## Publicity of Summer Workouts

### Voluntary Summer Workouts

- It is impermissible to publicize voluntary workouts (with certain exceptions). Publicity includes publishing video of the workouts, live tweeting the workouts, or publishing results of the workouts.
- Since these activities become countable (count towards the weekly hours limitations) once they are publicized, it is a violation for out-of-season sports to have their voluntary activities made public.
- Making coaches or other SA's aware of the results of workouts counts as publicizing the workouts.

## Head Coach Accountability

An institution's head coach is presumed to be responsible for the actions of all assistant coaches and staff members who report, directly or indirectly, to the head coach. An institution's head coach shall promote an atmosphere of compliance within his or her program and shall monitor the activities of all assistant coaches and staff members involved with the program.

IT'S ALL ABOUT THE U

## Unofficial Visit Reminders

All unofficial visits to the University of Miami must take place during permissible recruiting calendar dates outside of dead periods. Additionally, while non-coaching institutional staff members are permitted to meet with prospective student-athletes on-campus, it is not permissible to facilitate these meetings off campus. For example, if a prospective student-athlete is a senior in high school and the coaching staff would like to have a permissible off-campus contact at a restaurant, it would be impermissible for any institutional staff member but a head coach or assistant coach to be present at the meal.

Additionally, all unofficial visits need to be logged in JumpForward upon the conclusion of the visit. As a reminder, a form needs to be submitted each month to the compliance office if no unofficial visits have occurred during the month. This form will allow the coaching staff to indicate that no unofficial visits have occurred during the respective month, and to increase our documentation efforts.

## Reporting Violations

Violations are an unfortunate aspect of compliance and they are to be taken seriously. If you suspect that a violation may have occurred, you should report it to your immediate supervisor. However, if you know that a violation has occurred, it is not enough to report the violation to just your immediate supervisor. If you know of a violation, it needs to be reported to any of the following individuals: our Athletic Director Blake James, Deputy Director of Athletics/SWA Jennifer Strawley or Sr. Associate Athletic Director of Compliance Craig Anderson.

## COMPLIANCE MVP

This month's compliance MVP comes to us from the diving staff. We would like to thank Cheyenne for being proactive about compliance questions, and working with our staff.

## COMPLIANCE UPDATES

All issues dealing with student-athletes and academics need to be run through academic support services. No institutional staff member other than these individuals and tutors should be helping student-athletes with homework assignments, quizzes or tests. Should you have any questions as to what is permissible concerning academic support, please contact academic support services.

## IN THE NEWS: *Satellite Camps*

With football camps being a recent hot topic in college athletics, knowing the difference between the types of camps being held, and which ones are indeed permissible is important.

An institutional camp is one that is owned or operated by the member institution or a member of the institution's athletic department, and places special emphasis on particular sport with instruction, practice, and/or competition. An institutional camp must be open to all entrants, limited only by number, age, grade, or gender. For FBS institutions, the camps must be held during two 15-day periods in the months of June and July.

A camp that does not meet the definition of an institutional camp is considered a noninstitutional camp, otherwise known as "satellite camps". Institutional football coaches, or non-coaching football staff members may be employed at noninstitutional camps so long as a meaningful instructional component is present and it is in accordance with the restrictions listed above.

These "satellite camps" have sparked a long debate between conferences and schools across the country. With the defeat of the recent NCAA proposal to prohibit these types of camps, college coaches and staffs are free to continue working them.
