## Georgia Tech Yellow Jackets

### Josh Pastner

#### Postgame Press Conference

Georgia Tech 70, Miami 66

JOSH PASTNER: Yeah, just first of all, want to give Miami a lot of credit. Coach Larrañaga and his team is really good. They've been playing so well. They've got guys that can flat out put the ball in the basket. I knew we were going to struggle early, and it wasn't that we struggled. We only had two turnovers. I thought we played the right way. We just didn't have good energy.

I thought we were a little tight in a sense just we hadn't been on the arena. It looked like we were off a week from playing. But we responded in the second half. We got stops. I thought some of our guys made huge plays. I jumped Jordan Usher at halftime. He took it like an elite player and came out the second half and was really good, really good.

Jose was just tough as nails. Michael DeVoe has just continued to hit big shot after big shot for us at key times. I thought Bubba Parham hit big shots for us both the first half and second half. Kyle Sturdivant gave us great minutes and hit a big three first half and then did a good job against the press the second half there when we needed that. Khalid Moore just really good defensively, really good, and hit some big shots late.

I thought Rodney Howard was just -- gave us great minutes. Moses Wright did not play well, and I told him you've got to flush that down the toilet and be better tomorrow. But Moses didn't have a good game, but it shows the type of team we have that we're still able to win even when a guy like Moses is not able to have one of his better games.

But it's a great thing for Georgia Tech. You're playing in the semifinals of the ACC Tournament. A couple years ago -- I've been coming to these a couple years previously to see the other things, and I've always said getting to the

semifinals of the ACC Tournament is like playing in a mini Final Four. It's really special. We've got a great opportunity against a great team in Virginia, and excited to have an opportunity tomorrow to play them.

**Q. Sorry for asking you a non-game question first off, but when you got the word on Duke being out of this and out of the rest of March, did that just give credence to all the fears that you've had while sitting around your hotel?**

JOSH PASTNER: Yeah. I can't speak on Duke because I don't know the situation on what happened there and what all the specifics were, but I know for us, I have tried to the best of my ability, to the point of exhaustion -- I repeat myself as it is, but think about repeating myself times 50. So think of me, who as much as I repeat myself, times that by 50 on COVID protocols, and that's what we've done. I have just been on it like you wouldn't believe.

Because I just said, guys, we're in the field. We're going to the NCAA Tournament, so we've got to do everything in our power to protect. We can't see people on the outside. You can't see a family member. If you do, it's at the bus, distanced, masked, on the outside.

You've got to stay -- it's just keeping in our bubble, and that's why we did the bubble that we've done, because we've got to -- the objective is just to get to Indianapolis. Obviously we want to win the ACC Tournament, but we want to get to Indianapolis. I have been on it like you wouldn't believe, and these things are precious. To get to the NCAA Tournament, it is almost impossible to get there. I know people think it's an easy -- no, no, let me be clear. Winning is so hard. To get to the NCAA Tournament, you know how hard that is in this day and age?

We're in the tournament, so we've just got to get to Indianapolis, and we've got to continue to protect, wearing a mask, avoiding people in the elevators. We can't be around our family members. Just got to stay in our bubble so we can get to Indianapolis.

**Q. I was curious about some plays at the end of the**

**game there. Obviously not really the sequences you wanted, but I was curious there were a couple times you broke the press and Khalid dribbled the ball back out instead of maybe going up for what could have been a lay-up. Is that something you coach in that situation where you're trying to value time over scoring or just a personal decision there?**

JOSH PASTNER: I thought that was okay when he dribbled it out because they were -- on that situation, we were fine because they were trying to foul, and I didn't have an issue with that. And there was a defender back there, so it wasn't just a wide-open lay-up.

But the one Jordan Usher had, that was wide open. But the previous one with Khalid, he made the right decision. But we didn't do a good job of handling our press break. We've got to clean that up. We just got on our heels. We'll be better about that.

When Wake Forest pressed us, we were fine, but we had a couple issues against Duke and Syracuse obviously. And we were fine versus Wake Forest, but weren't fine today late. But fortunately, we ended up pulling it out towards the end there.

**Q. What changes did Miami make from the first game to the second game in attacking your zone, especially in that first half?**

JOSH PASTNER: Well, I thought that the big kid Brooks was just a stud tonight, this afternoon. He was really good, and he just -- I thought he was the aggressor. Last time he played, Moses was the aggressor, and I thought this afternoon Brooks was the aggressor. And I thought Moses was on his heels today a lot.

But I thought Rodney Howard gave us good minutes guarding him. He's a good player, but he's all seven feet and strong and an athlete. I mean, the guy is a good player.

**Q. Can you replay the out-of-bounds play that Jose saved there, just what you saw, how it unfolded? And also a follow-up on Jose in terms of him physically with standing all he's gone through.**

JOSH PASTNER: Fortunately Jose saved us. It was a bobble, but he caught it with two hands. The other kid got it with one. Two always beats one. That's just a sheer will and determination. It's a players' game. Sometimes the players are either going to make the coach look good or not look good, and I've had a situation where Jose saved us by catching that ball. Fortunately, we caught it and we were able to get the win. Jose is just tough. He's

hard-nosed. He's a winner. He just competes.

He's got elite competitive excellence and elite competitive fire, and at his size, in order to be successful, you have to be elite as a competitor.

**Q. When you saw the ball flying to the other side of the court and you saw Jose chasing it, did you think it was going out of bounds or did you --**

JOSH PASTNER: No, I knew Jose was getting it. Anyone else, it might have gone out of bounds, but not Jose Alvarado. He's made so many winning plays that don't show up in the box score, I can't even put a number on it. The amount of winning plays that guy has made, I can't even put a number on it. It's unbelievable. He's as good of a guard that Georgia Tech has ever had, again, in terms of 50/50 balls and winning plays. He's as good as -- in Georgia Tech's -- I mean, obviously Georgia Tech has had so many elite guards, but I'm just saying in that area of 50/50 balls and winning plays and just stuff, giving his body up, he's as good a guard as Georgia Tech has ever had in the history of Georgia Tech in that area.

**Q. Josh, you said yesterday you just want to win one game and now you've got a chance to get to The Finals. Can you kind of describe the challenge ahead of you and what you guys will be doing for the next 24 hours?**

JOSH PASTNER: Yeah, look, we played Virginia, we played them twice. It would be really nice to -- the only team that we haven't beaten in the league since I've been in the league is Virginia. Obviously they're really, really good. They're just -- they've got great players, great coach. But you're in the semifinals on a neutral court, and let's see what happens.

We'll be ready to play, but obviously we know how good Virginia is, and we know we're going to have to play just at the best that we can play to have a chance to beat them and then get to Saturday.

**Q. You mentioned the first half, the struggles. Was it sluggish? Were they just kind of -- nervous is maybe a strong word for the moment. Were they soft? What did you see of them in that first half?**

JOSH PASTNER: Yeah, I just think we weren't in real rhythm. Maybe that was just being in a hotel for a whole week and not playing in a week. And not having seen the court for -- we didn't practice on the court. I thought we actually were okay offensively, we got some shots. We just didn't have good energy. I don't think it was nerves. I just think it was a little bit of -- I thought we were a little

slow on some things. Miami was the aggressor. Miami was playing on their -- they were proactive, we were reactive.

**Q. So did you say anything, jump on them to get them going?**

JOSH PASTNER: Yeah, at halftime I jumped on the guys hard. That's what I was saying. I jumped Jordan Usher and he responded at a high level. I'm so proud of him. Our guys responded on me getting on them at halftime, and they just kind of needed a wake-up call, and they responded the right way and we were able to come out the second half. We got stops, which allowed us to get the win.

**Q. You mentioned about Jose being one of the best in probably Georgia Tech history when it comes to 50/50 balls and just winning plays. You've coached your share of elite guards in your time coaching college basketball. Have you coached anybody or any guard with the defensive mindset IQ or skill set of Jose at any time?**

JOSH PASTNER: No, I have not. And again, I've been around at Arizona -- think about this. Arizona was called Guard U. Memphis with Lute Olson, John Calipari. We were called Guard U. And then Georgia Tech was known as Guard U with Coach Bobby Cremins. I've been at three schools -- obviously I didn't work for Coach Cremins, but I've been around three schools that were all about guard play. And, again, there's different guys who are incredible talents and the guards at those schools including at Georgia Tech.

I don't know anyone that I've been around at all three schools I mentioned that is as good as Jose Alvarado at what he's done with winning plays, 50/50 balls, defensive IQ, defensive toughness, especially at his size. I just don't think there's been another guard that I've been around. And I don't think there's been a guard at Georgia Tech even -- there's been guys obviously who were elite NBA players and have been on the Olympic team and stuff like that, but just with his hands and his winning the 50/50 balls, in that category, he's as good as I've been around and as good maybe as a Georgia Tech guard in those categories.

And I'm really proud of him. We wouldn't be in the position we're in today going to the NCAA Tournament playing for the semi-final in the ACC Tournament, building this program back to where it is now through the grind of it without Jose's toughness.

**Q. You referenced Virginia tomorrow and not any**

**trade secrets to disclose, but are you going to approach that any differently than you did the last time you played them?**

JOSH PASTNER: Yeah, it's good to get that win, that way guys like Ken and Kelly and Zach -- and Zach can put on TV and Kelly and Ken can write -- and Rod can write that -- Jeff, Mark, you guys can all write that we finally won our first game and can't say I'm an 0-for in the ACC Tournament. So we can check that box now, know what I mean. So that's always good to do.

But no, we'll watch the film. We'll figure it out. There's not that much you can -- you're not going to make wholesale changes from now to tomorrow. You're just going to have to go out and maybe make some adjustments based on some things. But in the end, you're just going to have to go out and probably make some shots and guard them. We'll figure out what we need to do tomorrow and maybe make minor adjustment, but in the end you've just got to go out and play.

**Q. What does it say about Bubba to be able to take that ball down the lane in the closing minutes in a critical situation? Amongst all the big guys here, he is the shortest guy on the court.**

JOSH PASTNER: You know, we talk about a lot of guys, about player development. How about Bubba Parham? How about his toughness? How much better has he gotten? Listen, he signed with VMI -- all due respect, VMI is a great basketball program, Coach Earl over there does a great job. In fact he won the Coach of the Year this year in their conference. He's a really good coach. They've got a good program.

But let's call it like it is: This is the best league in all of college basketball with the biggest guards, the best guards, and here's Bubba, maybe the smallest player in the league but might have the biggest heart, the toughest young man, just competes. It's unbelievable. He probably doesn't get enough credit for what he does and what he brings to this team. He's tough as nails. We're just so darned proud of him. When he plays with that chip and that edge on his shoulder, that's what we're about, playing that way, and he embodies what we're about. I'm so proud of him.

**Q. We talked several months ago when the season started and things didn't go the way you wanted to, now you're two games away, possibly, from an ACC Tournament championship. You're also on the edge of going to the NCAA Tournament for the first time. Can you kind of just talk about how difficult this season has been and how much pride you have in your team and the way they've responded to adversity in each**

 . . . when all is said, we're done.®

## moment that you've had this year?

JOSH PASTNER: Well, I said this last time, too. I remember in Houston on Saturday in 2016 of April, on that Saturday of the Final Four, I was meeting with Mike Bobinski, two other people from Georgia Tech, and the person from the search firm in the hotel room down in Houston, Texas, interviewing for the Georgia Tech job. And they told me, Coach, listen, we have got to have somebody here -- we're going to totally rebuild and start over. There's going to be a lot of losing, it's going to take time. Do you have the energy and the vision to do this?

And I looked at all four people in their eye, I put my fist down and said, I believe in what we can do here. I want this job. Five years. Five years we'll be back in the NCAA Tournament. I said, not three, not four. I said, I don't need six or seven. Give me five years and we will be back in the NCAA Tournament.

And I texted Mike Bobinski and everyone else in that room to let them know it was very important to me personally that I fulfilled my word to those four people. It was very important because that has always stuck in my mind, what I told those four people in that room, that we've got to get five years.

So to follow through on that, I say all that to say, it has been a grind. I can't explain -- there's been things that I didn't expect was going to happen, and that's where when you think life doesn't throw you punches, holy Toledo, we got some punches. I got some punches. But the credit to these young men, the credit to the staff, to everyone that's been here, to get Georgia Tech basketball back to where it's at is incredible.

I can't express -- maybe when we get in May and I'm able to take a little vacation and just relax and look back. But I know how hard this is to get to this point and from where we started and what we had to go through, and I can't say enough gratitude and thanks to the young men, the staff and obviously my current bosses. How about Todd Stansbury and President Peterson and Marvin Louis and Dr. Cabrera -- President Cabrera? How about those guys sticking by me when it wasn't easy to stick by me? I recognize that. God bless everyone.

And I'll tell you what, Jeff Schultz, Mark Bradley, Kelly, Ken, Rod, Zach, you know, you guys have covered us the most. You never wrote anything calling for my head, and Patrick, you were there, as well, too. You let it play out for five years, so I appreciate that, too.

I know it wasn't easy. I know it wasn't easy at times. You probably could have wrote something that says get him

out, but I appreciate you having fair coverage on the course of it all, too. I know that's not always easy, but I recognize that, as well, too. So I appreciate everybody. It's a community effort, and that includes everybody on this screen. It's a community effort.

I want to give a great shout out -- because I've leaned on him a lot -- to Mike Stamos, a lot. So he's been able to take a lot of my calls, as well, too. Able to bounce things off of. I appreciate everybody. Georgia Tech is in the semifinals of the ACC Tournament and going to the NCAA Tournament. We have the Player of the Year and the Defensive Player of the Year and we're in the ACC. Think of what we've done over these five years, these last two years, the first year. There's things that we've done, it's been an incredible journey and it's been a total community effort to make it all happen.

## Georgia Tech Yellow Jackets

### Jose Alvarado

#### Postgame Press Conference

Georgia Tech 70, Miami 66

**Q. Jose, obviously a very scary moment there in the first half when you banged knees with Wong. Kind of what happened and how were you able to get back out there to help your team in the second half?**

JOSE ALVARADO: Obviously like you said, it was pretty scary even to me when it hit. It hurt so bad that obviously I got a little worried. But as I was walking off and as I was in the training room, as my adrenaline kicked in, I mean -- calmed down, and the pain just went down a little bit so I knew it wasn't that serious. And we got on -- and as I walked it off, I was like, I want to play, and that's about it.

And when I came in in the second half -- my knee could hurt -- not tomorrow. It can't hurt tomorrow, it can't hurt Saturday. It could hurt Sunday. It can't hurt today, though. It can't -- I told myself that it just can't hurt right now. So I tried to dial it in and my brothers had my back, and they just made me look good when I was out there.

**Q. Jose, what changes did you see that Miami made in attacking your zone in that first half to make them so successful?**

JOSE ALVARADO: Miami, man, they're better than their record. They're really good. They had it going, and they're a really good team. They tap the gaps. And the guys making plays -- those two point guards was making good plays, and we just had to dial down and take pride on defense and try to stop them. And that's what we did and got the win.

**Q. You're a defensive guy. What can you say about that second half defense from your team?**

JOSE ALVARADO: Oh, man, good. We got the stops that we needed to to get the win. We needed to focus on more

being better and taking pride on defense, especially against a good team playing Virginia tomorrow. But we're going to watch film, we're going to get better, and we're definitely going to play better defense tomorrow.

**Q. Obviously one of the biggest plays of the game you tracked down the pass from Michael. Can you describe kind of what happened first when you saw it and you're thinking, I've got to go get it? What happened on that play from your perspective?**

JOSE ALVARADO: That press, we needed to -- they got us off guard and we need to be better on it. That's about it. It was just more about being better, and I'm glad we just finished how we finished.

**Q. When you saw Michael throw it and you saw it bouncing out of bounds, were you worried you weren't going to be able to get to it in time?**

JOSE ALVARADO: No. I just saw the ball and I was like, I've got to take off, and Bubba just did a good job of trailing me. And I knew once I got it, I could throw it to him.

**Q. Hustle plays are not uncommon for you, but can you just talk about -- it kind of goes to that play a little bit -- how much this season and this tournament means to you? You spoke about it the other day, wanting to win one game in this tournament and what it means to you.**

JOSE ALVARADO: Oh, man, it's special. This is my first game winning in the ACC Tournament. I've been here four years, obviously. It's special. Miami is a good team. This is a good win for us. We've been sitting down for a while and they've got their little mojo going, and it was a good game to win and a good game to play. I'm just glad we got our first win here, and we've just got to focus on Virginia on Friday because it's going to be tough.

**Q. Of course, you know, Isaiah Wong is one of the best scorers in the ACC and you held him to 3 of 10 shooting. You're also ACC defensive Player of the Year. But at what point in your development did you**

**realize that you're a shut-down defensive type of player?**

JOSE ALVARADO: I want to say when I was playing guys in the park, because I swear those are the most talented guys I ever played against down in New York in the park. They hand-do, they rhythm and, you know, and I just hate when I -- I said this before. I just hate when they look at me when they score or when they pump their chest like me, and I just don't like that personally. I take it -- like I take it personal. Every day I'm going to come in and try to be the best defender on the floor, try to shut down the best player, and that's just my mindset every game.

**Q. Jordan was sort of quiet in the first half. What was said in the locker room and what got him fired up in that second half?**

JOSE ALVARADO: Man, he's a big part why we won today. His energy, his voice, his play making decisions out there. Man, he did a really good job. When we first came in at halftime Coach Pastner gave it to us and he told us the truth. We're playing soft, they're playing better than us, and we've just got to go out there and play Georgia Tech basketball.

Usher stepped up and he did what he needed to do, and he's part of the reason why we won today. And I'm glad he's on my team, and we've got to keep him going.

**Q. There's a lot said about sort of the top six guys, but seemed like your bench came up really big and gave you guys a lot of spark, Rodney and Bubba and Kyle even when he came in. Can you just talk about those guys? They don't get a lot of press, but they came up big for you guys tonight.**

JOSE ALVARADO: Big, big time. I'm glad you mentioned that because I should have said that the first time coming on here. Those guys did a good job. They stepped up when we needed them the most, and without them, we wouldn't be in this situation without them, and they just did a hell of a job.

Kyle, man, he's getting better every day. Rodney is getting better every day. And Bubba comes in when we need him the most, and them three guys, they did a really good job.

**Q. I know you've been playing on a bad hamstring in general and then you hurt your knee late in the first half. Looked like late in the game, you also went down with a bad ankle. How do you feel right now, and how can you stand up?**

JOSE ALVARADO: Man, I can't get a break, right? Thank

God, I'm only 22, I guess, right? So my body is a little -- it's still getting banged up, but it's okay. I'm just of the mindset ever since I was a kid, like I just want to play so bad, so my body can hurt later on, it just can't hurt right then. That's my mindset.

Obviously I hurt my knee pretty bad today, but tomorrow like I've got a brand-new knee. It's just something I am. It can't hurt during the game because there's no excuses on the game, and obviously I take pride on defense. And if somebody scores, it's not because I'm hurt; no, it's because I need to play defense.

I'm just going to take recovery today and try to do the best I can and just play the game tomorrow.

**Q. I'm curious how many different ice bags are you going to have on if you don't already?**

JOSE ALVARADO: Oh, man, I need an ice bath. I think I need to get one of those, a portable one.

Richard is going to do a good job taking care of me and I'm just going to get the most treatment I can and try to get my body ready for tomorrow.

**Q. You mentioned Coach was saying you guys are soft, and I'm wondering, the Wake Forest game -- I think some of the guys were nervous because the stakes were higher, and was it kind of the same thing today where it was a new environment, you needed to kind of get in a rhythm before maybe the first --**

JOSE ALVARADO: It wasn't that we were nervous. I think when you take a little break and then you've got to come out and play against a team that's in a little bit more of a rhythm -- it's no excuse we've got to come out and play. I think that's what happened. I think we were sitting down too long, and we're more of a team that likes to be in rhythm and keep going.

But I'm just glad we got a good win against a good team today and we got that little rusty stuff out and we play tomorrow and play against a really good team.

Greensboro, North Carolina, USA

## Georgia Tech Yellow Jackets

### Jordan Usher

#### Postgame Press Conference

Georgia Tech 70, Miami 66

**Q. Jordan, obviously had a little bit of a slow start in the first half. The second half you kind of took over, especially when Moses got in foul trouble. What got going for you?**

JORDAN USHER: Probably just taking better quality lay-ups. I tried to push it to the rim. They were (indiscernible) of me, not just settling with the three. You know I like to get in transition. I got a couple trains in transition. I feel like that's where my game is at its best when I can get out on a run and leak out and do some things like that.

We got a couple transitions, which all came from getting stops. So we picked up our energy, picked up our defense, and got some easier trials at the basket.

**Q. Could you run us through that last play where Jose made the save on the sideline? Did you think he was going to make the save, and was that why you were sprinting down the other sideline?**

JORDAN USHER: I knew Jose was going to get it because that's my guy. And if any GT fans are listening, I'm sorry about the passing. We need to get that right. Because even with the Duke game and a couple other games, we can just seem to pass the ball and get it past half when they do a little press at the end.

But Jose is my guy. I could probably throw the ball 100 feet from him and he'll get it before it goes out of bounds. He just tries real hard all the time. Props to him on that because that would have been bad news for us.

**Q. Does it feel kind of like a relief to get through or how would you describe your feelings right now?**

JORDAN USHER: Relief, man. That really felt -- we really felt the relief after getting done with the regular season with Wake Forest. We knew we were going to come out a little stiff because we haven't played in almost a week. But it's more just appreciating the moment and knowing how good GT basketball is. And when we're firing on all cylinders -- I think we played a pretty poor overall game, and we still came out with the win.

You know, Moses had one of his only off nights, and I told him I'd rather it come now than when we're trying to play for the Elite 8 or something somewhere down the line. I just throw that in the trash and get to the next on. So not really relief, but just more excitement just for what's next for us.

**Q. Jose went down early with the knee injury. I think he hurt his leg later on in the game, but he played almost 40 minutes tonight. How much energy does it give you to see Jose pop back up after seeing like injury after injury this season and continuing to play at such a high level? What does that do for you as a player?**

JORDAN USHER: If you know Jose and really get to be around him, you don't really -- when he falls down, you really don't need -- unless I hear something break, God forbid. But he doesn't need much look at it because I know Jose is going to peel off. Like someone could screw his head off, he'll screw it back on and come play again. So you don't really got to check on him too much. You know he's always going to be ready to battle and fight. That's just how he is.

**Q. You've got Virginia again, obviously two tough games. How do you feel about facing them?**

JORDAN USHER: Yeah, so I mean, I think the first one that we played at Virginia, we let slip from us with just -- Hauser hit some really big contested threes in the second half, like close. Like I think it was -- he hit one at like the 8-minute mark and one at the 6-minute mark that were truly like contested straight up-and-down fumble threes.

I'm excited. They won the regular season, so ranked No. 1 in the ACC. We owe them one. I guess you could call it that. We definitely owe them one, and getting a chance to get it back, that's the basketball gods saying, here's your chance so go get it. I'm excited about it.

FastScripts by ASAP Sports

**Q. In the second half, you really established an offensive presence down low for the team that was lacking a little bit in the first half. Was that by design? You looked very comfortable and very appropriately aggressive challenging their bigger men inside. Was that a plan or just an energy you were feeling? How did that go?**

JORDAN USHER: Yeah, honestly, I just like to win. Some days I might not score that much, some days I might score the most. I just want to win. It really wasn't a plan, but if the opportunity is there, I'm going to take it. That's what Coach wants me to do is play aggressive. He doesn't try to take anything from my energy or passion, so I appreciate that.

I guess this is how the cookie crumbles today. I got the score in transition and we won the game. But even if I didn't and we won the game, I'm still at peace. As long as Tech wins, I'm good.

**Q. Just what you can say about the evolution of Georgia Tech basketball, not just this season but overall in your time that you've been there to get where you are right now and be in the Final Four as you advance forward in the ACC Tournament?**

JORDAN USHER: Man, it just gives me a lot of pride. I'm not really from Atlanta, I'm kind of from north Georgia, the country a little bit. I don't know if you would call it country. But just gives me pride being able to be from Georgia, play at Tech, get a chance to come home, the coaches to accept me.

And I can't give enough praise to my coaches and my teammates because not only do I feel they've elevated my basketball game but they've made me a better man and a better man. And I truly tell them that as much as I can and let them know that I love them and that the time that they spend with me and the times that we spent together just building the program up and leaving something that Coach Pastner or whatever coach is still here is going to keep pushing it through.

Because I mean, if Coach is still here he, needs to coach my son when I have a kid. I need a scholarship offer and he's going to shoot every shot. That's what I want. I just want to see Tech be killers continuously. I want to be in the semifinals year after year after year.

 . . . when all is said, we're done.®
