SUN, MARCH 5 | 9 A.M.
TWO BEST 4-OF-7 BAKER MATCHES

Tournament Format

The overall tournament winner will be the team with the highest overall per-game average. The win/loss record is the results of each head-to-head match played. Each of the 12 matches of the tournament are match play and result in a win or loss.

This record is the most important element of the event since each team's win/loss record is what is used to determine its RPI ranking and what is used to determine what seed a team will be for postseason. Place finish in an event is not included in the formula for postseason seeding. So keep your eyes on the match play records during the event. Trophies will be awarded to the first, second and third-place teams.

Individual awards will go to the top five individual averages for players that compete in all five traditional team game matches. Additionally, an MVP award will be given to the top-performing individual.
