC in three-point field qoals made (53, 1.6/qame)... Led team in assists 11 times on the season... Finished second on team in 3-point field qoal attempts (172) and 3-point field goals made (53)... Finished third on team in assists (88) and total minutes (962).... Finished fourth on team in total season points (264), scoring average (8.0), field goal attempts (255), field goals made (83) and free throws made (45)... Grabbed career-best six rebounds against George Washington (11/28) and No. 13/10 North Carolina (2/13)... Converted on two 3-pointers in overtime to seal Miami's win over No. 25 Georgia Tech (1/30)... Scored conference schedule-bioh 14 points at No. 13/10 North Carolina (2/13)... Named to Miami All-Holiday Classic Team.

As a Freshman (2009-10): Plaved in 30 games, starting 17... Fifth among ACC freshmen in scoring (7.6)... Second among ACC Freshmen with 47 three-pointers,...Led all ACC freshmen with .846 free throw percentage...Third among ACC freshmen with 63 assists... Connected on two 3-pointers, scoring nine points in first round of the WNIT against FGCU (3/18)... Hit four treys and scored 16 points against Florida State (2/25)...Scored 11 points at Glemson (2/18) with three 3-pointers... Hit three 3s for nine points at NC State (2/14)... Dished out career-high seven assists to go with seven points against FIO Edwardsville (2/7)... Scored 13 points going 6-of-6 from free throw line along with four assists against North Carolina...Hit three 3-point field goals for nine points at Boston College (1/31)... Had four points and four assists against Georgia Tech (1/27)...Scored nine points in the win at Maryland (1/21)... Pulled down career-high four rebounds against Wake Forest (1/17)... Scored seven points and dished out four assists to open conference play against FSU (1/10).... Scored 11 points and dealt out four assists at Miami, OH (1/3)... Played 39 minutes against Texas (12/29)... Hit five 3-pointers on way to scoring

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | 3-6                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | 0-0                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                               | 1-7                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | 75                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | 18                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
