HUSKERS SET FOR TRI-MEET WITH ARMY, GREENVILLE

The No. 5 Nebraska men's gymnastics team treks back home to Lincoln where it is set to host No. 11 Army and No. 10 Greenville in a tri-meet this Saturday, Feb. 17. The meet will commence at 1 p.m. (CT) at the Devaney Sports Center and will be streamed on B1G+. There will be an autographed poster giveaway session following the meet.

LAST TIME OUT

The Huskers look to make a comeback after their fall to Michigan this past weekend (398.850-407.700). Despite the loss, one of three team captains, Zac Tideman, impressed with strength by notching a career-best 15.00 on vault and taking second overall. Tideman also competed on high bar, claiming third place (13.75). The captain ranks seventh in the nation on vault and sixth on high bar.

In addition to the impressive marks from the Wilsonville, Ore, product, the Huskers worked to tie their current team score record on vault set back in 2018 (73.20).

Freshman Chase Mondri earned his first career Big Ten Freshman of the Week honor following his performance against Michigan. The Lawrence, Kan., native registered a 13.90 on floor, a career-best, and took second place. Mondri earned a sixth-place finish on vault (14.60).

Ahead of the meet, No. 5 NU highlights the rankings in first place on vault (72.40), based on a three-score average. The Huskers also occupy fourth position on floor (67.733) and high bar (67.10), seventh on both pommel horse (65.75) and still rings (65.533), and ninth on parallel bars (65.567).

SCOUTING THE COMPETITION

No. 11 Army fell against Navy last weekend (377.500), led by Maddox Pabellon earning the title on pommel horse (13.70) and Johnathan Pinc on vault (14.50).

No. 10 Greenville completed the fifth week of competition by securing a win against Simpson (392.950). GU features Zach Connelly as the floor titlist (13.90), and Donovan Diviney as the titlist on parallel bars (13.50) and high bar (13.25).

Devaney Center Directions: The Bob Devaney Sports Center is located on the west edge of the Innovation Campus. To reach it from the Lincoln Municipal Airport, turn right on Northwest 12th Street as you drive out of the airport. Northwest 12th Street becomes Cornhusker Highway, which intersects with 14th Street. Exit south on 14th Street off Cornhusker Highway. Travel to Military Avenue and turn left. Continue a half mile and enter the Innovation Campus. Take the first right turn before the Devaney Center and follow the access road to Lot 52 on the South Side of the arena. From Omaha's Eppley Airfield, follow the signs to downtown Omaha and I-480. Take I-480 west to I-80, then take I-80 west approximately 60 miles to I-180. Exit south on I-180, then exit east to Cornhusker Highway and follow the instructions above.

The best time for in-season interviews is after practice in the practice gym. Practice is typically held from 2 to 5 p.m. at the Devaney Center. For post-meet interviews, Nebraska gymnasts and coaches are generally available on the gym floor immediately following the presentation of team and individual event awards. The best time to reach Coach Chuck Chmelka is weekdays from 9 a.m. to 1 p.m. Interviews with Coach Chmelka should be coordinated through Maddison Lind in the Communications Office at (402) 472-2263 or (952) 992-9872 or by e-mail at mind3@huskers.unl.edu.

MEN'S GYMNASTICS SCORING

HISTORY:

Prior to 2005, both men's and women's gymnastics used the well-known scoring system with a top score of a "perfect 10." However, in 2005, gymnastics officials created a new scoring system for men's gymnastics. In this new system, there is no limit to the score a gymnast can achieve for his routine. The top performances in men's gymnastics right now are receiving scores in the 14s and 15s, and occasionally, the low 16s.

There are three components used in judging a men's gymnastics routine: difficulty, element groups and execution.

THE DIFFICULTY SCORE:

There are nine countable skills, plus a dismount. Skill values range from A to H, with A being the easiest and H being the hardest. (A: 0.1, B: 0.2, C: 0.3, D: 0.4, E: 0.5, F: 0.6, G: 0.7, H: 0.8). Judges will add the values of the 10 skills together to get the gymnasts' difficulty score.

Example Routine: E(0.5) D(0.4) C(0.3) C(0.3) D(0.4) B(0.2) A(0.1) B(0.2) B(0.2) D(0.4) equals a difficulty score of 3.0.

ELEMENT GROUPS:

There are four different element groups on each event and each group is worth 0.5. For each of the element groups that a gymnast fulfills, he receives 0.5. If all four element groups are fulfilled, a gymnast will receive 2.0.

EXECUTION SCORE:

Each gymnast automatically starts with an execution score of 10.00. Judges can take the following deductions from that 10.00 score:

Small Error	0.1 (little step, small leg separation, slight knee bend, slight arm bend)
Medium Error	0.3 (big step, medium leg separation, medium knee bend, medium arm bend)
Large Error	0.5 (large leg separation, large knee bend, large arm bend)
Fall	1.0 (falling off apparatus)

The totals of these three components are added together to reach a start value:

Execution Score	10.0
Element Groups	2.0
+ Difficulty Score	3.0
= Start Value	15.0

If the gymnast had 0.9 points taken off for execution errors, the execution score would be 9.1 and the final score would look like this:

Execution Score	9.1
Element Groups	2.0
+ Difficulty Score	3.0
= Final Score	14.1

WHAT TO LOOK FOR:

Though the scoring system is complicated, fans can still identify great routines without knowing everything about the scoring system. When watching a routine, be sure to look for:

Good Form and Execution: A gymnast should always look as though he is in complete control, even when performing the most difficult of skills. Good form in gymnastics includes pointed toes, straight arms and legs and a tightness throughout the body. Every movement should look planned.

Strength Moves Held Long Enough: On the still rings and on floor, the gymnast must stay in position for two seconds on each strength move (e.g. an iron cross).

Height and Distance: In tumbling passes, vaults and release moves, the gymnast should look as if he is exploding off the apparatus. On vault, the distance a gymnast travels from the horse is also a factor in his final score.

A Stuck Landing: On vaulting, dismounts, and tumbling passes on floor, the gymnast should end with a "stuck landing" -- he should not move his feet once they hit the ground. The gymnast is not allowed to lunge backward out of tumbling passes. (The women used to be able to do this without deduction, but it is now considered an error in women's artistic as well).

Uniqueness of the Routine: A great gymnast will perform a routine that looks different from the rest. It will have something special about it -- risky tricks, an artistic flair or skills that are simply unique from others performed in the competition.

MEN'S GYMNASTICS EVENTS

POMMEL HORSE

The gymnast must cover all three areas of the horse, the middle and both ends, while performing continuous circular movements interrupted only by the required scissor element. The only parts of the body that should touch the apparatus are the hands. The entire exercise should flow with a steady, controlled rhythm. Considered by many to be the most difficult of all men's gymnastics events, the pommel horse is also the most subtle. Each move is defined by complex hand placements and body positions. NCAA rules require gymnasts to include single leg work, circles, spindles and handstands, side and cross travels, kehres and wendeswings and a dismount. The pommel horse stands 42 inches high as measured from the top of the mat to the top of the apparatus.

FLOOR EXERCISE

The entire floor area must be used during the exercise, which consists primarily of three to five tumbling passes performed in different directions. The new NCAA scoring system requires gymnasts to include non-acrobatic elements, acrobatic forward, backward and sideward elements and a dismount. The exercise must also contain elements of balance, strength, jumps and leg circles. The area of the floor exercise mat is 40 feet by 40 feet.

STILL RINGS

The ring routine must include a swing to a handstand, swing to a strength element and a static strength skill. The exercise must also include kip and swing portions that may not lead to a held position. Examples of strength elements include a cross, an inverted cross or a planche. The rings should be absolutely still and in control at the end of each skill. The rings are 100 inches from the top of the mat.

VAULT

Each individual vault is categorized in the Code of Points, the official text giving relevant value of each skill performed. During the pre-flight from the springboard to the horse, the body must maintain proper form, i.e. legs together and straight. During the second flight, from the horse to the landing, the gymnast's body must rise and show a complete body extension before landing. The landing should be firm, without extra steps, and in line with the horse. The men's vault stands 53 inches high. The runway is a maximum of 82 feet long.

PARALLEL BARS

A parallel bar routine consists of swinging, flight and hold elements. The gymnast is required to execute swinging skills which originate from a support, a hang below the bars and an upper arm hang. Also required is at least one skill from the strength, leg swing and side bar element group. The parallel bars stand 70 inches high.

HIGH BAR

The routine on the high bar consists exclusively of swinging parts without stops. The gymnast must execute at least one move in which he releases and re-grasps the bar, and must perform at least one giant with either his back to the bar or with an "eagle" grip in which the wrists are rolled outward until the thumbs are on the outside. The gymnast is also required to perform an "in bar" skill like a stalder circle. The bar is 100 inches from the top of the mat.
